## HOUSE PASSES HOURS, WAGE BILL FOR GOVERNMENT CONTRACT FIRMS

Measure Stipulating Maximum 40-Hour Week and Prevailing Pay in Locality, Is Approved By Voice Vote.

### WORK LIMIT AGE OF 16 AND 18 YEARS

Sweatshops Barred — Proposal, Differing From One Passed By Senate Last Session, Now Goes to Conference.

WASHINGTON, June 19.—Legislation to place maximum-hour, minimum-wage and other labor limitations on persons who sell goods and materials to the Government was passed today by the House.

The measure, differing widely from the Walsh bill passed in the Senate last session, faced a conference between the Senate and House in an effort to reconcile the differences.

As approved by the House after being advanced to the point of passage in a special night session last night, the so-called Walsh-Healey bill provides that for principal contractors in amounts of \$10,000 or more, except for articles purchasable ordinarily on the open market, these labor requirements would apply:

The 40-hour week and eight-hour day, prevailing wage in the locality; minimum working age of 16 years for males and 18 years for females; prohibition of sweatshops, home-work and convict labor.

The measure would be administered by the Secretary of Labor. The original Senate bill would have applied to subcontractors down the line.

The measure, approved at the last session by the Senate, was attacked in debate last night as "a substitute for the defunct NRA," and defended as a cure for "vicious evils."

Representative Wadsworth (Rep., New York), described the bill as an NRA substitute and said it would make Secretary of Labor Perkins a "dictator of wages."

Representative Healey (Dem., Massachusetts), co-author, denied this and said the provisions would "cure vicious evils that have crept up in Government contracts because the present law requires that contracts must be given to the lowest responsible bidder."

The American Federation of Labor supports the bill.

### EXCURSION STEAMER LANDS 1400 PASSENGERS, THEN SINKS

Hits Rock in Detroit River and Roes to Port, Stokers Working in Water Waist Deep.

DETROIT, June 19.—The excursion steamer Tashmoo, a rock in the lower Detroit River and, with water pouring through a hole in her side, raced three miles to Amherstburg, Ontario, early today and landed her 1400 passengers safely. The ship sank a half hour afterward. The lower deck is under water.

In the race for shore passengers danced to the music of a band while boiler stokers worked in water waist deep. The run for shore took 10 minutes. A coast guard patrol boat and tug, answering distress signals, convoyed the vessel.

The passengers, taking the affair as a lark, refused for a time to leave the Tashmoo.

Capt. Donald McAlpine said: "There was no confusion and no excitement. The crew performed wonderfully and few of the passengers knew anything was wrong."

100 REPORTED DROWNED  
IN BOAT UPSET OFF KOREA

## New Star in Milky Way Sighted by Astronomers

Body Flares Into Medium Brightness—First Reported by Amateur Observer at Delphos, O.

By the Associated Press.

CAMBRIDGE, Mass., June 19.—Astronomers in many parts of the world have reported the discovery of a nova, or new star. Harvard Observatory scientists said the star was exploding at the rate of 1000 kilometers (625 miles) a second.

The star appeared in the Milky Way, in the constellation of Cepheus. To the naked eye, it seemed of medium brightness, about halfway between the faintest and brightest stars. Astronomers ranked it as the third magnitude.

The first report to reach Dr. Harlow Shapley, director of Harvard Observatory, came from L. C. Peltier of Delphos, O., a garage employee and one of the world's most distinguished amateur astronomers. Only recently Peltier discovered a new comet. Soon word of the nova's discovery came from astronomers elsewhere, in Europe and America.

Messages from Denmark and Italy told of the sighting of the star. Scientists began a check of photographs of the skies made over a period of many years in an effort to learn more of the past of the

new star and its movement through space.

New stars are not strictly new, astronomers explain. They have existed for ages, usually as steadily shining stars, probably invisible except through powerful telescopes, because of their great distance from earth. Like most stars, astronomers say, they are suns, very similar to the sun about which the earth revolves.

Suddenly they increase in brightness and, within a few hours, may rival the brilliance of the brightest stars. Sometimes they become as bright as the planet Venus. Later, they fade slowly to their former state.

Theories to explain the behavior of the nova include the suggestion that the stars suddenly explode. Another theory suggests collision with some other body, or with matter floating in space.

The most noted recent new star was Nova Hercules, appearing in the constellation Hercules Dec. 13, 1934, which rose from invisibility to first magnitude and since has had alternating periods of brilliance and faintness.

### THUNDERSHOWERS POSSIBLE TONIGHT; COOLER TOMORROW

THE TEMPERATURES.

1 a. m.	73	5 a. m.	83
2 a. m.	73	6 a. m.	84
3 a. m.	70	7 a. m.	81
4 a. m.	68	8 a. m.	77
5 a. m.	68	9 a. m.	77
6 a. m.	68	10 a. m.	77
7 a. m.	71	11 a. m.	80
8 a. m.	80	12 p. m.	84

Yesterday's high, 87 (3:45 p. m.); low, 64 (5 a. m.).

Relative humidity at noon today, 29 per cent.

### Official forecast for St. Louis and vicinity: Possibly scattered thundershowers this afternoon or tonight; tomorrow generally fair; cooler tomorrow.

Missouri: Generally fair tonight and tomorrow, possibly local thundershowers in north portion this afternoon; cooler in northwest portion tonight, and in west and north portions tomorrow.

Illinois: Somewhat unsettled, possibly local thundershowers this afternoon or tonight in northwest and west central portions, and elsewhere tonight or by tomorrow; warmer tonight, cooler in central and north portions tomorrow.

Sunset 7:29; sunrise (tomorrow), 4:35.

### 100 For First Time This Year.

The temperature reached and exceeded 100 degrees this afternoon for the first time this summer and established a new high temperature record for so early in the season. The thermometer reached 100 degrees at 1:45 p. m. and at 4 p. m. was at 104 degrees. The previous high record for June was 102, reached on June 28, 1934, and on other June days in previous years.

### G. O. P. TO SEEK \$3,000,000 THROUGH CHAIN LETTER PLAN

Each Recipient to Be Asked to Send Dollar to National Treasurer.

CHICAGO, June 19.—The Republican national treasurer, Charles B. Goodspeed, announced yesterday a plan to raise \$3,000,000 for the coming campaign through sale of "dollar certificates"—"shares" in campaign "stock" which cost contributors \$1 each.

Letters would be sent out to a million persons, he said. In each of these would be three envelopes, to be given to the recipients' friends. Each would be requested to return the envelope to the party treasurer with a dollar bill in it.

A good percentage of return was indicated, Goodspeed asserted, by experiments in the last six weeks. He said the "dollar certificate" sale had already met with an enthusiastic response, particularly since the national convention.

The certificate sale totaled \$18,000 in May, the treasurer said. Before the Cleveland convention the daily average was \$700. The day after the ticket was chosen, this amount jumped to \$1500, and on Monday of this week went to \$2500.

At the end of the convention, he said, the campaign chest held between \$250,000 and \$300,000.

### MISSING SHIP GIRL PAT CAPTURED AFTER CHASE

Government Steamer Rams Trawler Off British Guiana as It Tries to Escape.

By the Associated Press.

GEORGETOWN, British Guiana, June 19.—The Government steamer Pomeroon rammed and captured the English trawler, Girl Pat, today a few miles off the coast, ending a 10-week search in many seas for the runaway vessel. The trawler was thought to have been seeking buried treasure.

The 25-ton motor trawler, with a crew of five, set out from Grimby, England, on April 2, presumably bound for its regular North Sea fishing grounds.

Instead, it went down past the Salvage Islands, legendary hiding place for the stolen millions of Capt. William Kidd, to the African Coast, and across the South Atlantic.

The end came when the Girl Pat's fuel supply was gone and all ports virtually closed to the ship. It anchored yesterday for repairs off the Georgetown Beach. A police launch which came alongside was told: "We're outside the three-mile limit. Get out, or we will sink you."

A patrol plane kept the Girl Pat under observation until word came from London to take armed police aboard and capture the craft.

For two and a half hours after the Pomeroon came alongside the Girl Pat refused to surrender, trying to escape under emergency sail. The Pomeroon then rammed the ship, smashing the bulwark, before the crew would accept a towline.

The crew was taken to Georgetown where charges of marine theft were preferred by an agent of Lloyd's, the underwriters.

### CADET SAILING SHIP REACHES TAHITI, ALL ABOARD WELL

Twenty Youths on Joseph Conrad, Owned by Alan Villiers, American Author.

PAPEETE, Tahiti, June 19.—The sailing ship Joseph Conrad, cruising around the world from New York, arrived here today with all on board in good health.

The ship, regarded as the smallest in the world with full rig, came here from Melbourne, Australia, which she reached last Dec. 31, after a voyage of a year from New York.

The Joseph Conrad is the property of Alan Villiers, Brooklyn author. Some anxiety had been felt recently for the safety of the ship. With Villiers are about 10 men and 20 youths sailing as cadets.

### BODY OF MAXIM GORKY LIES IN STATE IN HALL OF UNIONS

Funeral Ceremonies Tomorrow Evening in Red Square for Famous Russian Author.

MOSCOW, June 19.—The body of Maxim Gorky lay in state today in the Hall of the Unions as a long line of admirers of the famous author gathered to pay their respects. He died yesterday after a 10-day illness of pneumonia.

The writer's body will be cremated tonight and his ashes placed in a niche in the wall of the Kremlin. Funeral ceremonies will be tomorrow evening in the Red Square, where a huge popular demonstration is expected to attract at least 100,000 persons.

## 13 CHILDREN DROWNED IN MAINE LAKE ON PICNIC

Two Saved When Outboard Motorboat Capsizes on Lake Gardner Near Marion, Me.

By the Associated Press.

MARION, Me., June 19.—Thirteen Lubec children, visiting Lake Gardner for a picnic, drowned today when an outboard motorboat capsized. Two others were saved.

The bodies of two boys were recovered and police and firemen dragged the lake for the others.

Teachers endeavored, under extreme difficulty, to check the 50 children attending the picnic, in order to learn the identity of those drowned.

Parents from Lubec, 25 miles away, hurried to the lake shore when word of the tragedy reached there. They crowded the shore near Gardner's landing, not far from which the boat tipped as it made a turn, throwing the children into 10 feet of water.

Boats, blankets and first aid supplies were sent to the lake from the Massachusetts Institute of Technology summer school a half a mile from the scene.

Rescuers worked a long time over the two bodies recovered, but in vain.

A strong wind, causing choppy waves, was thought to be a contributing factor in the accident. The children were students at No. 5 east and No. 5 west elementary schools of West Lubec.

The names of the boys whose bodies were recovered are thought to be McCurdy and Sleight.

### HOUSE PASSES BILL TO DEPORT ALIENS FOR SUBVERSIVE ACTS

Would Authorize Proceedings Against Non-Citizens Engaging in Certain Political Activity.

WASHINGTON, June 19.—The House passed and sent to the Senate yesterday the Dickstein bill to authorize deportation proceedings against aliens who engage in political activities or propaganda, "instigated from foreign sources," which would be subversive and contrary to the Constitution.

The Secretary of Labor would be authorized to act against any alien who attempted to gain support in this country of any governmental policy subversive of the principles of the Constitution, or extension into this country of religious or racial prejudices.

Another bill passed and sent to the Senate would permit the transportation, at Government expense, of any alien who is on the relief rolls and desires to return to his native country.

The House also passed and sent to the Senate a bill by Representative Dickstein (Dem., New York), which proposed to include persons to the United States of alien actors, singers and orchestral conductors to the number of American artists allowed to enter foreign countries.

### SOLDIERS DISTRIBUTE FOOD AS BELGIAN STRIKE SPREADS

Shortages Fared in Some Cities; Five Demonstrators Injured at Quaregnon.

BRUSSELS, June 19.—Police and army reserves were called out to assist in supplying residents with food today as the Belgian strike movement spread. Food shortages were feared in some cities.

Disorders at Quaregnon, Cuesmes and Jemappes were reported by the Ministry of the Interior. One woman died of excitement at Quaregnon and five demonstrators were injured when police removed barricades erected by the striking employees.

Roosevelt Calls Off Week-end Trip. By the Associated Press.

WASHINGTON, June 19.—President Roosevelt decided today to forego his usual week-end boat trip in order to be close at hand for the wind-up of Congress. Shortly after his press conference today, the President received Senator Byrnes (Dem., South Carolina), one of the administration leaders. Byrnes said afterward they talked about legislative matters.

## URGES SUSPENSION OF M. J. HANNIGAN AND O. M. GALLANT

Special Commissioner D. E. Williams Recommends Action Against Two St. Louis Attorneys.

By the Associated Press.

A recommendation that Otis M. Gallant and Marion J. Hannigan, former law partners, be suspended from practice in Missouri State courts for one year was made today by D. E. Williams of Troy, Mo., special commissioner, who heard the State Bar Committee's case against the pair last February.

The Court granted a period of 10 days within which the accused attorneys may file exceptions to the commissioner's report.

In his report Williams recommended that the Court find them guilty of the charges contained in the first two counts of the Bar Committee's disbarment petition—solicitation of personal injury damage claims and use of runners in procuring law business—and dismiss the third count, which charged division of fees with persons not lawyers.

"A Well-Defined Scheme." After reviewing the evidence in detail, Commissioner Williams said that it disclosed "a well-defined scheme for the solicitation of cases on a rather large scale," particularly through two paid agents who were among half a dozen or more non-lawyer employees of the firm.

The evidence, he said, was ample to sustain the charges of barratry, solicitation of litigation, and solicitation of claims both by the attorneys and their runners.

He pointed out that it had been shown that the law firm was retained in 190 occupational disease cases between February, 1934, and the middle of the following summer, the period of its greatest activity. The State Bar Committee had charged the lawyers with "wholesale" solicitation.

Commissioner Williams pointed out also that the evidence indicated instances of solicitation of cases not involving occupational disease. He referred to two personal injury damage suits growing out of traffic accidents.

"Paid Agents and Runners." The evidence shows conclusively that the respondents (Gallant and Hannigan) employed paid agents and runners to induce persons who might have lawsuits to employ respondents to represent them. "It was unprofessional, unethical and unlawful for them to employ paid agents and runners to go out and find persons and suggest to them that they should file claims or bring law suits and urge that they employ respondents. I am not unmindful of the fact that it has been held legal for lawyers to hire lay investigators, but I have found no case which would justify the respondents in including persons to solicit cases. Certainly what a lawyer cannot legally do himself, he cannot do through paid agents."

Referring to evidence that the law firm obligated itself to pay physicians fees for examination of clients and paid expenses of transporting the out-of-town clients to and from St. Louis, the Commissioner said that, in view of the financial circumstances of the clients, the attorneys must have known that the money would never be repaid, except in event of successful settlements.

"Beyond the Rule." This goes beyond the rule of law which permits an attorney to make advances to a destitute client for his support after examination of clients and payment of expenses of transporting the out-of-town clients to and from St. Louis, the Commissioner said that, in view of the financial circumstances of the clients, the attorneys must have known that the money would never be repaid, except in event of successful settlements.

## Gunman for Black Legion And Mayor He Was Sent to Kill

DAYTON DEAN (right) and WILLIAM VOISINE. DEAN, held in the Detroit inquiry into the masked order's activities, has admitted he was one of the night riders assigned to kill Voisine, president of the village of Ecorse, an office corresponding to mayor.

### POSTAL CIVIL SERVICE EXTENSION BILL FAILS

House Votes 204 for It, 112 Against, But Two-Thirds Was Necessary.

By the Associated Press.

WASHINGTON, June 19.—After a bitter partisan fight, a bill to place all first, second and third class postmasters under civil service failed in the House today. It was considered under suspension of the rules, which requires a two-thirds majority to pass legislation.

The roll call, forced by Minority Leader Snell of New York, was announced as 204 for the bill and 112 against—insufficient for passage.

Fourth-class postmasters already are under civil service. Republicans contended the bill by Chairman Ramspeck (Dem., Georgia), of the Civil Service Committee, was not a sincere effort to remove the postal service from political control and was an attempt by the administration to "freeze" all incumbent postmasters in office.

Ramspeck replied that, if the Republicans were sincere about the civil service plank in the platform, they would support the measure. He conceded "this does not provide a true merit system, but it is the best and fairest bill with any possibility of passing."

During the debate, the resignation of Postmaster-General Farley, if he continues to serve as Democratic national chairman, was demanded by Representative Treadway (Rep., Massachusetts). He called Farley the "three-in-one political oil machinist" of the New Deal.

### FIVE KILLED, EIGHT WOUNDED IN DISORDERS IN SPAIN

Clashes Occur at Three Towns—100,000 Workers Still on Strike.

MADRID, June 19.—Five persons were killed and eight others wounded today in political clashes in three Spanish towns.

Strikes continued throughout the country, with 100,000 workers away from their jobs in Madrid. Officials at Barcelona, where 100,000 store employees walked out yesterday, ordered the proprietors to open today. There were no disorders.

Two Rightists were killed and another seriously wounded in an encounter with Leftists at Santander. A group alleged to be Fascists raided a tavern at Valladolid and killed two persons and wounded six.

A farmer was fatally injured and another hurt as they were returning from an agricultural meeting at the town of Moron in Seville province.

### IRISH ARMY CHIEF SENTENCED

3 Years for Membership in an Unlawful Association.

DUBLIN, Irish Free State, June 19.—A military tribunal today sentenced Maurice Twomey, chief of staff of the Irish Republican Army to three years' imprisonment for being a member of an unlawful association and refusing to account for his movements.

## ADJOURNMENT NEAR AFTER AGREEMENT ON TAX BILL

Robinson Predicts Congress Will End Session by Tomorrow Night With Final Approval of Revenue Legislation.

By the Associated Press.

WASHINGTON, June 19.—A newly shaped tax plan designed to raise \$800,000,000 through taxes on undivided corporate profits and other major revisions of the revenue structure, aroused emphatic dissent among some Senators today but administration leaders said it would go through Congress by tomorrow night.

Leaders expected that President Roosevelt would approve the tax plan, which was agreed on in a Senate-House conference committee last night. It goes far to meet his request for taxes to induce corporations to distribute more income to stockholders and for additional taxation on dividends.

The conference agreement must be ratified by both chambers. It is expected to encounter no serious trouble in the House, but some Senate opponents went so far today as to say privately that nearly half the members of that body already had determined to vote against it.

Warm Debate Certain. House leaders planned an overtime session tonight to act if possible on the tax compromise.

But even before the report was placed before either House it was clear there would be warm debate over it before Congress could adjourn.

Senator Vandenberg (Rep., Michigan), took the Senate floor to characterize the compromise as "a climax in the attempt to wreck the economy, which has become a national curse."

Opponents said this and other opposition would produce at least 41 votes against the measure.

To Fall Like a Plague. Vandenberg interrupted Senate debate on other measures to read a prepared statement condemning the tax compromise as a "make-shift product of a star chamber House and Senate conference which, in sheer desperation, has subordinated principle to expediency."

He said that the bill was "at war with the public welfare and will fall like a plague upon many of its victims."

"It races toward the further destruction of every real impulse which would encourage recovery, re-employment, and recaptured security. It will deserve the thundering rebuke which the American people will register against it when they understand what has been done to them."

Anxiety to Adjourn. Condemning the tax bill as an "arrogance" and a "legislative crime," Vandenberg contended that it was "precipitated more by an anxiety to adjourn than by any adequate consideration as ought to precede a new levy of some \$700,000,000 upon the already breaking backs of American taxpayers."

He said that it "reaches for more and ever more revenue without any semblance of correlating effort to economize—to economize even just a little—in Government expenditures."

It would be a "punitive tax on surplus" and "the worst of the serial assaults that are being made on thrift and prudence," he declared, adding it would "encourage 'big business' and monopoly" and "crucify" small business, and "more candidly approach the Fascist state."

Vandenberg ended by saying the bill was "beyond extension or apology."

Chairman Doughton of the House Ways and Means Committee said it was not yet certain whether the report would be ready tonight but that it was being pushed in the hope the House could dispose of it tonight and have it ready for Senate action tomorrow.

## HOUSE COMMITTEE FINDS FRAUD IN REALTY DEFAULTS

Legislation for Government Supervision of Bondholders' Protective Committees.

WASHINGTON, June 19.—Legislation for Government supervision of bondholders' protective committees and others who handle liquidation of defaulted real estate securities on the part of the House today by a subcommittee of the committee on Banking and Currency.

The committee, headed by Representative Sabath (Dem.), Illinois, the committee reported that "disclosures indicate that the industry has been engaged in a systematic effort to defraud the public and to evade the income-tax laws, and to avoid the scrutiny of the Department of Justice and the Bureau of Internal Revenue."

The committee finds many instances of fraud and evasion of the income-tax laws, and the unjust and inequitable treatment of bondholders in bankruptcy actions, and the unjust and inequitable treatment of bondholders in bankruptcy actions, and the unjust and inequitable treatment of bondholders in bankruptcy actions.

The committee also finds that the industry has been engaged in a systematic effort to defraud the public and to evade the income-tax laws, and to avoid the scrutiny of the Department of Justice and the Bureau of Internal Revenue.

## P. S. CO. SEEKS TO RECALL OFFER ON BOND INTEREST

Kiel Makes Request in U. S. Court After Banks File Exceptions to His Plan to Pay Loan.

THEY ADVANCED  
\$10,000,000 IN 1927

Their Plea States Present Value of Collateral Is \$7,500,000 Less Than Total Claims.

Trustee Henry W. Kiel of the St. Louis Public Service Co. sought leave today in the court of Federal Judge Charles B. Davis to withdraw an application for authority to pay \$7,718,750 interest which was due July 1, 1934, on the company's bonds. Attorney Charles H. Daves, who presented the request for Kiel, said the step was taken because banks, which made a \$10,000,000 reorganization loan to the company in 1927 and now hold \$16,626,000 of the company's bonds as collateral, have insisted on applying their part of the bond interest toward their claim for interest on the loan subsequent to the reorganization.

Trustee Kiel, on the other hand, insisted the banks should apply the bond interest, if paid, toward reduction of the principal of the loan. Judge Davis took Kiel's plea under advisement.

The banks, which called the loan April 12, 1933, forcing the company into receivership, yesterday filed exceptions to Kiel's proposed method of dealing with unpaid principal and interest of the loan.

The plea of the banks disclosed that the present market value of the collateral they held to secure the loan (\$16,626,000 of United Railways 4 per cent bonds) is about \$7,500,000 less than the aggregate of their claims for principal, interest and attorneys' fees.

Proposal of Kiel.

Kiel had recommended that the unpaid principal, about \$9,999,653, be recognized as a valid claim against the company, but that payment of interest and attorneys' fees be made only out of any funds which might be realized from the sale of the collateral, in excess of the principal due. As the bonds which are held as collateral are selling at \$22.25 on the \$100 par value, their present market value is only \$5,371,885, or \$4,127,768 less than the unpaid principal.

The banks contended they were entitled to 8 per cent interest from April 12, 1933, which would amount to nearly \$2,500,000, and to 10 per cent attorneys' fees for collection, amounting to \$949,965. The banks asked that the interest and attorneys' fees be recognized as general claims, and that their right be recognized and reserved to foreclose on and sell the collateral and to have recognized as a general claim any deficiency by which the proceeds of the collateral may fall short of the unpaid principal.

Plea for Syndicate of Banks.

The exceptions were filed by the First National Bank in St. Louis as manager for a syndicate of banks which joined in making the \$10,000,000 loan, and by the Mercantile-Commerce Bank & Trust Co., which previously had segregated its part of the loan, which was \$700,000.

On April 12, 1933, the banks called the loan, demanding payment, which the company was unable to make, and sequenced \$500,347 of the company's funds they held on deposit, applying this sum toward reduction of the loan. This forced the company into receivership and former Mayor Kiel was appointed receiver and later was made trustee under the company's reorganization application.

Explaining Kiel's opposition to the proposal of the banks to apply bond interest if paid now, to their claim for interest on the loan subsequent to the receivership, Daves said that if the banks were allowed interest on their notes during the bankruptcy all other creditors would be entitled to claim interest and the proceeding would become deeply involved and obligations of the company would be greatly increased.

A hearing on Kiel's recommendation to admit the principal of the bank loans as valid claims was set for Sept. 19.

GUILTY PLEA IN TUB MURDER

Charles Hope to Be State's Witness in Trial of R. S. James.

LOS ANGELES, Cal., June 19.—Charles Hope, on whose story Robert S. James is accused of the murder of his sixth wife, Mary, pleaded guilty today to first degree murder charges. Sentencing was set for July 10.

Deputy Public Defender E. E. Coff said Hope would be a prosecution witness when the trial of James starts Monday. Hope, saying he was hypnotized by James, has told District Attorney's office investigators that he aided James in the murder.

James, who was failed to bite her, Hope said, she was drowned in a bathtub.

## R. H. COTHAM, HOTEL FIRE PLOTTER, DIES

Former Buckingham Night Clerk Recently Testified Against Ralph Pierson.

Robert H. Cotham, night clerk at the old Buckingham Hotel, who confessed participation in the arson plot which resulted in destruction of the Buckingham Annex by fire with a loss of seven lives, died last night at City Hospital of heart disease and other ailments. He was 64 years old.

Cotham, serving a 10-year prison sentence for his part in the plot, was brought to St. Louis last month from the Jefferson City penitentiary to testify for the State in the trial of Ralph Pierson, part owner of the hotel. Pierson, found guilty of murder, was sentenced to life imprisonment. Two other convictions had been set aside because of prejudicial errors during the trial.

Cotham's testimony during Pierson's trial was given over the objection of Pierson's attorney, who argued that because of Cotham's condition any statement of his would assume "the solemnity of a dying declaration."

He was taken to court on a hospital cot and spoke with great difficulty. Frequent interruptions were necessary to enable Cotham to gain strength to continue his testimony. After the trial he was returned to the City Hospital prison ward because of his condition.

Cotham died five years to the day after he had pleaded guilty of murder in the arson plot and received his 10-year sentence. For many years he had been suffering from heart disease, rheumatism, and I've developed sinus trouble. I've been at the hospital a good while since my arrest. I'd like you to make it as low as you can. I'd like to live as long as I can."

Cotham's story was that Pierson approached him in November, 1927, with a suggestion that he get someone to set fire to the hotel "so that they could collect on the insurance." Cotham said he arranged with Andrew B. Meadows, night watchman at the hotel, to set the fire. Meadows, who is serving a life term for murder, was to get 10 per cent of the insurance money but actually got \$700 or \$800, Cotham said. The fire occurred on the morning of Dec. 5, 1927.

LAUNDRY MANAGER FINED \$50 FOR OBSTRUCTING SIDEWALK

Racks in Front of Place for Curb Service; Defendant Says He Paid for Faving.

Lucian E. Krone, vice-president and general manager of Glick's Laundry, Inc., 5190 Delmar boulevard, was fined \$50 by Provisional Police Judge Vincent Flynn today for violation of the city ordinance which forbids obstructing the sidewalk.

An inspector from the Department of Streets and Sewers testified that the laundry had two racks out in front of its building on which it hung suits, dresses and other clothing. He said the racks had been cleaned or laundered and that it conducted a "curb service" business.

Krone said that there had been a similar complaint against him two years ago, but that he heard nothing more of it after he paid for the paving on the sidewalk in front of the laundry. He said he recently applied for a permit which would permit him to have the racks on the sidewalk but that it was not issued to him.

Four Killed in Gas Explosion.

RUSSELL, Kan., June 19.—Four men were dead today from burns suffered in a gas explosion at an oil well near here Wednesday night. Six other persons were under treatment for burns. Clyde Cain and his son, Donald, died today. Edward Wright, driller, and W. T. Lusher died yesterday. The gas ignited as the men were cementing casing.

## ON COURT AND WPA PAYROLL AT SAME TIME

Discovery of Fact Leaves Beauford Miller, Negro, Without Either Job.

Beauford Miller, Negro deputy probation officer of the Juvenile Court, who was one of eight members of the staff discharged last month by Circuit Judge Eugene J. Sartorius, was holding an \$85-a-month WPA job at the same time he was on the Juvenile Court payroll at \$1800 a year, it became known today.

Now Miller has neither job, although he and four others who were dismissed by Judge Sartorius have filed an application in the St. Louis Court of Appeals for a writ of prohibition in an effort to preserve their Juvenile Court jobs.

He was notified, on May 17, that he would lose his Juvenile Court job at the end of the month and on May 20 he was dismissed from the WPA job when Joseph A. Mend, WPA administrator, learned of his two jobs.

Miller, Amend said, was certified for a WPA job last August by the Missouri State Employment service, and was assigned to a job in the educational program last Jan. 12. At that time it was not known to WPA officials that on Oct. 15 he had obtained the Juvenile Court job.

He was able to carry on both jobs because of the irregular hours of probation officers, who do much of their work in the field.

The St. Louis Relief Administration is expected to cancel the certification for WPA employment when the need of a person for such a job no longer exists. The Relief Administration said it had not learned of the job Miller obtained with the Juvenile Court in October. Most WPA workers were taken from the relief rolls, but Miller never had been on relief.

THE REV. JOSEPH B. CASEY  
DIES AFTER LONG ILLNESS

Was Former Assistant at Church of the Visitation; Funeral Services at 10 A. M. Monday.

The Rev. Joseph B. Casey, former assistant pastor of the Church of the Visitation, Taylor and Evans avenues, died last night at Alexian Brothers' Hospital where he had been an invalid for about 10 years. He was 60 years old.

Before his assignment to the Visitation Church, Father Casey had been pastor of Catholic churches at Mexico and Desloge, Mo., and assistant at St. Michael's and St. Leo's churches here.

The body will be taken to the Church of the Visitation Sunday afternoon at 4 o'clock to lie in state until funeral services at 10 a. m. Monday. Priests of the diocese will chant the office of the dead Sunday night at 8 o'clock.

Surviving are three brothers, Louis, Frank and Brennan Casey, who live in St. Louis, and a sister, Mrs. A. B. Cashin of Chicago.

GETS 10 YEARS FOR LURING  
GIRL, 10, FROM ST. LOUIS

Sabato Cammarano Sentenced to Penitentiary, Fined \$5000 at South Bend, Ind.

Special to the Post-Dispatch.

SOUTH BEND, Ind., June 19.—Sabato Cammarano, alias James Cranston, ex-convict and former Salvation Army band player in St. Louis, was sentenced to 10 years in the Federal penitentiary at Leavenworth and fined \$5000 today by Federal Judge Thomas W. Slick on his plea of guilty of luring the Mann Act in luring 10-year-old Juanita Ousley from her home in St. Louis in May, 1935, and forcing her to accompany him on a two-week trip.

Cammarano was arrested last month in Seattle, Wash., where he had been living under the name of Cameron, when a Deputy Sheriff recognized him from a picture in a police circular. Cammarano had been indicted after he abandoned the child in a Gary (Ind.) hotel following a trip by bus through Illinois and Indiana.

ALDERMEN VOTE  
TO SPEND \$882,600

Armory Appropriation Included—Two Bills Introduced for Outlay of \$199,000.

Four bills appropriating a total of \$822,668 were passed by the Board of Aldermen today and two others introduced would appropriate \$199,250 more.

Appropriations voted were: \$780,388, constituting the balance in the \$1,000,000 bond item of 1934 for a new National Guard armory, to be used for the superstructure of a building at Spring avenue and Market street; \$10,570 of municipal revenue for purchase of a site for a second garbage grinding plant at Fifteenth and Gratiot streets from the Frisco Railway at the assessed valuation of \$1 a square foot; \$27,200 for relief funds for the city's one-third of the cost of the State Employment Bureau here for the year ending July 1, the balance coming from the State and Federal governments; \$4000 from municipal revenue for the relief of Mr. and Mrs. John H. Brandes, whose son, Robert, was drowned in the Fairground Park swimming pool last August.

In the case of the armory appropriation, the vote was 22 to 7. A contract has been awarded for the armory substructure. Robert Brandes, 16 years old, 4114 Clay avenue, was drawn into an open drain pipe in the pool. The city Counselor held that the drain had been left open through carelessness.

A bill was introduced to appropriate \$100,000 of 1933 bond funds for purchase of about 45 or 50 acres of land for a park or playground somewhere in the region bounded by Natural Bridge and West Florissant streets, Union boulevard and the city limits. Alderman Emmett Golden, the sponsor, explained that advocates had in mind a site near Riverview boulevard and Stratford avenue, adjoining 30 acres of vacant land held by the Board of Education.

A bill to appropriate \$99,250 of 1934 bonds for a site for a Negro community center on the west side of Sarah street, from West Belle place to Fairfax avenue, was introduced by Alderman Allan E. Petersen. The site would include the old Danmore hospital property.

Condemnation of the city block bounded by North Market street and Spring, Prairie and St. Ferdinand avenues for a playground for white children would be authorized under a bill introduced by Alderman Walter W. Ziegenbalg. The property is owned by the Public Service Co. and used now only for storage of old cars.

The Board of Estimate and Apportionment today approved bills for \$9850 rendered by B. H. Charles, special bond counsel, for advice on bond issues questioned since last Oct. 1. The bills, to be paid from the bond issues involved, were at the rate of 1-10 of 1 per cent of the bonds passed on.

DRUNKEN DRIVER FINED \$50

Negro Pleads Guilty; Loses License for Year.

Lionel Spivey, a Negro, was fined \$50 today when he pleaded guilty before Circuit Judge Robert J. Kirkwood of driving an automobile while intoxicated. His driver's license was revoked automatically for one year.

Spivey was arrested April 11, after driving his automobile in an erratic manner along Twenty-second street near O'Fallon street.

"Murder and Suicide" at Chicago.

CHICAGO, June 19.—Mrs. George Jensen, 46 years old, wife of a policeman, and Myers Nielsen, 33, were found shot to death last night in the home of Nielsen's sister, Mrs. Lillian Klein. Police say William Mangano said it was murder and suicide. Mrs. Klein said her brother, who lived with her, had separated from his wife five years ago.

## DYNAMITERS WRECK UNION ELECTRIC TOWER

Power Line Cut by Explosion in Illinois Across River From Crystal City.

A transmission tower of the Union Electric Light & Power Co. on the east shore of the Mississippi River, opposite Crystal City, was bombed last night at 10:50 o'clock, causing a 40-minute break in electric light and power service in Jefferson County.

E. T. Manley, superintendent in the county for the power company, could find no reason for the bombing.

The tower bombed was No. 192, almost directly opposite Crystal City and just north of the point where the power line from the Cahokia plant crosses the river to Jefferson County. The power line carries 132,000 volts from the Cahokia plant to Bagnell Dam. The force of the explosion not only caused the tower to collapse but tore a large hole in the ground at the base.

The explosion was heard in Crystal City and Festus. Electric current for the county was later furnished by the power lines from Bagnell Dam. Service from Cahokia to Jefferson County is expected to be resumed within three days, Manley said.

## 8 CONVICTS FIGHT

## GUARDS ON TRAIN

Prisoners En Route to Leavenworth Subdued by Officers After Half Hour.

By the Associated Press.

CHICAGO, June 19.—Eight rebellious convicts were subdued by their five guards in a fight aboard a speeding train last night while en route from Toledo, O., to the Leavenworth Federal penitentiary.

The prisoners, seven of them narcotic law violators, screamed demands for drugs, fought their wardens, threw glasses and tables, shattered windows and wrecked the interior of their special Pullman car before they were forced into submission.

United States Deputy Marshal Jesse Sell of Toledo, in charge of the convicts with four other deputies, reported:

"Just as we passed Elkhart, Ind., the prisoners asked that their bonds be removed so they could play cards. I allowed the handcuffs to come off but left the leg irons on.

"The men began to shout for narcotics. They seized the card tables and threw them at us."

Notified of the outbreak, 25 Chicago detectives, Federal narcotic agents and Dr. Leonidas Barry, Police Surgeon, raced to the La Salle street terminal. The mutineers were handcuffed and under control, however, when the train arrived.

Dr. Barry said he treated the bruises and bandaged the cuts of the injured men and administered sedatives.

Another Pullman car was provided and the officers left with their prisoners later for Leavenworth.

## THREE CONVICTS KILL

## GUARD AND ESCAPE

Texas Prisoners Ride Away From State Farm on Horse and Two Mules.

By the Associated Press.

RETREIVE PRISON FARM, Tex., June 19.—Three long-term convicts killed Guard Felix Smith on the State prison farm here today and fled into dense underbrush on Smith's horse and two mules.

T. N. Atkinson, habitual criminal serving life; Luke Trammel, serving 25 years for murder and robbery; and Forrest Gibson, serving 10 years for theft, were those who escaped.

They attacked Smith just as a plowing squad was being taken to the fields for work. The guard was riding behind the convicts, who were mounted on mules.

Without warning, the three prisoners threw Smith from his saddle, disarmed him and shot him to death with his two pistols.

## F. D. R. JR. LOSES HIS SHIRT

President's Son Member of Crew Defeated in Boat Race.

By the Associated Press.

NEW LONDON, Conn., June 19.—Franklin D. Roosevelt Jr. lost a shirt today for the third time under the terms of an old Yale-Harvard custom.

The President's son rowed No. 6 in the Harvard shell in the junior varsity race with Yale this morning. Yale won and took the shirts of the losing oarsmen. Rumor has it that Roosevelt Jr. lost his shirt in the Yale boat, got young Roosevelt's. Two years ago the President's son rowed with the losing Harvard freshmen. Last year the Harvard junior varsity crew, of which he was a member, lost.

## SERVICE BOARD APPROVES BRIDGE APPROACH BILL

Measure Authorizing St. Clair County Construction Goes to Aldermen.

The Board of Public Service voted formal approval today of a bill authorizing St. Clair County, Ill., to construct the western approach of a Mississippi River highway toll bridge over city streets and alleys east of Broadway and north of Mullanphy street.

Informal approval was given yesterday. The bill went to the Aldermanic Streets Committee.

On recommendation of Acting City Counselor Louis A. McKeown,

the Board of Public Service amended the bill to provide for a rental charge by the city of 5 percent of the gross receipts of the bridge, comparable to the charge on public utilities using the streets. This took the place of a proposal made Tuesday by President Baxter L. Brown of the board, that the bill require that tolls on the

county bridge should never be lower than those charged on the Municipal Bridge. Counsel for the county and McKeown pointed out that the county's congressional franchise for the bridge provided for the crossing to become toll-free whenever the revenue bonds proposed to be issued might be retired out of toll income. Dewey S. God-

frey, a Democratic City Committee-man, attorney for the county, asserted that the bridge might not be finished for three years and that 15 years might be taken thereafter to pay off the bonds. For the last four years tolls have been collected on Municipal Bridge to raise funds for the retirement of public relief bonds.

## STOCKING MURDERER INSISTS HE IS SANE

Man Who Strangled Woman in  
San Francisco Protests Against  
Plea Entered for Him.

By the Associated Press.

SAN FRANCISCO, June 19.—Albert Walter Jr. confessed killer of Miss Blanche Cousins, 31 years old, of Idaho Falls, Idaho, protested vigorously when an insanity plea was entered for him in Superior Court today, but he was ordered examined by alienists before his trial set for June 25. "I am not insane," he declared, "I want to plead guilty."

Police quoted Walter, 28 years old, as saying he had dedicated his life "to vengeance on all women" after he led them to an apartment where they found the body of Miss Cousins. She had been choked to death with a silk stocking. Officers said Walter told them he had choked her when she resisted his advances.

Walter insisted he knew nothing of the killing of Miss Louise Jepsen, 23, of Ogden, Utah, here two years ago.

"I want to plead guilty and be hanged and get it over with," Walter said. He also reaffirmed his intention to refuse any help from his father, Albert Walter Sr., Boston, or his wife of last summer, whom he deserted in New York recently. The father, who declared his son had been the victim of a strange wanderlust since he was 10 years old, announced in Boston he planned to come here at once.

Sends to Governor Measure Allotting Half of Revenue From Levy to Relief.

By the Associated Press.

SPRINGFIELD, Ill., June 19.—The Senate early today passed and sent to Gov. Horner a bill to divert half the revenue from the State sales tax into relief channels after July 1.

The vote was 26 to 10, the majority needed for the bill, which the Governor's forces fought with every parliamentary maneuver. They said it was a "raid on the Treasury and would destroy State finances."

The measure would increase the amount the State contributed to relief from the present one-third of the tax, about \$2,000,000 monthly, to about \$2,800,000. Passage of the bill was the final action before the Senate recessed the second special session until Aug. 4.

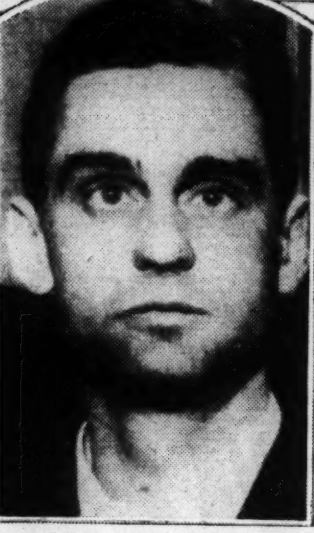

## Two Girls Killed by Fumes.

By the Associated Press.

ERIE, Pa., June 19.—Mrs. Ethel Shattuck, returning home yesterday, found the bodies of her daughter, Dona Marie, 8 years old, and Rita Jean Condon, 10, in a bathtub where they had fallen. Investigators said they were killed by fumes from a heater.

## FUNERAL FOR LOUIS WERNER WILL BE HELD TOMORROW

Wagon Maker for 50 Years at 3741  
Chouteau Succumbs

Funeral services for Louis Werner, a wagon maker at 3741 Chouteau avenue for 50 years, who died Wednesday night following an illness of four months, will be held at 2 o'clock tomorrow afternoon, at the Alexander mortuary, 6175 Delmar boulevard. Burial will be in Oak Grove Cemetery.

Mr. Werner, 76 years old, founded the firm with his father, George Werner, and before the advent of the automobile manufactured and repaired horse-drawn vehicles. Later the shop was devoted also to repair of truck bodies. Surviving are his wife, Mrs. Cora Werner; a son, Louis M. Werner, and a daughter, Miss Hilda Werner, who recently has been in charge of the business. The family residence is at 418 Polo drive, Clayton.

## AIR CORPS SHAKEUP UNDER NEW LAW

Changes Made With Seniority Alone Governing Temporary Promotions in Army Unit.

By the Associated Press.

WASHINGTON, June 19. — The army air corps high command was shaken up yesterday under legislation providing that seniority alone shall govern the selection of officers for temporary promotions in that branch of the service.

Due to the shortage of air corps officers and the requirement that no strategic command posts can be held by those below a certain rank, it has been necessary in the past to give temporary appointments to higher grades. Previously, such promotions had been made at random, without regard to the permanent rank of the officers involved.

Major-General Andrews Affected. With President Roosevelt's signature Wednesday of the bill authorizing the change, all air corps officers holding temporary promotions automatically reverted to their permanent rank. These included the chief of the general headquarters air force, Major-General Frank M. Andrews.

More than 250 officers in all were affected. Many of these, however, will be reinstated to their temporary rank under the new legislation.

Among those who will lose their present command was Col. Henry B. Clagett, who, as a temporary Brigadier-General, has been commanding the first wing of the general headquarters air force at March Field, California. He is not eligible to be promoted to the temporary rank by seniority.

Nominations by President.

To meet the new requirements, President Roosevelt sent to the Senate yesterday the nomination of Andrews, whose permanent rank is Colonel, to be recommissioned temporarily as Major-General. He also named Col. Henry C. Pratt, commanding the second wing of the

general headquarters air force at Langley Field, Virginia, and Gerald C. Brant, commanding the third wing at Barksdale Field, Louisiana, to be promoted again temporarily to Brigadier-Generals.

Likewise named for temporary Brigadier-Generals were Lieutenant-Colonel Delos C. Emmons, now commanding the eighteenth composite wing of the air corps at Fort Shafter, Hawaii, and Col. Barton K. Yount and Lieutenant-Colonel George H. Brett, students at the Army War College.

Secretary of War Dern recommended to the President the temporary elevation of 232 other officers on the basis of seniority—12 Lieutenant-Colonels to be Colonels, 36 Majors to be Lieutenant-Colonels and 205 Captains to be Majors.

**LEEVE SYSTEM, NOT RESERVOIR, LIKELY FOR ST. FRANCIS RIVER**

Latter Too Expensive, Zimmerman Says; Choice Up to Army Engineers.

WASHINGTON, June 19.—A prediction that army engineers would decide upon a levee system instead of a reservoir to control floods in the St. Francis River lowlands of Missouri and Arkansas was made today by Representative Orville Zimmerman, Democrat, of Kennett, Mo. The cost of flowage rights for a reservoir, Zimmerman said, would make the plan "practically impossible."

The Overton flood control bill for the lower Mississippi leaves to the army engineers a decision whether levees or a reservoir would be built for the St. Francis. An expenditure of \$16,000,000 for Missouri and Arkansas was authorized.

The bill provides that the Government bear only the cost of construction, requiring local interests to provide the cost of lands and damages. Only rights-of-way need be provided for a levee system, Zimmerman said, whereas a reservoir would require thousands of acres of land and necessitate the moving of Greenville, county seat of Wayne County.

Named for Carthage Postmaster.

WASHINGTON, June 19. — The President sent to the Senate yesterday the name of Frank F. Ross for confirmation as postmaster at Carthage, Mo.

## DEMOCRATIC ROWS GIVE COMFORT TO REPUBLICANS

**G. O. P. Hopes Are Roused in Eleventh and Twelfth Congressional Districts.**

**L. C. DYER OUT FOR FORMER SEAT**

**Six Aspirants in Primary Race in Area Comprising County and South St. Louis.**

The prospect of bitter primary fights among local Democrats in the contests for Congress in the Eleventh and Twelfth Districts has stimulated interest in the Republican Congressional contests in these districts, Republican workers hoping for split among the Democrats that may aid the Republican candidates in the November election.

As has been told, both Congressmen Thomas C. Hastings Jr., in the Eleventh District, and James R. Claiborne in the Twelfth are opposed for renomination by several Democratic ward leaders, particularly in the wards where the organizations dominated by the party leaders usually deliver substantial majorities in primary elections for the candidates endorsed by the organizations.

Six Republicans have entered the race for Congress in the Twelfth District, which includes South St. Louis and all of St. Louis County. Politicians believe the race is between former Prosecuting Attorney Harry W. Castlen of St. Louis County and Harry P. Rosecan, former Prosecuting Attorney of St. Louis, and a Police Judge during the administration of Mayor Victor J. Miller. The other Republican candidates in this district are Robert Miller, St. Louis, a former State Representative; Joseph C. Schroeder of Clayton, Russell J. Horsefield of University City, and Eugene A. Hecker of Ferguson.

### Organization for Castlen.

Castlen is conceded to have virtually most of the organization support in St. Louis County, although Horsefield, Hecker and Schroeder have some support. Miller, who is making a vigorous campaign, has a following in the city, principally in the Twenty-fourth Ward, in which he resides, and may receive some of the organization support in this ward.

Rosecan, who proved a strong vote-getter in his first successful campaign for the Republican nomination for Prosecuting Attorney in 1930, has considerable organization support in the city and is likely to receive a heavy proportion of the city vote. The city wards in this district include all of the Twelfth, Thirteenth and Twenty-fourth wards, in none of which the Republican City Committee members have yet definitely decided on endorsements for Congressmen.

Hope of electing a Republican Congressman from St. Louis or St. Louis County is largely centered in this district because of the fact that the county, even in the face of Democratic successes in recent years, has elected some Republicans to office, and the Twelfth, Thirteenth and Twenty-fourth wards have a number of Republican voters, and, prior to the Roosevelt landslide of 1932, were always regarded as banner Republican wards. Two years ago, in the Twelfth District, Cleveland A. Newton, the Republican nominee, was defeated by Congressman James R. Claiborne by a majority of only 4600 votes, while Democratic majorities in the Eleventh and Thirteenth St. Louis districts were 14,000 and 29,000 respectively.

G. O. P. Candidates in Eleventh. Republican candidates in the Eleventh District are L. C. Dyer, Congressman for many years prior to 1932, and Charles F. Meier, active in party work and at one time editor of a local Republican magazine. This district comprises most of the central portion of St. Louis and contains a large number of Negro voters. Several members of the Republican City Committee told a Post-Dispatch reporter that a considerable portion of the Negro vote in this year's primary will be against Dyer, who has usually had little trouble in winning previous primary contests. There is support on the City Committee for both Dyer and Meier, with neither having a decisive majority.

The Thirteenth District, covering most of North St. Louis and a portion of the downtown district, is composed of most of the strong Democratic wards of the city and Republicans anticipate no success in this district except in case of a political upset, for they have been trying for a long time to find a candidate to defeat Congressman John J. Cochran, who is unopposed for the Democratic nomination. The Republican candidates in this district are George N. Daugherty and Harry E. Wiehe, both lawyers.

### G. O. P. Race for Sheriff.

The Republican race for the nomination for Sheriff, politicians believe, is between former Sheriff Anton Schuler and Henry L. Berger, City Committeeman of the Sec-

ond Ward, and former Chief Deputy Clerk of the Circuit Court for Criminal Causes. Both have considerable support in the City Committee. The third candidate, Fred C. Finninger, has strength in North St. Louis, where he resides, but Berger, who also lives in a North St. Louis ward, has most of the organization support in that section of the city.

There are seven candidates for the nomination for Coroner, with Dr. Rudolph S. Vitt, former Coroner, the favorite as far as organization support is concerned. Other Republican candidates for Coroner are Henry J. Heitner, Edgar V. Maher, Louis Feldman, Max John Bierman, Edward W. Richter and R. W. Jansen.

## FARM HOLIDAY CONVENTION

Meeting at St. Paul June 30 and July 1 Called.

DES MOINES, Ia., June 19.—John Bosch of Minneapolis, Minn., president of the National Farmers' Holiday Association, yesterday called the organization's annual convention and said its primary purpose would be "an attempt to unite all agricultural forces who believe that both old political parties have failed."

The call was issued for convention sessions June 30 and July 1 in St. Paul, Minn.

An invitation was extended to H. L. Mitchell, secretary of the Southern Tenant Farmers' Union, to speak.

SUNDAY, JUNE 21, IS FATHER'S DAY.

## AUTO INJURES 18 MEN BOARDING STREET CAR

Car Runs Into Crowd in  
Cleveland Suburb—Suspect-  
ed Driver Arrested.

By the Associated Press.  
CLEVELAND, June 19.—A mo-  
torist drove his automobile into a  
crowd of steel workers boarding a  
street car late last night in New-  
burg Heights, injuring 18, several  
of them seriously.  
Twenty minutes later detectives  
arrested a 23-year-old youth as he  
sat in an automobile with a girl. Po-  
lice said the headlights of the car  
were broken, the fenders crumpled

and the radiator dented.  
Albert Zabel, a witness, said he  
saw the workmen gather around  
the door of the street car.  
"Then," he said, "this car came  
from the east and plowed right  
through the bunch of them."  
Stanley Kupinski, one of the  
workers, saw the automobile and  
jumped back.  
"There was a loud crash and the  
sound of glass breaking," he said.  
"One man flew over my head and  
another hit me in the legs."  
The men had just left the Cuy-  
ahoga plant of the American Steel  
& Wire Co.

**Sweden's Premier Forms Cabinet.**  
By the Associated Press.  
STOCKHOLM, Sweden, June 19.  
—Axel Pehrsson, Sweden's new  
Premier, formed a cabinet today.  
The line-up, which was approved  
by King Gustaf, includes four mem-  
bers of the Peasant party in addi-  
tion to the Premier.

## Most Expeditions Able to See Eclipse of Sun in Soviet Russia

Only at a Few Points Is Phenomenon Ob-  
scured by Clouds—Many Photo-  
graphs Are Taken.

By the Associated Press.  
MOSCOW, June 19.—The ma-  
jority of expeditions sent to points  
in Soviet Russia to observe the to-  
tal eclipse of the sun today had  
favorable weather, but at some  
points the eclipse was obscured by  
clouds. The zone of totality was 50  
miles wide.

The total eclipse became visible  
over Russian territory at Tuapse at  
6:58 a. m., Moscow time (9:58 p. m.  
Thursday, St. Louis time). The last  
of the shadow was observed at  
Khabarovsk at 9:07 a. m.

The party at Kustanai, sponsored  
by Georgetown University and the  
National Geographic Society, was  
prevented from carrying out its  
work by inclement weather.

Other expeditions at Ak-Bulak,  
sponsored by Harvard University,  
Massachusetts Institute of Tech-  
nology and the Soviet Government,  
made complete ground observa-  
tions supplemented by further re-  
search above the clouds.

Soviet flyers, with special pho-  
tographic machines took pictures.  
A cold wind blew up at Ak-Bulak  
just before the eclipse, but visibil-  
ity was only slightly reduced by  
light clouds.

Hundreds of peasants assembled  
about the camps of astronomers to  
watch the operations, holding their  
camels and oxen in tight rein to  
prevent them from running wild  
from fright during the eclipse.

Swarms of locusts descended on  
the fields near Ak-Bulak when the  
eclipse was partial, and hampered  
the work of scientists.

The British Royal Astronomical  
Society expedition at Omsk worked  
with clear visibility and succeeded

in taking many photographs. Its  
members reported grain and leaves  
lost their color during the shad-  
ow's duration.

Three airplanes took Soviet sci-  
entists aloft at Belo Rechenskaya,  
on the shores of the Black Sea. An  
army flyer and an astronomer as-  
cended at Krasnoyarsk in a sub-  
stratosphere balloon equipped with  
a radio and special cameras to  
photograph the solar coronas. They  
took six days' rations with them be-  
cause they may descend in barren  
country from which it would be  
difficult to make their way back to  
civilization.

A partial eclipse could be seen in  
Moscow. Residents watched through  
smoked glasses from housetop and  
streets.

**Clouds Ruin Observations of Brit-  
ish Party in Japan.**

By the Associated Press.  
TOKIO, June 19.—First reports  
indicated today that clouds at  
Kamishari had spoiled a British ex-  
pedition's observations of the solar  
eclipse.

Other stations, including one at  
Memambetsu, reported good results.  
Josef J. Johnson, an American,  
made observations at Memambetsu  
with scientists from the Tokio As-  
tronomical Observatory.

Rain at Tokio obscured the  
eclipse, which was 78 degrees at  
the capital.  
The British observers, most of  
whom traveled more than 10,000  
miles, were defeated by constantly  
changing skies which obscured the  
sun.

The only other observation point  
which was clouded during totality  
was at Koshimizu, where a group  
of Japanese experts had gathered.

## TEN ACCUSED OF PLOT TO ALTER DOCUMENT STAMPS

U. S. Attorney Says Government  
Has Lost \$300,000 in New En-  
gland Through Work of Ring.

By the Associated Press.  
BOSTON, June 19.—A secret in-  
vestigation of a nation-wide stamp  
racket which has cost the Govern-  
ment thousands of dollars, United  
States Attorney Francis J. W. Ford  
said last night, resulted in the in-  
dictment of 10 Boston brokers,  
bankers and stamp collectors.

Their indictment on a charge of  
conspiracy to alter and use canceled  
documentary stamps issued by the  
Internal Revenue Department was  
the first of its kind in the country,  
Ford said.

He estimated the operations of  
the alleged ring in New England  
had cost the Government \$300,000 to  
\$400,000 in revenue. He added,  
however, that the men indicted in  
Boston were not connected with  
similar rings in New York and the  
West.

Those indicted are Blaine Elmer,  
Arlington, proprietor of a Boston  
coin and stamp exchange, accused  
of having "washed" cancellations  
from used stamps; Harry A. Walk-  
er, Boston real estate broker;  
George C. Newcombe, of Malden,  
assistant cashier of the Webster &  
Atlas Bank; Robert M. Tappen, of  
the Boston Safe & Deposit Co.;  
Charles K. Lawton and Frank R.  
Halloran, of Brookline; Edward S.  
Snow, Winthrop stamp collector;  
Amasa C. Gould, Newton attorney;  
Don C. C. Lewis of Newton, and  
Lawton E. Dickinson of Reading.

## PASTURES DRIED UP, FARMERS FEEDING HAY IN THE COUNTY

Berry, Potato and Oats Crops Se-  
verely Affected by Drouth;  
Corn Needs Rain.

Farmers of St. Louis County have  
had to resort to feeding hay to live-  
stock as a result of damage done to  
pasture lands and feeding crops by  
the continued dry weather, County  
Agent Russell H. Lander said to-  
day.

Raspberries will show a 50 per  
cent reduction in total yield and  
potatoes a 20 per cent reduction as  
the result of insufficient rainfall,  
Lander said. The oats crop, most  
of which is cut to feed to stock, has  
been reduced about 50 per cent by  
the dry weather, and pastures, par-  
ticularly in the southwestern sec-  
tion of the county, where there has  
not been a good rain since March,  
are almost dried up.

Late corn and truck crops will  
require substantial rains within  
three weeks to produce average  
yields. Wheat, most of which is  
already harvested in the county, is  
below the average in yield.

Some farmers have been hauling  
water since early spring for their  
livestock. Two years ago, more than  
1000 farmers had to haul water in  
St. Louis County during the pro-  
longed drouth.

## MORROW ST. SIGNS TORN DOWN

Two Mexicans Object to "Glorify-  
ing Yankee Imperialism."

By the Associated Press.  
CUERNAVACA, Mexico, June 19.  
—Two youths today tore down the  
street signs on Morrow streets,  
named for the late United States  
Ambassador, Dwight Morrow, and  
substituted placards which read:  
"We ask a change in the name of  
this street, because it has one which  
is opprobrious and unworthy of our  
social tendency. Society is offend-  
ed because Yankee imperialism is  
glorified in one of its exponents."  
The two were arrested, police  
identifying them as Luis Orozco  
and Ignacio Gonzalez, employees of  
the Agricultural Bank.

## 3 CONVICTED OF POSTOFFICE ROBBERY AT PITTSFIELD, ILL.

Chicagoans Will Be Sentenced  
Later for \$27,000 Theft; Loot  
Is Evidence at Trial.

By the Associated Press.  
SPRINGFIELD, Ill., June 19.—  
James Coleman, Thomas Logan  
and James Murphy of Chicago  
were found guilty yesterday by a  
Federal jury of the \$27,000 burglary  
of the Pittsfield (Ill.) postoffice  
April 26.

Coleman and Murphy were cap-  
tured by Chief of Police W. H. Wil-  
liamson and Sheriff Wendel John-  
son after a running gun fight and  
Logan was arrested later by a  
State highway patrolman. The  
loot was recovered.

During the trial, 38 exhibits were  
in evidence, including the approxi-  
mately \$27,000 in cash, bonds and  
stamps, and burglar tools alleg-  
edly used by the trio. They will be  
sentenced later.

## America's Finest Low-Price Clothes

We've said it before, and we say it again. We make the finest low-price clothes in the United States, but we ask no man to take our unsupported word for it. There are reasons, good reasons, why our values are better, and it isn't because we're more generous or smarter than others.

The fact is we have a more modern, more efficient system of manufacturing, and a more direct, more economical way of selling. Instead of buying a few yards of goods, we buy woollens by the carload. Instead of making a dozen grades, we specialize on one. Instead of buying our clothes, we make them.

In place of two profits (one to the maker and one to the dealer) you pay but one at Richman's. We are the tailors as well as the retailers, which also means we have but one selling expense instead of the usual two. Our cash buying and selling policy also is a tremendous saving to you.

In addition to these substantial cash sav-  
ings, we give you an unrestricted choice  
of thousands of fine business, sport and  
evening clothes... all for the low price of

**MAKES TEN MILLION  
PICTURES A SECOND**  
New Motion Picture Camera  
200 Times Faster Than  
Any Other.

ROCHESTER, N. Y., June 19.—The million pictures a second are taken by a new motion picture camera announced at the University of Rochester yesterday. This speed, which is about 200 times faster than anything ever attempted before, can be used only for

ST. LOUIS POST-DISPATCH

FRIDAY, JUNE 19, 1936

ST. LOUIS POST-DISPATCH

PAGE 9A

photographing light. The camera was exhibited to the American Association for the Advancement of Science here. It was invented by Dr. Brian O'Brien of the Department of Physics.

Photographing light and finding out what it does in a few millionths of a second has become important both scientifically and industrially because light-sensitive cells are rapidly coming into commercial use.

In the new camera a motion picture film runs continuously at speeds up to 400 feet a second. The film is carried past the camera lens on a stainless steel ring seven and one-half inches in diameter.

One of the first photographs is a single flash of light of an electric current alternating 500,000 times a second. On the running film this

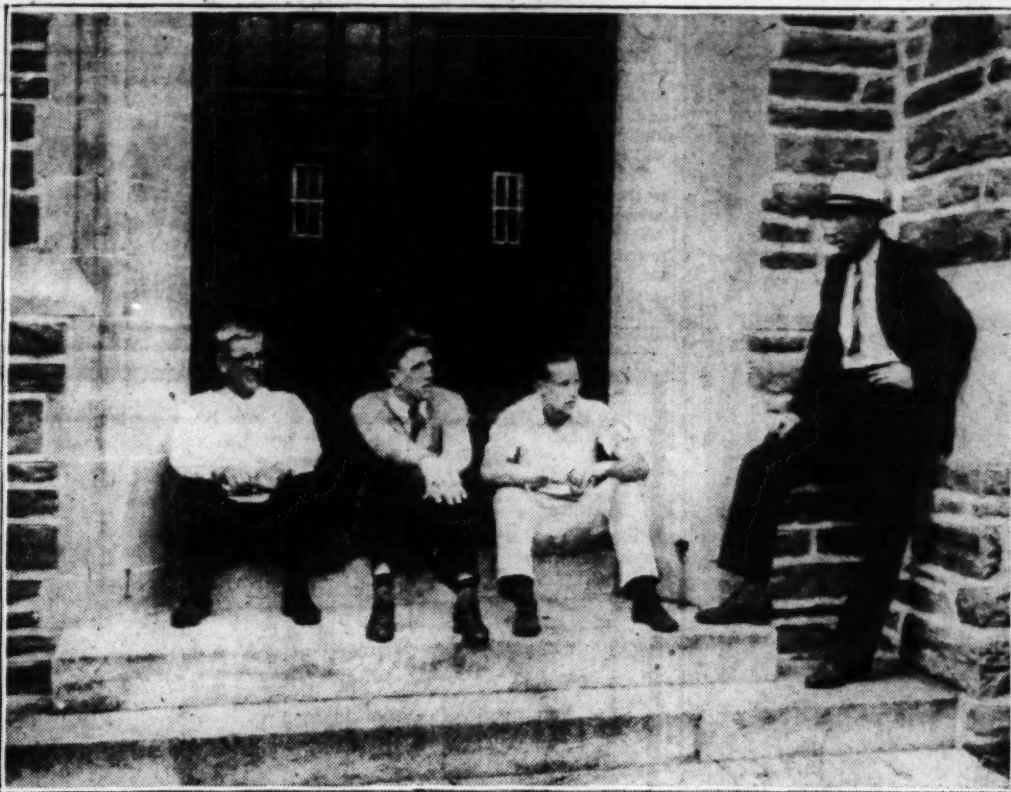

flash made a spot the size of a fly speck. Enlarged, the fly speck turned into a picture of a trail seven-eighths of an inch long shaped like a streamlined fish without a tail fin.

The new camera also took a picture of the flash of a photographer's lamp. This picture was 16 feet long. It showed every detail of a flare that lasted only a few thousandths of a second.

Hanged for Killing Landlord.

WINONA, Minn., June 19.—Wilson Pullen, tenant farmer, died on the gallows today for the murder of Dave McLellan, his landlord. Pullen was convicted of killing the landlord in an argument over the furnishing of permits to have his cotton ginned and marketed.

## Guarding Church Which Bolted Presbytery

ONE of patrols at Collingswood, N. J., which is prepared to ring the chimes if any effort to take possession of the structure is made. The congregation voted 479 to 8 to become an independent unit after an attempt was made to punish the pastor for insubordination. The general assembly upheld the action against the pastor.

## CROPS IN SEVERAL AREAS OF U. S. IN NEED OF RAIN

Federal Board Reports Prospects for Spring Grasses and Hay Have Declined in June.

By the Associated Press.  
WASHINGTON, June 19.—A special statement by the Federal Crop Reporting Board, containing no actual estimates, said today that prospects for spring grains and hay crops declined during the first half of June.

"Crops are in critical condition," the board said, "in Western North Dakota and in Eastern Montana. In Northeastern Wyoming crops have had only partial relief."

"Part of the Southeastern area, stretching from Central Georgia into Kentucky and Virginia, which was seriously dry on June 1, has had sufficient rain to permit planting corn and cotton, and to permit the setting of tobacco and the preparation of land for late crops, such as cow peas, soy beans and peanuts. Parts of this area, however, are still seriously dry."

"Prospects for the oat and hay crops have been declining rapidly in the Ohio Valley area and dry conditions prevail in most of the whole area stretching from Central New York and Southeastern Nebraska southward to Central Georgia and the Rio Grande River."

"Corn, although threatened in some areas, does not appear to have suffered seriously as yet, and prospects for most field crops have probably improved in the far Northwest, in much of the Southwest, where rainfall was heavy during May, and in parts of other states."

## DE VALERA SAYS FREE STATE MAY RESIGN FROM LEAGUE

Wants Body "Usefully Reconstructed"; "Ethiopia's Fate Warning to Small Nations."

By the Associated Press.  
DUBLIN, Irish Free State, June 19.—President de Valera said last night that the Free State might withdraw from the League of Nations unless the League were "usefully reconstructed."

"The fate of Ethiopia is a warning to all small nations of Europe," he said. He added he would support the thing of sanctions against Italy, but refused to affirm that the Free State has no aggressive designs.

In what was interpreted as a plain reference to Britain and Northern Ireland, he said: "That brings us to the position of the Free State—uncomplicated because we have not got all our territory. If we had, our attitude would be that we have no aggressive designs."

Asked to give his opinion of regional pacts, De Valera replied, "I am afraid I do not see anything which will save Europe from war."

Later he stated: "I will have a republic for all Ireland if I can."

## FIRING BETWEEN NANKING, KWANGSI PATROLS REPORTED

Outposts in Hunan Province Said to Have Exchanged Shots All Day Wednesday.

By the Associated Press.  
CANTON, China, June 19.—Reports reaching here tonight said Kwangsi (Southern Provincial) and Nanking (Central Government) outposts in Hunan Province had exchanged shots all day Wednesday. It was believed there had been no major clash.

Foreign missionaries in the area covered by the Kwangsi-Nanking troop movements were believed to have evacuated to Changsha.

Most observers believed the Nanking troops would attack the Kwangsi forces because the latter had created an impossible situation by their march northward. Nanking, however, was expected to try to persuade Kwangtung Province, which, like Kwangsi, is attached to the Canton Government, to remain neutral or even to help in disciplining Kwangsi.

The Kwangsi chieftains continued to maintain that the troops they were sending northward comprised an anti-Japanese "Salvation" Army.

## TOWNSEND ASKS FOR REPORT BY INVESTIGATING COMMITTEE

Says He Wants to Know How House Members Stand on His Pension Plan.

By the Associated Press.  
CHICAGO, June 19.—Dr. Francis E. Townsend dispatched a telegram today urging the House committee which investigated his pension plan organization to make an immediate report.

The telegram was made public by the Rev. Gerald L. K. Smith, successor to the late Senator Huey P. Long of Louisiana, as chief of Long's "share the wealth" following. Smith, now associated with Dr. Townsend, said the telegram read as follows:

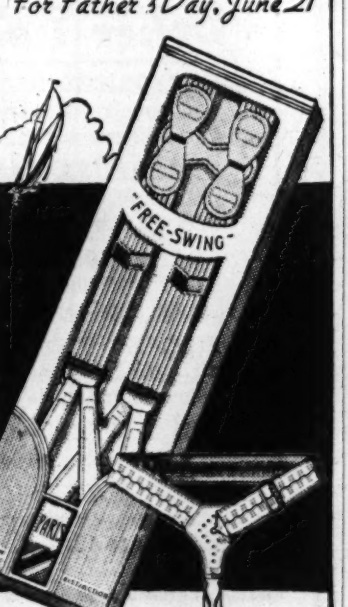

"Rep. Jasper Bell, chairman: News reports indicate your investigation of the Townsend plan or organization has been terminated as far as your committee is concerned. Will you please present your report at once to the House of Representatives for approval or disapproval, together with your own personal recommendations? I am anxious to know how every member of the lower house feels about this matter before adjournment."

"Dr. Francis E. Townsend."

**\$18,000 Verdict Against Pastor.**  
RALEIGH, N. C., June 19.—A jury here awarded Hoke Paige \$18,000 in his \$40,000 alienation suit against the Rev. E. H. Gattis. The Baptist minister was found "wantonly and willfully" guilty of alienating Mrs. Paige's affections in the latter part of 1934. The verdict was returned last night, after a two-day trial. Gattis testified his only interest in Mrs. Paige was as a friend of the family. Mrs. Paige testified in his behalf.

**2,565,813 Jobless in China Cities.**  
CANTON, June 19.—According to Government statistics, there are 2,565,813 men and women without work in 14 leading cities of China. Canton heads the list with 630,230, Shanghai has 610,710, Peiping, 500,935, and Nanking, 161,476.

For Father's Day, June 21

# MAN DIES AFTER AUTO COLLISION IN COUNTY; 4 INJURED

Louis Augustine, Quarry Worker, Victim in Crash at Halls Ferry and Shackelford Roads.

Louis Augustine, 64-year-old quarry worker, was killed, and four other men injured, one seriously, in a collision of two automobiles last night at Halls Ferry and Shackelford roads, St. Louis County.

Augustine, who resided at the Columbia Bottom Quarry, Columbia Bottom and Strodtmann roads, where he was employed, was taken to De Paul Hospital, where he died at 8 o'clock this morning of a skull fracture. Dominic Amati, quarry worker, also was taken to the hospital where he was found to be suffering from fractures of the skull and collar bone.

The others injured were Roy Shanatto of Musick's Ferry, riding with Augustine and Amati, who suffered a fracture of the left leg and a skull injury, and Al and George Lindemann, who suffered bruises.

The three quarry workers were driving north on Halls Ferry road and the Lindemanns east on Shackelford when the accident occurred.

Man Killed, Two Hurt When Truck Hits Viaduct Abutment.

Linden Fox, 22-year-old truck driver of Waynesville, Ill., was

## Mexican General, Detroit Man He Killed

ABOVE, MR. AND MRS. GUY D. DIVER. Below, GEN. RAMON LOPEZ, who is sought. Diver, a civil engineer, was shot at Mexico, D. F., after he had slapped his wife in an outburst of jealousy. Mrs. Diver said that Lopez, her cousin, tried to disarm Diver when he attempted to kill her, and that her husband was fatally wounded in the struggle.

killed and two companions seriously injured when a 10-ton trailer truck in which they were riding jumped the curb of Highway 66 and crashed into a concrete viaduct abutment at the western city limits of Edwardsville last night.

Those injured were Henry Teal, 20, Waynesville, owner of the truck, who was driving and Wayne Murphy, 17, Atlanta, Ill. Teal suffered internal injuries and bruises, Murphy a crushed left heel and bruises. They were taken to St. Elizabeth's Hospital, Granite City.

The body of the truck was thrown forward on top of the cab by the force of the collision and the occupants were imprisoned in

the cab an hour and a half before they could be extricated. Fox, who had been asleep on a ledge behind the driver's seat, died, apparently of a broken back, a few minutes after being taken out.

The accident occurred at 9:30 when the truck, loaded with meat from East St. Louis and bound for Chicago, reached the bottom of a long hill and failed to make a left turn. The vehicle went over the three-inch curb and hit an abutment of an Illinois Terminal System viaduct. The motor was pushed back into the cab when the truck body was thrown forward.

The highway was blocked for some time by tow trucks used in an attempt to release the men. Members of the Madison County Firemen's Association, meeting at the American Legion Park nearby, went to the rescue scene and aided wrecking crews.

### 2-Year-Old Boy Playing in Street Hit By Truck

Eugene, 2-year-old son of Mr. and Mrs. Walter Padgett, 3132 California avenue, suffered a fractured right leg and other injuries today when he was struck by a truck while playing with other children in the street in the 3100 block of Iowa avenue. He is in City Hospital.

John Meyer, 2816 Indiana avenue, the driver, said the children started to get out of his way but Eugene lagged behind. A rear wheel of the truck passed over the child's leg.

Allie Carolyn Downs, 7-year-old daughter of Mr. and Mrs. Jess E. Downs, 1112 Exchange avenue, East St. Louis, suffered a fractured right arm when she was struck by an automobile last night while crossing St. Clair avenue at Eleventh street in East St. Louis with her mother. The driver of the car said he was Robert Meginity, 3235 Regent avenue, East St. Louis.

### SINGER LILY PONS TO VISIT TOWN NAMED AFTER HER

Will Inspect Aquatic Gardens With Their Blooming Lily at Lilypons, Md., Sunday.

LILYPONS, Md., June 19.—State officials are expected to head a large crowd of greeters for Miss Lily Pons on her initial visit to the aquatic gardens named in her honor.

The operatic coloratura will come here Sunday to inspect the hundreds of ponds of brilliantly colored water lilies, just reaching the height of their bloom. Gov. Harry W. Nice, Senator George L. Radcliffe and Representative David J. Lewis of Cumberland have accepted invitations. The First Infantry band of the Maryland National Guard will play.

Lilypons was named after the French opera singer about four years ago with the establishment of a postoffice. Stamp collectors often send letters here to get the hand-cancelled covers.

Clarence C. C. Thomas, Postmaster, is in charge of the entertainment of Miss Pons and the other guests. After a luncheon in Frederick, 10 miles north of here, the party will be taken on a sightseeing tour. The itinerary includes the homes of Francis Scott Key, author of the Star Spangled Banner; Chief Justice Roger Brooke Taney, writer of the Dred Scott decision, and Barbara Fritchie, Civil War heroine.

## FEDERAL TAX COLLECTIONS ON LIQUOR AND BEER GAIN

\$455,325,000 for 11 Months of Fiscal Year; \$84,685 Increase Over Previous Period.

By the Associated Press.

WASHINGTON, June 19.—The Treasury disclosed last night that it had collected \$455,325,000 in liquor and beer taxes during the first 11 months of this fiscal year which will end June 30.

This amount is \$84,685,192 greater than the revenue collected in the corresponding period of last year. Total income and excess profits taxes collected up to May 31 amounted to \$1,119,451,061 or \$266,900,687 greater than last year. Miscellaneous internal revenue totaled \$1,395,569,714 — \$242,502,508 more

than the sum taken in during the 11-month period of last year. In another report, the Treasury said that stocks of whisky increased 36 per cent during the six-month period ended last Dec. 31, rising from 152,807,235 to 207,113,534 gallons.

There was a decrease, however, in the stocks of whisky over four years old, which dropped off from 3,474,247 to 2,851,974 gallons. This is the only whisky eligible for bottling in bond.

### 2-Year-Old Boy Playing in Street Hit By Truck

Eugene, 2-year-old son of Mr. and Mrs. Walter Padgett, 3132 California avenue, suffered a fractured right leg and other injuries today when he was struck by a truck while playing with other children in the street in the 3100 block of Iowa avenue. He is in City Hospital.

John Meyer, 2816 Indiana avenue, the driver, said the children started to get out of his way but Eugene lagged behind. A rear wheel of the truck passed over the child's leg.

Allie Carolyn Downs, 7-year-old daughter of Mr. and Mrs. Jess E. Downs, 1112 Exchange avenue, East St. Louis, suffered a fractured right arm when she was struck by an automobile last night while crossing St. Clair avenue at Eleventh street in East St. Louis with her mother. The driver of the car said he was Robert Meginity, 3235 Regent avenue, East St. Louis.

### SINGER LILY PONS TO VISIT TOWN NAMED AFTER HER

Will Inspect Aquatic Gardens With Their Blooming Lily at Lilypons, Md., Sunday.

LILYPONS, Md., June 19.—State officials are expected to head a large crowd of greeters for Miss Lily Pons on her initial visit to the aquatic gardens named in her honor.

The operatic coloratura will come here Sunday to inspect the hundreds of ponds of brilliantly colored water lilies, just reaching the height of their bloom. Gov. Harry W. Nice, Senator George L. Radcliffe and Representative David J. Lewis of Cumberland have accepted invitations. The First Infantry band of the Maryland National Guard will play.

Lilypons was named after the French opera singer about four years ago with the establishment of a postoffice. Stamp collectors often send letters here to get the hand-cancelled covers.

Clarence C. C. Thomas, Postmaster, is in charge of the entertainment of Miss Pons and the other guests. After a luncheon in Frederick, 10 miles north of here, the party will be taken on a sightseeing tour. The itinerary includes the homes of Francis Scott Key, author of the Star Spangled Banner; Chief Justice Roger Brooke Taney, writer of the Dred Scott decision, and Barbara Fritchie, Civil War heroine.

FATHER'S DAY

'UNHEALTHY TRENDS'  
IN CITY DEVELOPMENTHarland Bartholomew Renews  
Proposal to Establish Neigh-  
borhood Districts.A warning against "unsound, un-  
healthy" trends in the development  
of the St. Louis district was ex-  
pressed by Harland Bartholomew,  
engineer of the City Plan Commis-  
sion, addressing the Downtown Ki-  
wanis Club at luncheon at Hotel  
Statler yesterday.He referred to the constant re-  
moval of residents and even of  
business from the central section  
of the city to the suburbs, largely  
as a result of the impetus given  
by smoke and the facility offered  
by automobile transportation. Cit-  
ing figures heretofore published, he  
showed how the slum and blight-  
ed districts cost more for public  
services than they contribute in  
taxes, forcing the downtown busi-  
ness area and the better residen-  
tial neighborhoods to pay more in  
taxes than they receive in public  
services."The city," he said, "used to have  
a compact territory in a radius of  
five miles, but it has become a re-  
gion, with a radius of 12 or 15  
miles, containing 600 different tax  
collecting agencies (mostly school  
districts). The region is our new  
city and we must plan it as care-  
fully as we have sought to plan the  
old city in recent years, we will lay  
up for ourselves some tremendous  
financial problems."A Warning to Suburbs.  
"Practically all of the area in-  
side of Lindbergh boulevard has  
been subjected to land subdivision  
of about the same type as within  
the city proper. In the suburbs a  
population about one-fourth that  
of the city is trying to occupy an  
area six times larger. They are  
laying up for themselves a tax bur-  
den likely to be up to 24 times what  
St. Louis has developed, if they are  
going to have the same degree of  
public services as in the city.""More than one-third of the area  
of St. Louis lost population between  
1920 and 1930." There are 100,000  
fewer people east of Jefferson ave-  
nue than there were 30 years ago,  
not altogether or even largely be-  
cause of the expansion of commerce  
and industry, as even commerce has  
begun to move out."Bartholomew laid the blame for  
this condition on the evolution of  
slums and spoke of the "great de-  
lusion" that slums could be alto-  
gether absorbed by commerce and  
industry, rather than by residential  
quarters."We have reached the stage," he  
said, "where we must have a re-  
appraisal of the American city. We  
just cannot afford to go along as  
we have been."With maps he showed how new  
building construction in the city in  
the last five years had been almost  
altogether confined to the outlying  
sections, being largely residential;  
how there had been heavy demoli-  
tion of old structures, notably in the  
central blighted and slum areas of  
decreasing population. In that pe-  
riod, he related, there had been  
only 4750 new buildings put up,  
while more than 2700 were torn  
down, including 1700 the owners of  
which desired to reduce taxes on  
non-paying property. 900 where  
street widenings or plaza develop-  
ments required the space and 100  
places which were insanitary or  
unsafe.Loss of Taxable Wealth.  
"We are beginning to see some  
construction revival," he continued,  
"but unquestionably we will see an  
increase in the number of buildings  
demolished, with consequent loss  
of taxable wealth. The plan com-  
mission foresees the time when  
new property values will be so  
diminished, since we have not much  
vacant land left in the city, that  
they will be exceeded by the lost  
values of demolished structures.  
That means those who still pay  
taxes will have to pay higher taxes  
than before.""The condition confronting the  
community is progressive; as the  
blight spreads, there will soon be  
none of those better residential  
districts to pay the taxes of those old  
districts. The average American  
citizen does not accept the responsi-  
bility of seeing that his own city  
and his own neighborhood are prop-  
erly developed. The blighted dis-  
tricts are affected by smoke and  
the lack of adequate deed restric-  
tions, zoning restrictions and neigh-  
borhood protection."As a remedy, Bartholomew re-  
newed a recommendation recently  
made to the plan commission for  
the establishment of about 80 for-  
mal neighborhood districts in the  
city, each about half a mile square,  
to foster good surroundings and  
property protection. Where, as in  
St. Louis, Federal funds had not  
been made available for public mass  
housing improvements, he pointed  
to a new possibility of development  
by private capital, as illustrated by  
recent insurance company loans  
of \$20,000,000 or more in the East  
to rebuild whole neighborhoods as  
units.

Committee Shifts in Senate.

By the Associated Press.  
WASHINGTON, June 19.—Sen-  
ator Hugo L. Black of Alabama be-  
came chairman of the Senate Edu-  
cation and Labor Committee yes-  
terday, succeeding Senator David I.  
Walsh, who took the chairmanship  
of the Naval Committee. The  
change in committee assignments  
followed the death of Senator Park  
Trammell of Florida, who had held  
the naval post. Senator Royal S.  
Copeland of New York was the next  
Democrat in line for the Education  
and Labor chairmanship, but he  
already headed the Commerce Com-  
mittee. Senate rules prohibit the  
holding of more than one major  
committee chairmanship.WE THANK YOU, ST. LOUISANS,

New Advisers to Roper.  
By the Associated Press.  
WASHINGTON, June 19.—The Business Advisory Committee of Secretary of Commerce Roper elected three new members yesterday. They are James F. Browne, president of Frankfort Distilleries, Inc., of Louisville, Ky.; William M. Davis, vice-president of the Phillips Petroleum Co., Bartlesville, Ok., and William L. Clayton, chairman of Anderson, Clayton & Co. of

Houston, Tex. The council now has a membership of 52.  
**Woman Flyer's Father Drowned.**  
ROGERS, Ark., June 19.—Roy McPhetridge, 55 years old, Bentonville, father of Louise McPhetridge Thaden, noted woman flyer, was drowned in Bellavista Lake at 6 o'clock this morning when his automobile plunged off a spillway dam. The body was recovered.

### ARSON CHARGES AGAINST THREE MEN DISMISSED

State's Attorney at Edwardsville Says His Principal Witness Is in California.  
Arson indictments against Vito Mocerio, Joseph Bertuglia and George Hornbeak, all of St. Louis, were nolle prossed in Circuit Judge M. V. Joyce's Court at Edwardsville yesterday. The State's Attorney's office announced the principal State witness, Vito Racenelli, had moved to California and would not be available as a witness.

The charges grew out of a fire Dec. 17, 1934, in a Collinsville building occupied by Racenelli and owned by the Collinsville Building & Loan Association. A body thought to be that of a Negro was found in the ruins of the building.

**Two Killed in Explosion.**  
BURGETTSTOWN, Pa., June 19.—A dynamite explosion, set off accidentally, demolished the cottage of Francis Huggins yesterday, killing his wife and son and seriously injuring his two daughters. State Police Sergeant Frank Gleason thought a rifle shot fired by 7-year-old Thomas Huggins, ignited one of 10 sticks of dynamite stored in the house. The boy's body was recovered in the ruins. Mrs. Huggins, 36, died several hours later.

### PHILIPPINE DEFENSE PLAN BY MAC ARTHUR

Islands' Field Marshal Submits Scheme for Patrol, Torpedo Boats, Airplanes.

By the Associated Press.  
MANILA, P. I., June 19.—A Philippine plan to defend "every foot of shore line" in the inhabited islands with men, torpedo boats and airplanes was submitted to the Commonwealth Assembly today by Major-General Douglas MacArthur.

Ben. MacArthur, head of the American Military Commission, charged with setting up a low-cost, but air-tight, plan of defense, today was made Field Marshal of the Philippine army. He formerly was the United States' army Chief of Staff.

With the plan in effect, he said in his report to President Manuel L. Quezon, conquest of the Philippines would be so costly in men and money as to "give pause to the most ruthless and powerful."

Pointing to the element of strength in the geographical isolation of the archipelago itself, Gen. MacArthur said of the defense plan: "At the end of the development period, each island will have a garrison of sufficient strength to insure an effective concentration of force against troop landing and will be so organized, equipped and supplied that any partial penetration will encounter a bitter and continuous resistance from the moment it quit its transports."

The proposed set-up, involving use of small speed boats with torpedoes, plus air defenses, would make an invasion of Luzon, on which is Manila, almost impossible, he added.

**Outline of His Plan.**  
General MacArthur outlined the defense plan in this manner: The Chief of Staff to be in direct control of the military establishment, under immediate supervision of the President, the chief to be assisted by a general staff and by the chiefs of several services and bureaus. Among his assistants would be a provost marshal in charge of all national police work and of registering and inducting individuals into military service.

The army itself to consist of a regular force and a reserve, predominantly land units but to be supported, so far as practicable, by an air force and a marine division, the latter to be known as the offshore patrol. Essential harbor defense units to be maintained.

The reserve corps would be organized under a plan requiring military training "as a duty to the State," Gen. MacArthur continued. Elementary military instruction would be a by-product of public school education and be given on Sundays and holidays to young men not attending school. "The length of the principal training period," he said, "is limited, for the average trainee, to five and one-half months."

General MacArthur said the plan "completely negates any possibility of employing the army in aggressive action." The regular force would operate the training system for individuals, "insure continuous availability of a reasonably strong and highly trained military force to perform the police work hitherto carried out by the constabulary."

### ROBBERS GET \$13,000 IN CASH

Money Seized From Bank Messenger at Farmingdale, N. Y.  
By the Associated Press.  
FARMINGDALE, N. Y., June 19.—Three men escaped today with \$13,000 after robbing and abducting Francis Gray, messenger for the Bank of Farmingdale, a half block from the bank. Gray was thrown out of the robbers' car about

six blocks away. Gray made his regular Friday visit to the postoffice to pick up the registered mail packages of currency with which the bank meets payrolls in the community. On the way back he was accosted at an alley by two men, according to the story he told police. He was slugged on the head and the two bags of currency snatched from him.

### BREDECK AGAIN UP NEW MILK ORDINANCE

Present One Does Not Distributors, Health Tells Meeting.

While the present St. Louis ordinance has proved effective in improving sanitation in the city and raising the quality of milk produced by approved dairies, it has given the Health Department little effective control over distributors. Health Commissioner Joseph F. Bredeck said yesterday at a meeting at the headquarters of the St. Louis Milk Society to which the Society's committee on Health and Protection had invited the city's Council and other organizations to discuss the standard milk ordinance of the United States Health Service.

The standard ordinance minor amendments to its conditions will be introduced by the Board of Aldermen next February. It will require each pound of milk (1 cent per quart) collected from distributors to provide about 5 percent of the cost of inspection and regulation of distributors and producers.

"What we need is Government veterinarians and inspectors," Bredeck said after a futile effort to obtain a large St. Louis milk plant to be selling as bottled milk from unapproved sources. His 10,000 St. Louis milk farms, he said, were to inspect 12,000 farms in St. Louis milk shed and at the time check the source of received at distributors' plants.

The recent disclosure by the Federal Trade Commission that large St. Louis distributors bottled milk obtained from proved sources through denieries followed his request the commission investigate the practice which had him, Dr. Bredeck said. He of the distributing companies assured him this was not done, he added, and evidence obtained by the commission records of the companies he did not have access.

While the present ordinance him authority to withdraw of any producer and of the St. Louis market, it was, he explained, to protect distributors in the courts. With it impossible for him to keep plants under surveillance night, Dr. Bredeck said, it possible to obtain evidence would support a conviction.

In order to provide a specimen of plants and inspection of inspected milk, and the standard milk ordinance provisions for grading and selling milk and a tax on the milk was necessary, Dr. Bredeck said.

"This provision," he said, "means that the Health Commissioner would have authority to require a distributor to bottles according to the they received from the Health department. It means only simple labeling of what bottle so consumers may what they are getting. A cents on each hundred pounds of milk would provide funds for payment of 42 inspectors needed."

Dr. Bredeck's View of the Child Conservation Commission contended the present ordinance was adequate, that the grading provisions gave the Commissioner too much power that the standard ordinance not practicable in as far as St. Louis.

Under questioning by Bredeck, she said she had data and opinions from the distributors who had the present ordinance, a compromise two years ago, the Medical Society, the Council and other organizations to obtain passage of the ordinance.

Referring to the report of the Federal Trade Commission that prices to producers depressed \$171,000 by unfair practices of St. Louis dairies including the sale of milk approved sources, Dr. John F. Bredeck, former president of the St. Louis Medical Society, explication.

"Consumers and producers been 'gypped' by corrupt dairies," he said. "The time to correct has passed. Nothing less than standard milk ordinance will insure provisions will meet the need."

The Rev. W. F. Mullally, of the Consumers' Council, of the Consumers' Council, who presided at the meeting, introduced by Dr. Lee D. C. of the Medical Society, a tax on milk to funds for enforcement of the ordinance.

Other speakers included Joseph M. Klamon of Washington University; Dr. David C. Todd of the Board of Education; Mr. Light of the League of Voters; Dr. John S. Yarn of the Medical Society and Alde J. Warnick.

So Evicted from Polling About 50 Negroes were from a polling place at 1905 avenue last night after were summoned by judges, who reported the g were not allowed to register, the closing hours were made.

## BREDECK AGAIN URGES NEW MILK ORDINANCE

Present One Does Not Reach  
Distributors, Health Officer  
Tells Meeting.

While the present St. Louis milk ordinance has proved effective in improving sanitation in production and raising the quality of milk produced by approved dairy farmers, it has given the Health Department little effective control over distributors, Health Commissioner Joseph F. Bredeck said yesterday. He addressed a meeting at headquarters of the St. Louis Medical Society to which the Society's Committee on Health and Public Instruction had invited the Consumers' Council and other organizations to discuss the standard milk ordinance of the United States Public Health Service.

The standard ordinance with minor amendments to meet local conditions will be introduced in the Board of Aldermen next Friday. A tax of 4 cents on each hundred pounds of milk (1 cent on 11.6 quarts) collected from distributors would provide about \$140,000 a year, said to be ample for thorough inspection and regulation of both distributors and producers.

"What we need is G-men as well as veterinarians and engineers," Dr. Bredeck said after telling of futile efforts to obtain evidence that large St. Louis milk distributors were selling as bottled milk, supplies from unapproved and un-inspected sources. His 19 inspectors, Dr. Bredeck said, were unable to inspect 12,000 farms in the St. Louis milk shed and at the same time check the source of all milk received at distributors' plants.

The recent disclosure by the Federal Trade Commission that two large St. Louis distributors sold bottled milk obtained from unapproved sources through consignment followed his request that the commission investigate reports of the practice which had reached him, Dr. Bredeck said. Executives of the distributing companies had assured him this was not being done, he added, and evidence was obtained by the commission from records of the companies to which he did not have access.

While the present ordinance gave him authority to withdraw approval of any producer and cut him off the St. Louis market, it was necessary, he explained, to prosecute distributors in the courts. With a limited number of inspectors, making it impossible for him to keep all plants under surveillance day and night, Dr. Bredeck said, it was impossible to obtain evidence that would support a conviction.

In order to provide adequate inspection of plants and insure a supply of inspected milk, adoption of the standard milk ordinance with provisions for grading and degrading milk and a tax on the industry was necessary, Dr. Bredeck said. "This provision," he explained, "means that the Health Commissioner would have authority to require that a distributor label his bottles according to the grading they received from the Health Department. It means only honest, simple labeling of what is in the bottle so consumers may know what they are getting. A tax of 4 cents on each hundred pounds of milk would provide funds for employment of 42 inspectors which we need."

Dr. Bredeck's View Combated. Mrs. Norman Windsor, chairman of the Child Conservation Council, contended the present ordinance was adequate, that the suggested grading provisions gave the Health Commissioner too much power and that the standard ordinance was not practicable in as large a city as St. Louis.

Under questioning by Dr. Bredeck, she said she had obtained data and opinions from lawyers for the distributors who had drafted the present ordinance, adopted as a compromise two years ago when the Medical Society, Consumers' Council and other organizations sought to obtain passage of the standard ordinance.

Referring to the report of the Federal Trade Commission stating that prices to producers had been depressed \$171,000 by unfair trade practices of St. Louis distributors, including the sale of milk from unapproved sources, Dr. John C. Moritz, former president of the St. Louis Medical Society, expressed indignation.

"Consumers and producers have been 'kyped' by corrupt business," he said. "The time to compromise has passed. Nothing less than the standard milk ordinance with grading provisions will meet the need."

The Rev. W. F. Mullally, chairman of the Consumers' Council Milk Committee, who presided after introduction by Dr. Lee D. Cady, president of the Medical Society, advocated a tax on milk to provide funds for enforcement of the ordinance.

Other speakers included: Dr. Joseph M. Klamon of Washington University; Dr. David C. Todd of the Board of Education; Mrs. Ivan Light of the League of Women Voters; Dr. John S. Young of the Medical Society and Alderman W. J. Warnick.

## TRAGIC STORY OF SOLDIER WHO DIED HERE OF LEPROSY

Contracted Disease in Philippines  
in Spanish-American War and  
Became a Wanderer.

The tragic history of Emil R. Grable, who contracted leprosy in the Philippines in the Spanish-American War and finally died of it here in 1919, is unfolded in documents recently presented to the Missouri Historical Society by Jacob Kuhl, 4137 De Tonty street.

Grable, a railroad switchman, enlisted in the army in 1898 and was sent to the Philippines. After his return to his country he discovered he had leprosy. Fearing that his illness would become known by his friends, he gave up his job and became a wanderer.

He was taken into custody by the police here in 1915 for vagrancy and when the nature of his illness was discovered he was sent to Koch Hospital. Four years later he died. He was buried there.

Kuhl, whose chief interest has been the activities of Spanish-American War veterans, learned that Grable was buried in the cemetery at Koch Hospital. He obtained permission to have the body re-interred at National Cemetery, Jefferson Barracks. In a brief ceremony, a squad of soldiers fired a salute, an undertaker offered prayer and Grable was laid to rest.

## \$150,000 to Study Road Accidents.

WASHINGTON, June 19.—An investigation by the Agriculture Department to determine ways of decreasing the number of highway accidents is authorized in a resolution adopted by the Senate and sent to the White House yesterday.

One object, Secretary of Agriculture Wallace said, would be to promote "necessary uniformity in motor vehicle traffic laws throughout the country." Wallace would be allotted \$150,000 for the study, to be completed by June 30, 1937.

**ROOSEVELT HAS \$3,271,000,000 MORE FOR RELIEF**

**\$1,000,000,000 Unspent From Previous Appropriation; \$1,425,000,000 for WPA in New Bill.**

WASHINGTON, June 19.—President Roosevelt will have \$3,271,000,000 for relief and public works in the fiscal year beginning July 1.

The \$2,375,000,000 deficiency-relief bill now awaiting the President's signature, carries \$1,425,000,000 for the Works Progress Administration. There is, in addition, one billion dollars unspent from the previous relief appropriations.

During the year also \$246,000,000 will be spent on the Civilian Conservation Corps, and about \$300,000,000 for reclamation and other heavy engineering projects.

The \$300,000,000 fund for Secretary of the Interior Ickes, Public Works Administration is expected to finance a half-billion dollars worth of non-Federal Public Works projects. The exact amount is dependent on the number of cities which accept Ickes' suggestion that they take grants of only 45 per cent and themselves put up the rest instead of borrowing from PWA.

With money thus available, officials estimate employment can be provided as follows, on the basis of present costs. New relief appropriation, 2,000,000 persons; old appropriation, 400,000; CCC, 300,000; reclamation and heavy engineering projects, 100,000.

After legislative action was completed yesterday on the deficiency-relief appropriation measure, the Senate passed and sent to the House a resolution calling for a national commission to recommend future policies on unemployment.

Senator Murray (Dem.), Montana, the author, declared unemployment and relief "now appear to be long term charges against the national government."

The \$1,425,000,000 item for the WPA will be spent under the direction of the President, as provided in the bill, instead of by Administrator Harry L. Hopkins.

Hopkins made no statement, but other officials said WPA would continue along the present lines. One point which must be decided, however, is a possible change in the rule that no one who was not on relief prior to Nov. 1, 1935, can get a work relief job. This date apparently was set with the idea that relief was an emergency problem. The resolution of Senator Murray described the problem as having "passed the emergency phase."

**SWEDEN HAS BUREAU TO FIND HEIRS OF EMIGRANTS TO U. S.**

**\$4,250,000 Left to Relatives at Home by Swedish-Americans in Four Years.**

By the Associated Press.

STOCKHOLM, June 19.—Legacies left by Swedish immigrants in the United States and Canada, ranging from a few pennies to several hundred thousand dollars, are being handled by a special inheritance bureau in the Foreign Office.

Within four years 8000 heirs in Sweden have received \$4,250,000 from the estates of Swedes who left their home country, many penniless at the time, for America.

Since the inheritance bureau has been in existence, approximately 40,000 heirs have been found and paid.

About 90 per cent of the funds handled by the bureau come from the United States and Canada. One will be provided for payment for 66 persons. The smallest bequest, according to records of the bureau, was 7 cents.

**CONVICTED OF KILLING MAN IN WHOSE HOME HE BOARDED**

**Draftsman Said Shooting Was Accidental and Sister of Victim Testified for Him.**

By the Associated Press.

BEAVER, Pa., June 19.—A jury convicted John Wipf, 51 years old, a draftsman, of second degree murder, despite the testimony of Miss Ada Kurtz, 49, a school teacher, that he was innocent of killing her brother, B. Frank Kurtz.

The verdict carries a maximum penalty of 20 years' imprisonment. Kurtz was shot on the night of March 22 in his home, where Wipf boarded. The defendant contended the shooting was accidental and occurred during a scuffle for a pistol. Miss Kurtz testified she was "very fond" of Wipf.

**TWO EXECUTED IN ALABAMA One Was Accused of Killing Wife of Friend.**

By the Associated Press.

MONTGOMERY, Ala., June 19.—A white man accused of killing the wife of a friend, and a Negro convicted of attacking and killing a white girl were electrocuted early today.

The white man, Elmer N. Arant, former Fort Deposit public utilities manager, was convicted of killing Mrs. John Norman, wife of a druggist for whose murder he also was indicted. Arant gave officers a written statement shortly after his arrest saying he killed Norman because of the "unwritten law" and that Mrs. Norman's death was accidental. The Negro, Walter Miller, was charged with killing Miss Vivian Woodward, 19-year-old Huntsville girl. He denied the charge.

# 18,045 VETERANS TURN IN BONDS FOR CASH

Total of \$7,148,950 Offered for Redemption, Official Figures Show.

About 18,045 World War veterans in St. Louis and the county had surrendered \$7,148,950 in bonus bonds for redemption when the certification stations for immediate payment of the bonus closed last night. These are official figures, announced today by the Postoffice, and based on actual count except that they include an estimate of 50 for the number of veterans served yesterday at one of the smaller outlying certification stations.

The first definite information on the number of St. Louis and St. Louis County veterans who are to receive bonuses became available today when the St. Louis postoffice announced that it had received 36,597 registered letters for veterans in the city and county containing bonus bonds. Previous figures were based on estimates of what proportion of the bonuses to be paid through the Veterans' Administration here, which serves Eastern Missouri and Southern Illinois also, would go to veterans in St. Louis and the county.

Certification stations were no longer crowded today and Postmaster W. Rufus Jackson announced that all stations except the one in the Municipal Auditorium, which has handled about one-third of the bonds turned in so far, would be closed permanently after tomorrow night. The station in the Municipal Auditorium will remain open until further notice.

At the Municipal Auditorium station yesterday 1280 veterans surrendered bonds for \$474,550. The number of veterans served there yesterday was only a little more than half the number the day before, and about one-third of the number Tuesday, the first day the certification stations were open.

In the first rush to redeem bonds, most veterans presented all they had received, but yesterday there were many who kept part of the bonds as an investment. They pay interest at 3 per cent. The average value of bonds presented by each veteran on the first two days was about \$440, but yesterday it dropped to about \$345. Bonus payments, ranging from a few dollars to more than \$1500, averaged about \$500.

Among the veterans who turned in his bonds yesterday at the Municipal Auditorium was one who insisted on redeeming all of his immediately "before the Supreme Court declares it unconstitutional." Activities at the postal cashier's office in the new Federal Building, where checks are written in payment for the bonds turned in, were speeded up yesterday when 2014 checks for a total of \$488,950 were written and placed in the mail. Up to last night 3944 checks for a total of \$1,696,200 had been written and mailed. These went not only to veterans in St. Louis and the county, but to those in other counties in the eastern half of Missouri.

## BAR QUESTIONNAIRES READY TOMORROW FOR CANDIDATES

Association to Mail Queries to Aspirants for Circuit Judgeship and Circuit Attorney's Post. Questionnaires to be filled out by candidates for nomination for Circuit Judges and Circuit Attorney as a means of aiding members of the St. Louis Bar Association in the judicial referendum will be mailed to the candidates tomorrow by the association's committee on judicial candidates.

Under its new plan the Bar Association would sponsor a separate non-partisan judicial ticket on the official ballot at the November election, containing names of candidates approved in a poll of members. The poll, to be taken before the primary, will result in recommendation only of a sufficient number of candidates to fill the vacancies at the general election, with provision for automatic replacement of any candidate not nominated in the primary by the candidate next in order of preference.

## JURY ACQUITS 4 ARRESTED IN MILWAUKEE GUILD STRIKE

Men Were Accused of Disorderly Conduct in Demonstration at Newspaper Plant.

MILWAUKEE, Wis., June 19.—Four men were acquitted in District Court yesterday on charges of disorderly conduct in connection with a strike demonstration at the plant of the Wisconsin News here April 17. They were Robert J. Collentine, James J. Randall, John Kehrie, and Joseph F. Mullins, all sympathizers in the strike of members of the American Newspaper Guild called at the News. A Hearst publication, on Feb. 17, and still in progress. The verdict was reached by the jury of five men and a woman after 45 minutes deliberation, when counsel for both sides waived argument and asked that the decision be made on stated facts.

Governor's Trip to Convention. JEFFERSON CITY, June 19.—Gov. Park will lead one contingent of Missouri delegates to the Democratic National convention. The State delegation will get make the trip as a unit. Park will go to Kansas City tomorrow and depart from there tomorrow night by way of Chicago. In his party, he said, would be James M. Pendergast of Kansas City, a nephew of Boss T. J. Pendergast.

## LONDON CALLS EXTRA SESSION ON SOCIAL SECURITY QUESTION

Legislature to Consider Amendment to Enable State to Participate in Federal Program.

By The Associated Press.

TOPEKA, Kan., June 19.—Gov. Alf M. Landon yesterday called a special session of the Kansas Legislature for July 7 to initiate a proposed constitutional amendment to enable State participation in all phases of the Federal social security program. A proposed amendment has been drafted by the legislative council.

Gov. Landon's call will convene the Legislature in Topeka the day following his return from a vacation in Estes Park, Colo. The Republican presidential nominee announced he would leave Wednesday, returning July 6. No speeches were planned en route, and the Governor said he did not expect to receive any callers while away.

The work of the Legislature will be confined to consideration of the proposed amendment to enable the State to enter "a broad, comprehensive program" in social security work, Gov. Landon said. He pointed out that major phases of the social security program could not be set up in Kansas until the Constitution has been broadened to extend this authority to the State. The State Constitution at present places responsibility for care of the poor on the counties, a feature which caused the Federal Social Security Board to reject a plan for participation submitted by Kansas officials several months ago.

Any amendment submitted by the Legislature would be voted on at the general election next November, and, if adopted, would be effective at the regular biennial legislative session the following January.

## VALIDITY OF INDICTMENTS OF PLASTERERS ATTACKED

Judge Takes Demurrer in Conspiracy Case Under Advice.

Arguments attacking and upholding the validity of the Federal indictment against five plastering contractors and four labor union representatives, charged with conspiracy to defraud the United States by fixing excessive prices for plastering in the Municipal Auditorium, were taken under advisement by Federal Judge George H. Moore, after a hearing yesterday.

Briefs will be submitted by Government and defense counsel on the demurrer to the indictment, offered by the defense, which was argued yesterday. If the demurrer is upheld, the case against all nine men will be dismissed; if it is overruled, preparations for the trial will proceed, and in case of conviction, the same objections will probably be repeated in a plea to a higher court.

The contractors who are defendants in the case are Peter Anderson, Harry Niehaus, Frank Rowan, George F. Robertson Jr. and John Carroll. The union defendants are Harry Hagen, business agent of the Lathers' Union; William Anderson, business agent of the Plasterers' Union; Irving Lee and his brother, Vincent Lee, members of the Plasterers' Union.

## PERMIT ASKED FOR NEW POWER LINE FROM MOBERLY

Jefferson City Utility Plans Extension Into Audrain, Monroe and Randolph Counties.

JEFFERSON CITY, June 19.—The Missouri Power & Light Co. of Jefferson City asked the State Public Service Commission today for permission to construct a transmission line to be used in supplying electricity to towns in Audrain, Monroe and Randolph counties.

The utility said the proposed line would be built from its Moberly power plant to an Audrain County substation at an estimated cost of \$236,535.

## CHILD BURNED TO DEATH

Father Saves Three Others From Burning Home.

SPECIAL TO THE POST-DISPATCH. WEST FRANKFORT, Ill., June 19.—Marie, the 8-year-old daughter of Mr. and Mrs. Leslie Joplin, was burned to death when fire destroyed their farm home near Logan, early today, while Joplin and his wife were milking at the barn. Joplin was badly burned about his face and hands in attempting to rescue the child. A son, Ransom, 6, also is in a hospital, suffering from severe burns.

Hearing an explosion in the house where the four children had been sleeping, Joplin fought his way through flames to a bed on which Ransom, Raymond, 4, and Leslie, 6, were sleeping, and carried them to safety. The screams of Marie grew fainter as the father returned to search frantically amid the smoke and flames.

Threatener of Morgan Released. By The Associated Press.

NEW YORK, June 19.—Gregor Aharon, who pleaded by letter with J. P. Morgan to buy his status, was released in court yesterday. Aharon was arrested last Monday charged with predicting dire things for Morgan if he did not pay \$2,000,000 for a statue of the Madonna and Child which Aharon bought for \$500 and promptly attributed to Michelangelo. Federal Judge Francis G. Caffey released Aharon after denying a motion for commitment to Bellevue Hospital for observation.

## WHY AUSTRIANS SHY AWAY FROM FASCISM

Their Hatred of Italy During  
World War Still  
Persists.

By the Associated Press.

VIENNA, June 19.—The failure of Prince Ernst Rüdiger von Starhemberg to make Fascism popular in Austria in one concrete fact in the political confusion in the country.

An appreciation of that failure, and a decision that the Italian brand of Fascism does not suit the Austrian temperament, is held responsible for Chancellor Schuschnigg's cautious veering toward more moderate Democratic theories of government.

All of Starhemberg's energy, his forceful personality and his own army have failed to arouse enthusiastic support for Fascism—or a widespread feeling of fraternity with Italians as allies.

The reason, political observers have said, is that Austrians have not been able to forget in 18 years that Italy was an enemy in the World War. Italy annexed a great section of the Tyrol, and many Austrians believe that the present "Italian influence" in the Danubian valley is headed in the direction of even greater political domination.

Thousands of Austrians still living fought against Italy, and in many homes and fields and badges with which the Austrian war propagandists stirred up hatred of Italy are still kept as prized souvenirs. In rural districts many of these badges even now are worn in public, and every small boy seems to have a few.

One of the anti-Italian medals bears Emperor Franz Joseph's remark on hearing that Italy had broken away from the triple alliance: "A breach of honor unequalled in history." Another, in the form of a map of Italy, bears the words, "faithless, honorless," and a sword pierces the device.

"The work of propaganda is hard to undo, a fact which explains the difficulty of making Fascists of Austrians," a Swiss newspaper observed.

O. B. Ketchum Files for Senate. TOPEKA, Kan., June 18.—Omar B. Ketchum, Topeka, filed yesterday for the Democratic nomination for United States Senator. Ketchum was the Democratic nominee for Governor two years ago, losing to Gov. Alf M. Landon (Rep.). The Senate seat he seeks is occupied by Senator Arthur Capper (Rep.).

## Restoration of New Salem, Lincoln Village, Continues

12 Buildings Like the Originals Are Constructed and 10 Others Are to Be Erected Later.

By the Associated Press.

NEW SALEM STATE PARK, Ill., June 19.—Restoration of the village where Abraham Lincoln lived from 1831 to 1837, is well under way on this site. Designed as a Lincoln memorial, 12 buildings have been constructed around the only original cabin remaining from the once prosperous settlement. Three more are planned for the near future with seven others to be built later. The State is supervising the work, following in detail facts obtained from history and excavations.

Most of the buildings already constructed are grouped along the main street extending in an east-west direction the length of the village. Logs and other wooden materials are treated with a preservative.

Idea Born 30 Years Ago. The restoration program was first considered 30 years ago, but actual development did not begin until 1922. Much of the work being done through the Civilian Conservation Corps under the direction of the State Department of Public Works and Buildings.

Everything modern is barred from the village proper. Two parking areas, "Kelso Hoiler," a small natural bowl arranged for small assemblies, and "The Wagonwheel," a restaurant, are hidden from view from the hilltop village.

Geese and chickens occupy pens, gardens are growing and haystacks stand near the barns. With the addition later of a cow or two, rail fences, shacks, lean-to sheds, hitching posts and signs and the completion of the main part of the program, the village will live again except there will be no inhabitants.

Every building is being furnished with implements, utensils and articles, either original or authentic copies, which are donated to the State and handled under the direction of the old Salem Lincoln League.

Another Contract Let. The contract has been let for the construction of the Rutledge Tavern in the central part of the village, for exhibition purposes only. Within a few months it is planned to rebuild the residences of Isaac Gollamer and the Trent brothers on the western side.

During the next few years, the State expects to restore the grist and saw mill, the Rowan

Herndon residence, Henry Onstot's first house and cooper shop and John Camron's house in the eastern section; Herndon Brothers' store and Hill's carding machine and wool house in the central section, and residences of Isaac Burner and Philemon Morris on the west side. Four guides at the village wear jeans jackets and trousers, linsey woolsey shirts and leather boots to portray the role of original residents. Robert Kingery, director of public works and buildings, said that between 30,000 and 40,000 persons visited the park last year and that about 60,000 were expected this year.

"Restoration of the village will require two or three years more," Kingery said, "but the work will never be complete so far as I am concerned. New material and facts are continually being brought to light."

Town Flourished 10 Years. The village is on a 204-acre tract overlooking the Sangamon River, 25 miles northwest of Springfield, the State capital. Never having more than 100 inhabitants, the settlement was founded in 1829 and flourished for about 10 years.

However, with the founding and growth of Petersburg two miles to the north, New Salem's decline began and after 1839 soon went out of existence.

While a resident of the village, Lincoln worked in turn as store clerk, mill hand, soldier in the Black Hawk war, storekeeper, postmaster and deputy surveyor. He was living here when he was defeated for a seat in the Legislature in 1832 and elected to terms in 1834 and 1836. He moved to Springfield when he was admitted to the bar in 1837.

NAZI LABOR SERVICE COSTS TAXPAYERS \$80,000,000

182,370 Men in Service; Compulsory Labor for Girls Has Been Postponed.

BERLIN, June 19.—The Nazi labor service cost German taxpayers close to \$80,000,000 last year, but party officials say land reclaimed and improvements made by the spade corps will largely make up for the expenditure.

There were 182,370 men in the service. All fit young Germans are compelled to spend six months in the spade corps before serving a year in the army.

One-fourth of the cost went for food and keep, another fourth for clothing and the last half for utensils, administration and leader schools.

Compulsory labor service for girls has been postponed. The voluntary service for 1936 has been fixed at 10,000 girls, 40 in each camp. The Nazis aim at teaching leaders this year and making the service obligatory in 1937.

The girls help farmers with harvests, do first aid and kindergarten work.

EMPLOYMENT AND PAYROLLS GAIN SLIGHTLY IN ILLINOIS

Figures for May as Compared With Those in April Are Given

CHICAGO, June 19.—The Illinois Department of Labor announced yesterday that a survey of 4574 industries in the State showed an employment increase during May, as compared with April employment, of 1.1 per cent, with a payroll gain of 1.7 per cent.

In the Chicago metropolitan area, 318 reporting enterprises, employing 372,092 workers, showed increases of 1.2 per cent and 1.9 per cent in employment and wage payments, respectively.

The following cities reported increases in both employment and payrolls, the first figure representing the percentage gain in jobs and the latter in wages: East St. Louis, 2.3, 3.7; Granite City, 0.1, 0.7; Quincy, 2.2, 5.2; Springfield, 1.5, 2.0.

Cities reporting decreases in both divisions, with the first figure representing employment and the latter payrolls, included Bloomington, 0.1, 1.7; Danville, 1.9, 1.5; Decatur, 1.1, 0.8.

Belleville reported a slight gain in employment, but a decrease in wage payments.

LUCIANO BEGINS SENTENCE

He and Six Aids Enter Sing Sing After Vice Convictions.

Special to the Post-Dispatch. OSSING, N. Y., June 19.—Charles (Lucky) Luciano today began serving a 30 to 50 year sentence in Sing Sing prison on compulsory prostitution charges, resulting from the operation of a vice racket. Six of his aids entered Sing Sing with him.

Before sentence was imposed by Supreme Court Justice McCool yesterday, the report of a group of psychiatrists, who examined Luciano, was made public. He was described as "a shallow and parasitic individual who is considerably wrapped up in his own feelings," who manifests "a peasant-like faith in chance."

U. S. Battleships Land in England. By the Associated Press. PORTSMOUTH, England, June 19.—The United States battleships Arkansas, Wyoming and Oklahoma arrived here today on the summer naval academy cruise. The ships, commanded by Rear Admiral Wilson Brown, are to remain until June 27. Midshipmen on the cruise are to inspect gunnery and torpedo schools, the submarine depot and the marine headquarters at the naval dock yard.

## EX-GOV. LANGER TRYING COMEBACK IN DAKOTA

In Fight With Gov. Welford for Control of Non-Partisan League.

By the Associated Press.

BISMARCK, N. D., June 19.—North Dakota is in the midst of a bitter political fight with two factional leaders of the Non-Partisan League—Gov. Walter Welford and former Gov. William Langer—seeking control of the League in the Republican primary election June 24.

Langer, who served 18 months as Governor, until removed by Supreme Court decision following his original conviction in Federal Court of misuse of relief money, is attempting a political comeback. The conviction was reversed, and after two more trials Langer and three co-defendants went acquitted.

Welford, who has served since the disqualification of Thomas E. Moodie, second Democrat to hold the office in the history of the State, is now a bitter opponent of Langer, although once his running mate. In 1934, after Langer and Welford had won the Republican nomination, Mrs. Langer replaced her husband on the ticket as gubernatorial nominee, but was defeated in the general election by

Moodie, although Welford was elected Lieutenant-Governor.

Both factions of the League have full tickets in the field for State offices, although Congressmen William Lemke and Usher L. Burdick are unopposed for Republican nomination and have been endorsed by both factions.

Welford has the backing of many persons once prominent in the independent or "regular" Republican faction. In a preliminary fight he captured the Republican Convention and his supporters re-elected William Stern of Fargo as National Committeeman and Mrs. Selma Stenerson of Minot, National Committeewoman; selected eight delegates to the National Convention, and put up a slate of four presidential electors.

Although interest centers in the Welford-Langer fight, there is a contest in the Democratic party in which John Moses of Hazen, Farmer-lawyer, "regular" indorsee, is opposed by Ole H. Olson of New Rockford, former Acting Governor and member of the Nonpartisan League, now heading a "Progressive" Democratic faction, and by James F. Morrow of Welford.

The Olson faction also has candidates for several other offices in the field against the regular convention-indorsed candidates. Olson has announced open opposition to Langer also.

Trotzky Gets Extension in Norway. OSLO, Norway, June 19.—Leon Trotzky, exiled Communist leader, received permission today from the Norwegian Government to remain in the country for another two months. Trotzky was reported to be in excellent health.

# Special Purchase of Whittall ANGLO-PERSIAN RUGS

Brings These Celebrated Nationally Advertised Rugs to  
Hellrung & Grimm at an Extremely Low Price ...  
Far, Far Below the Nationally Advertised Price!

# DIZZY DEAN DEFEATS GIANTS, 7-5, FOR 13TH VICTORY

## Promoter Says Louis and Schmeling Will Fight Tonight

### BOXERS ARE UNWORRIED; NO CHANGE IN BETTING

#### Boxers Unconcerned Over Postponement

NEW YORK, June 19.—Both Joe Louis and Max Schmeling expressed themselves entirely unconcerned today over the 24-hour postponement of their 15-round brawl at the Yankee Stadium.

Said Louis: "The postponement will not make a difference to me. I'm in the best shape of my career and another day of waiting doesn't mean a thing, except perhaps that I'll be a little heavier when I get into the ring than I would have been for the original date. I'll try to end the fight as soon as I can."

Said Schmeling: "At first I was disappointed at the prospect of a postponement, but later I decided it didn't matter. If anything, 24 hours' rest should do me good. I'll be in the best possible shape when I climb through the ropes tonight. I know a good many people don't think so, but I'll beat Joe Louis. I'm certain of that."

NEW YORK, June 19.—The sun broke through the clouds hitherto threatening the Louis-Schmeling fight scene, and it appeared late this afternoon that no further danger of delay in the heavyweight show at the Yankee Stadium existed.

Last-minute arrangements were completed to go ahead with the program, including the main bout at 9 p. m. (Eastern standard time), but there was no sign of a rally by the cash customers.

At 3 p. m. only a handful of the faithful had gathered at the big stadium in the Bronx, with no activity whatever at the box offices.

"The fight is definitely on," said Jacobs. "Regardless of the weather I will not call it off until 7 p. m."

By W. J. McGoogan.

Of the Post-Dispatch Sports Staff.

NEW YORK, June 19.—If either Max Schmeling or Joe Louis suffered through the postponement of their 15-round fight which is scheduled to be held tonight in Yankee Stadium, it is the German heavy, in the opinion of boxing critics and fans.

Schmeling, it is argued, has had 24 more long hours to contemplate the unpleasant prospect of meeting the Brown Bomber from Detroit which will tend to break the stolidity which Max has exhibited up to the present.

Also Louis, who weighed 198 pounds yesterday when put on the scales by inspectors of the New York Commission to 192 for Schmeling, will gain in weight possibly as much as three pounds and have that much more power. Certainly the placid Louis, already

### The Browns Didn't Need the Run But West Scored, Anyway

It was the seventh inning of the final of the Browns-Athletics series and Hornsby's team was leading, 6 to 2. West was on second and Angelo Giuliani thought it would be a good idea to hit safely so Sam could score. So, Angelo did and so did Sammy.

## Duvall Has 1-Up Lead at 18 Holes In State Golf Final

By the Associated Press.

KANSAS CITY, June 19.—Grable Watson Duvall Jr., defending champion, was 1 up on Walter Blevins today at the end of 18 holes in their 36-hole final match in the Missouri State Amateur Golf Tournament. Both are Kansas City golfers. Each shot a 72 on the first 18, one under par for the course.

The lone remaining out-of-town threat, lanky Robert Cochran Jr., St. Louis, went as far as the semi-finals yesterday before he tumbled before Blevins' sharp shooting. 3 and 1. Blevins eliminated Frank Aylward, Kansas City, in the quarter-finals in the morning, 3 and 1, and Cochran went 21 holes to eliminate Ted Adams, Kansas City.

Duvall had little trouble disposing of George Allen, Kansas City, 4 and 3 in the quarter-finals, but was forced to use his Sunday

Continued on Page 2, Column 1.

### WRAY'S COLUMN

#### Rain Helped Some Folks.

RAIN took a desperate dig at the bank roll of Mike Jacobs, who is promoting what was to have been a million-dollar battle between Joe Louis and Max Schmeling; but it did a good turn to Jack Dempsey and other promoters of the by-products of the industry, such as restaurants and hotels.

Things were booming around Dempsey's place favor what is more pertinent, opinions about the probable outcome of the contest were many and positive. And they were all one way.

It has been a long time since popular opinion has been so unanimously in favor of one fighter; but in the current instance it is really hard to find a Schmeling supporter, unless you except Joe Jacobs, his manager, or Max Machon, Joe's trainer.

If ever a battle was "in" before being fought, this is one, insofar as public opinion is concerned. If there is any Schmeling money around it is hard to

### OPEN DATE FOR BROWNS

THE Browns and the Boston Red Sox were idle this afternoon because today's scheduled game was moved up to provide a doubleheader Sunday.

## World and Olympic Track Records Fall Trials at Chicago

By the Associated Press.

CHICAGO, June 19.—Jesse Owens, Ohio State's streak of lightning, sailed through space for a distance of 25 feet, 10 7-8 inches in one of his qualifying leaps in the broad jump of the National Collegiate Track and Field championship at Stag Field this afternoon to better the Olympic record.

The Olympic record of 25 feet, 4 1/4 inches was established by Edward B. Hamm of Georgia Tech, at Amsterdam in 1928.

Owens' effort was nearly a foot shorter than his jump of 26 feet, 8 inches, a world mark applied for, made in the Western Conference championships at Ann Arbor, Mich., in 1935.

Archie Williams of California, America's newest quarter-mile sensation, eclipsed the world's record for the 400-meter run, reeling off the distance in 46.1 seconds.

Owens was easily the best of the broad jump qualifiers, with Kermit

Continued on Page 3, Column 2.

## Flint Rhem, Who Won 20 Games For 1926 Cardinals, Purchased By Team From Nashville Club

Charles Flint Rhem, who was a potent factor in the Cardinals' first National League championship in 1926 and who has been flitting around in the minors has been signed again by the Cardinals according to an announcement made at noon today by Branch Rickey, general manager of the Cardinals.

"We bought Rhem from the Nashville Club of the Southern Association," Rickey stated, "but he will not report to the Cardinals for about 10 days. We will keep him here to get in condition—he's not in very good condition—and then send him east. We may let him go home for a week because his wife is sick and he hasn't seen much of his three months' old baby. No, I don't know where Rhem is making his home now."

Rhem only spent a year with Fort Smith of the Western Association before he joined the Cardinals in 1925. In the pennant drive of 1928, he won 20 games and lost only seven, which was his best record of any of the years he was with the Redbirds.

After being sent back to Housatonic and then to Minneapolis in 1929, Rhem returned to be a member of the championship club in 1930 and 1931. He was sold with Eddie Delker to the Phillies, June 4, 1932. Later the Boston National League team acquired him. Last year he was sent to Syracuse of the International League.

The acquisition of Rhem will increase the Cardinals' roster to the player-limit of 23.

## STUART MARTIN AND MEDWICK BOTH HIT HOMERS WITH 2 ON

By J. Roy Stockton.  
Of the Post-Dispatch Sport Staff.

NEW YORK, June 19.—Dizzy Dean turned in his thirteenth victory of the season here this afternoon as the Cardinals defeated the New York Giants in the opening game of a series of three.

The score was 7 to 5.

Joe Medwick and Stuart both smashed home runs with two on base to give Dizzy a six-run lead in two innings.

The attendance was announced as 8526 paid and 3446 women, guests of the club.

The game:

**FIRST INNING—CARDINALS.**  
Terry Moore walked. Stuart Martin singled off Schumacher's glove. Terry Moore stopping at second. Pepper Martin flied to Ripple. Medwick hit a tremendous line drive against the facade of the left field stands for a home run, scoring Terry Moore and Stuart Martin ahead of him. Collins flied to Ripple. Osgood flied to Whitehead.

**THREE RUNS.**  
GIANTS—Pepper Martin ran back for an excellent catch of Joe Moore's drive in deep right center. Durocher threw out Whitehead. Ripple bunted and was thrown out by Stuart Martin.

**SECOND—CARDINALS.** Frisch walked. Durocher sacrificed. Schumacher to Leslie. J. Dean grounded to Bartell and Frisch was out at third. Bartell to Jackson. Terry Moore singled to center, sending Dizzy Dean to third and took second on the throw to third. Stuart Martin hit the upper deck of the right field stand for a home run, scoring behind Dizzy Dean and Terry Moore. Pepper Martin popped to Bartell. **THREE RUNS.** GIANTS—Ott flied to Terry Moore. Terry Moore came in fast for Leslie's short fly. Mancuso struck out.

**THIRD—CARDINALS.** Castleman went in to pitch for New York. Medwick was called out on strikes. Collins doubled to center. Osgood flied to Whitehead. Frisch grounded to Whitehead.

GIANTS—Jackson flied to Pepper Martin. Bartell singled to center. Castleman walked. Joe Moore walked, filling the bases. Whitehead struck out. Ripple fouled to Frisch.

**FOURTH—CARDINALS.** Durocher singled to left. Dizzy Dean sacrificed. Castleman to Whitehead. Jackson threw out Terry Moore. Durocher holding second. Whitehead threw out Stuart Martin.

GIANTS—Ott fouled to Collins. Leslie flied to Terry Moore. Mancuso walked. Jackson singled to right, Mancuso stopping at second. Bartell forced Jackson, Durocher to Stuart Martin.

**FIFTH—CARDINALS.** Pepper Martin singled against the right field wall. Bartell threw out Medwick. Pepper Martin stopping at second. Collins grounded to Leslie. Pepper Martin moving to third. Jackson tossed out Osgood.

GIANTS—Castleman flied to Pepper Martin. Joe Moore singled to right. Whitehead popped to Stuart Martin. Ripple walked. Ott flied deep to Pepper Martin.

**SIXTH—CARDINALS.** Castleman developed a pain in his left hip and Gabler went in to pitch for the Giants. Frisch fouled to Mancuso. Durocher walked. J. Dean flied to Ripple. J. Moore flied to Ott.

GIANTS—Stuart Martin threw out Leslie. Mancuso lined to Stuart Martin. Jackson singled to left. Bartell hit a slow roller to Frisch. Jackson stopping at second. Koenig batted for Gabler and singled to center, scoring Jackson and sending Bartell to third. Joe Moore singled to center, scoring Bartell, Koenig stopping at second. Whitehead hit a home run into the lower deck of the right field stand, scoring Koenig and Joe Moore ahead of him. Ripple fouled to Frisch. **FIVE RUNS.**

**SEVENTH—CARDINALS.** Fitzsimmons went in to pitch for the Giants. It was Whitehead's first home run of the year. Stuart Martin bunted safely toward Fitzsimmons. Pepper Martin forced Stuart Martin. Bartell to Whitehead. Medwick singled to left, sending Pepper Martin to third. Collins singled to right, scoring Pepper Martin. Medwick stopping at second. Mize batted for Osgood and drove deep to Ripple. Medwick taking third after the catch. Frisch

# DIZZY DEAN STILL RANKS FOURTH IN ALL-STAR TEAM POLL

## STUART MARTIN HAS CHANCE TO WIN THE SECOND BASE POSITION

Medwick Appears Certain of Left Field Job on National League Club for July 7 Contest.

By the Associated Press.  
BOSTON, June 19.—Selection of players for the major league all-star teams that will meet here July 7 took definite form last night, 48 hours before the close of balloting by the nation's baseball fans.

On the basis of the voting to date, the American League infield will be as follows: Lou Gehrig, New York Yankees, first base; Charley Gehringer, Detroit Tigers, second base; Luke Appling, Chicago, shortstop; Jimmy Dykes, Chicago, third base.

In the outfield, Joe Di Maggio, Yankees, seems certain of the left field berth, with Earl Averill, Cleveland center field and "Mule" Haas, Chicago, right field.

Mickey Cochrane, manager of the world champion Tigers, seemed to have the catching berth sewed up, with Bill Dickey of the Yankees running second and Joe Sullivan of Cleveland in third place.

The pitching assignment, unless last-minute voting changes the situation radically, will fall to "Lefty" Grove, Boston; "Goofy" Gomez, New York; Monte Pearson, New York, and "Schoolboy" Rowe of the Tigers.

The National League lineup seems definitely settled, with each of the following having a long lead over all competitors:  
Manager Bill Terry of the Giants, first base; Bill Herman, Cubs, second base; "Pinkie" Whitney, Phillies, third base; Arky Vaughan, Pirates, shortstop; Joe Medwick, Cardinals, left field; Frank Demaree, Cubs, right field, and either Hank Leiber, Giants, or Wally Berger of the Bees in center field.

Outside of the center field fight, the only other possible battle in this list is for the second base berth. Here young Stuart Martin, the Cardinals' freshman, is getting a flock of votes in the rush of recent days, but may not be able to overtake Herman.

Carl Hubbell, Giant twirler, and Gabby Hartnett, Cubs' catcher, were generally accepted as the starting battery for the Nationals.

Van Mungo of the Dodgers and Lon Warneke of the Cubs were running next to Hubbell for the fans' choice. Then came Dizzy Dean, close behind. Paul Dean's vote gave him a slim chance of getting in.

Hartnett has polled the highest individual total of the 287 players mentioned in the tabulation. He has received, thus far, 18,202 votes. The final tabulation will be announced officially June 27.

## COCHRAN ELIMINATED; DUVAL PLAYS BLEVINS IN STATE GOLF FINAL

Continued From Page One.

In bogey fours, halved the second in par fours, and Cochran won the long par five third in two to bag a birdie as Adams was getting his par. Cochran had five birdies during the match. Adams had two birdies and an eagle, the eagle winning the fifteenth from Cochran's birdie.

The St. Louis youngster jumped into a lead in his match with Blevins by winning the second hole with a birdie three. He sank a chip shot from the collar. The long-hitting Blevins got it back on the long third with a birdie four, and went one up on the fifth with a par four. He made the turn on up with a medal 38 to Cochran's 39.

They halved the next five holes, each getting a birdie on the thirteenth, but Blevins made it two up by taking the fifteenth, and closed out the match by winning the seventeenth with a par.

**Hard Fight for Champion.**  
Calloway, who had been playing par golf in his other matches, unhooked a sub-par blast to make it interesting for Duval.

Going to the eighth green two down, Calloway sank a 20-foot putt for a win, then squared the match on the ninth by sinking a 60-yard approach shot. He sank a chip shot from the collar to halve the eleventh but Duval began to pull away on the twelfth, winning with a par, and he never lost the lead.

Duval was four under par, not counting the second hole where he picked up.

Blevins, one of the longest drivers in the tournament, is playing his first State meet. He is a former Kansas City public links champion and gets in his practice at a driving range where he is employed as night watchman.

Duval and Blevins will meet over the 36-hole route for the title.

## Dodgers Release Leonard.

By the Associated Press.  
NEW YORK, June 19.—The lowly, hard pressed Brooklyn Dodgers yesterday purchased infielder John Hudson and Outfielder Eddie Wilson from the Allentown of the New York-Penn League for replacement purposes. Pitcher Emil Leonard, who has been riding the bench all season, was sent on option to Atlanta of the Southern Association.

## "Please Go Way and Let Me Sleep"

Worried? Not Joe Louis, the Brown Bomber from Detroit, who is taking a nap following the 24-hour postponement of his fight with Max Schmeling, scheduled for the Yankee Stadium tonight.

## Umpires' Rows With Louisville Leader To Be Investigated

By the Associated Press.

LOUISVILLE, Ky., June 19.—GEORGE M. TRAUTMAN, league president, will conduct a court of inquiry here today to determine whether two American Association umpires have discriminated against the Colonels, as the ball club charges.

The umpires are Tommy Dunn and Ed Borski. They and 10 members of the Louisville club, including Manager Burleigh Grimes, will testify.

Grimes was suspended Wednesday for 48 hours and fined \$10 by Trautman for a squabble Sunday with Dunn, who also ejected him Monday night. The former ace spitball hurler of the major leagues has been banished 12 times this year, a new high for the association.

## Haas Reaches Semifinals of Southern Golf

By the Associated Press.

MEMPHIS, Tenn., June 19.—Freddie Haas of New Orleans advanced to the semifinals of the Southern amateur golf tournament here today by conquering Billy Howell of Houston, Tex., 3 and 2.

While the Louisiana State University golf captain was moving a step nearer his second title, the tournament "dark horse," 20-year-old Henry Castillo of Panama City, Fla., was eliminated, 2 up, by Warren Smith Jr., of Gadsden, Ala.

Jack Munger of Dallas, Tex., withstood a late rally by Ed Herron Jr., of Houston, and Chattanooga, Tenn., to advance to the semifinal round.

Johnny Morris of Birmingham, Ala., last year's medalist, after leading by two holes through the ninth, was forced to the home green to beat Louis Montedonico of Memphis, 1 up, in another close battle.

## MUNICIPAL TENNIS MEET STARTS SATURDAY

By the Associated Press.

Entries close Thursday for the men's Municipal Tennis championship tournament, and for the women's meet, entries will close July 2. The event will be held as usual on the Jefferson Memorial Court in Forest Park.

Entry blanks may be obtained from downtown sporting goods houses, or from the Park Department office, 330 Municipal Courts Building.

## Postponement Likely to Cut Louis-Schmeling Bout Gate

Continued From Page One.

thoroughly confident of victory, will not be bothered by the day's delay. So, if either is affected adversely, it likely will be Max, but the poor guy already has so much against him on paper, at least, that another handicap probably won't mean much anyway. At least, if there is anybody who believes he has a chance to win he is not visible to the naked eye.

**Bad on the Promoters.**  
Max will not be the only loser by the delay, if loser he is, because Mike Jacobs, the promoter, also stood to suffer a depletion of the pocketbook through the postponement. A gate which promised, when the fight was made, to be the biggest in recent years, causing Jacobs to confidently scale his prices from \$40 down with a view to grossing more than a million dollars, has shrunk to the point where it is now believed the gross will not exceed \$650,000 or about \$500,000 net, by the time taxes, Milk Fund share and rental are taken out. And the number of people expected to view the battle of the shrinking dough is now expected to be about 50,000 against the 75,000 or 80,000, previously estimated.

Jacobs, who has been phenomenally successful in the promotion of Louis' matches, made the Baer fight last September the high mark when nearly a million was taken in, stands to suffer an actual loss now.

The boxers, of course, are to get 30 per cent each, according to their contracts, although it is said that Schmeling will receive \$150,000 regardless, while Louis is to get just 30 per cent of the net. But the delay, demand for return of advance sale money by some customers and the reluctance of last minute purchasers to lay it on the line, will take toll from Jacobs.

He appeared to be rather highly strung yesterday as the rain poured down in torrents throughout the morning. He held to what seemed to be a forlorn hope that the match could go forward as late as weigh-in time, noon, but within another hour it was announced that the contest had been definitely postponed until tonight.

Then immediately the thought occurred that with no clearing skies in evidence a second postponement might be necessary. Jacobs declared then that it would be held Saturday afternoon at 4 o'clock which brought up the question if the New York American League baseball club could permit the match to go forward in opposition to the Giant-Cardinal game.

No Change in the Odds.  
Schmeling, an on-time German, was there right on the hickey when it was time to get on the scales; so was Joe. They just glanced at each other, shook hands, posed for photographs, listened to the chairman of the New York Commission recite the held and then parted for their living quarters without any conversational exchange.

Max certainly had no appearance of being nervous at the time as he stood next to his opponent and, of course, Louis just had the same slightly bored attitude he has always.

The boxers remained with friends during the day and will continue to do so today, as there is no necessity for them to weigh in again.

The delay seemed to bring no change in the gambling element with Louis still favored to win at 5 to 1 and 3 to 1 by a knockout. But some of the wise ones pointed out that Jim Braddock was on the night end of the 8 to 1 odds the night he fought Max Baer last June and came off with the heavy-weight champion and then parted for their living quarters without any conversational exchange.

All of which proves that the underdog sometimes come through.

**Wrestling Card Complete.**  
Ernest Klein, a German 160-pounder, will meet Rollie Pickett of Springfield, Ill., and Andy Turina takes on Jack Harris in 30-minute bouts in the wrestling show to be held next Tuesday night at the Coliseum, according to announcement by Promoter Schwabe. Leo Daniel Boone Savage is to meet Pat O'Shocker in the main event.

## GUS MORELAND SHOOT BIRDIE ON NO. 19 TO WIN HIS MATCH

By the Associated Press.

DECATUR, Ill., June 19.—Gus Moreland, Peoria, shot a birdie four on the nineteenth hole today to defeat Lyle Hoffman, Urbana, one up, and enter the semifinals of the Illinois amateur golf tournament.

Moreland was one down at the turn and two down as they teed off for the eleventh hole. He won the fifteenth and shot a birdie three on the 443-yard eighteenth to square the match, however. On the extra hole, Moreland was on in three and made good on his 10-foot putt, while Hoffman's approach fell short of the green and he overshot his pitch.

Johnny Hobart, Rockford, the defending champion, was eliminated by his University of Illinois teammate, Wilbur Kokes, 2 and 1. Three down, Hobart won the sixteenth hole with a birdie three, but lost when both took par three on the seventeenth.

John Holstrom, 15-year-old Rockford High School sophomore, defeated Ray Croslin, Oak Park, 2 and 1. Steve Williams Jr., Evanston Golf Club, downed Jack Cameron, Flossmoor Country Club, Chicago, 5 and 4.

## SUTTER SEED NO. 1 IN INTERCOLLEGIATE TENNIS TOURNAMENT

By the Associated Press.

CHICAGO, June 19.—Ten stars were seeded by the National Intercollegiate Tennis Tournament Committee today for the annual competition of university players which opens Monday on Northwestern University's courts.

The 10 were seeded in the following order:  
Ernest Sutter, Tulane; Vernon John, Southern California; Russell Ball, Northwestern; Paul Gulbord, Dartmouth; Charles Carr, Southern California; George Ball, Northwestern; Richard Bennett, University of California; Ben Dey, Leland Stanford; Ralph Minnick, Princeton; and Norman Bickel, Chicago.

Sutter and Russell Ball were semifinalists last year. Bickel is Big Ten champion.

The seedings were made from a field of 82 entrants from 35 universities. Play on the clay courts will start at 10 a. m. Monday, with the doubles getting under way Tuesday. Pairings for the doubles will be made Monday, officials said.

Wilbur House of Rice University, Texas, last year's singles title, and Leonard Patterson of California Tech the runner-up have graduated. Wide-open fights for the vacated crowns were expected to be productive of outstanding tennis.

**Churches Asked to Organize Entries for Junior Olympics**  
An appeal to churches for aid in organizing entries for the St. Louis district Junior Olympics was sent today by Director Armin A. Wahlbrink, who has announced nine divisions from which athletes may enter.

Entry blanks and 500 letters explaining the Junior Olympic purpose of bringing together the youth of this area in mass athletic competition were mailed to each church organization.

The nine districts announced include the territory of each city high school, with Roosevelt and McKinley and Soldan and Blewett paired together; two St. Louis County divisions, north and south of Clayton road, and two in Western Illinois, St. Clair and Madison Counties.

Boys in these districts may enter through the nearest church, whether they are members or not.

Registration events are scheduled to start early next month, with finals Aug. 9-15, probably at Public Schools Stadium.

## SOFTBALL LEAGUES' RESULTS, SCHEDULES

Tonight's Schedules.

## CORRAY'S COLUMN

Continued From Page One.

tory will be our old friend the Mauler himself. Dempsey has really put himself out on a limb about Schmeling.

"What do I think?" he said in answer to a question yesterday—"what do you expect me to think? This fight's a matter of Schmeling hasn't got the equipment to whip Louis and it would have to be an accident, of the rankst kind if he were to win.

"Louis really has got something. Schmeling is pretty well along and a nice, tough guy; but that don't win from fellows who can do everything better and faster, and who know a lot more, besides.

"I just can't consider Schmeling as a possible winner in this fight."

## Well, Sometimes They Are Wrong.

WELL, looking back, we can see where even the great men of the past in ring matters have not always shown themselves good prophets.

The late Jim Corbett notoriously was wrong. Perhaps Jack, too, has a wrong slant.

But if so, there will be a number of other outstanding boxers who will go down with him. One is Gene Tunney—he, too, considers that Schmeling has only a miracle chance to win from Louis.

The boys who know their fighting understand that a boxer who has only a four flush for a left-hand, and a right that he is reluctant to shoot, will have a difficult time against a foe who can throw punches from every direction with either hand, and who besides, knows all about the defensive angle.

Schmeling, they say, is tough. Well, he'll join the big parade and say he had better be—if he wants to be there when the final gong sounds.

## More About Dempsey.

JACK DEMPSEY may have the wrong idea about Schmeling but he has the right idea about one thing: He is today the pre-eminent restaurateur of the city.

In the beginning, Dempsey was supposed to be just a name attached to somebody else's bank roll. Today Dempsey owns 66 per cent of the stock company which operates his place. That his investment is going well, enlargements now in progress testify.

It is not just putting in a boost for Dempsey to say that his restaurant is really the hub of the New York fight wheel.

## They Take It Seriously.

WRESTLING still continues to be taken seriously by State Athletic Commissioners, as witness the agreement entered into by the National Athletic Union and the National Amateur Athletic Union.

## JACOBS TRYING TO MATCH ROSS AND MONTANEZ

NEW YORK, June 19.—Mike Jacobs, promoter for the Twentieth Century Sporting Club, is negotiating for a world's welterweight title fight here in July between Champion Barney Ross and Pedro Montanez, sensational Puerto Rican who has been cutting a wide swath through the lightweight ranks.

If arranged, the bout will be staged in one of the New York ball parks. July 22 is the tentative date.

Both fighters have agreed to terms, Jacobs said, the only hitch being that Montanez, who has been campaigning here as a lightweight, insists Ross shall agree to defend his title at 142 pounds. The welterweight limit is 147 pounds.

Sam Pinn and Art Winch, managers of Ross are considering this proposal.

Ross already is signed to defend his title in Australia in September against Jack Car-Oil, Australian welter contender, and also is negotiating for a fight in Vancouver with an opponent not yet selected.

## Trapshoot Sunday.

An Illinois-Missouri Trapshooting League shoot will be held Sunday by the North Side Gun Club of Alton on its grounds starting at 1 o'clock. An 100-target shoot, the Illinois-Missouri handicap, is the feature. The other event will be a 50-bird, 16-yard shoot. The grounds are on Route 111, half mile from the end of State street.

## NEBRASKA PRO TAKES LEAD IN WESTERN OPEN WITH 68 SCORE

By the Associated Press.

DAVENPORT, Ia., June 19.—L. (Pat) Wilcox, husky, long-hitting young professional from Norfolk, Neb., toured the Davenport Country Club course in 34-68, three strokes under par, today to give the rest of the field in the first round of the annual western open golf championship tournament something to shoot at.

Wilcox, exceptionally long off the tee, clipped two strokes off par 36 for the outgoing nine holes and was one under on the return trip. He dropped putts for three birdies on the first nine, had two more on the second, and was one over on one hole of each nine.

Horton Smith, Chicago professional, brought in a 69, the second sub-par round to move into second place. He was out in 35, one under even figures, and finished with a 34, also one under. A 12-foot putt on the final green rimmed the cup, depriving him of a birdie. His round produced five birdies.

The defending champion, Johnny Revolta of Evanston, Ill., rallied after a wobbly start to finish with 88-35-72. The club professional, brought in a 69, the second sub-par round to move into second place. He was out in 35, one under even figures, and finished with a 34, also one under. A 12-foot putt on the final green rimmed the cup, depriving him of a birdie. His round produced five birdies.

The defending champion, Johnny Revolta of Evanston, Ill., rallied after a wobbly start to finish with 88-35-72. The club professional, brought in a 69, the second sub-par round to move into second place. He was out in 35, one under even figures, and finished with a 34, also one under. A 12-foot putt on the final green rimmed the cup, depriving him of a birdie. His round produced five birdies.

"Light Horse" Harry Cooper, who lost the national open title to Tony Manero, tightened up after a weak start to finish with a hand 70, one under par, and the third round under regulation figures. Cooper had a 37 going out, and finished with a 33.

Harry Adams, Nashville, Tenn., shot 36-36-72. John Drucker, Chicago professional, started with a sub-par 34, but needed 41 coming in, for a 75.

Johnny Bulla, 22-year-old Chicagoan who got away among the leaders in the national open at Easton, shot even par, 38-33-71.

Ky Laffoon, Chicago pro, was right up among the leaders with 70, he fired a 34, two under par, going out, but slipped to a 36 for the return.

Teri Johnson of Decatur, Ill., also joined the 70-club, with rounds of 38-34.

Eighteen-hole scores:  
2.—Denotes amateur.  
L. J. Wilcox, Norfolk, Neb. —34-34-68  
Paul Penock, Davenport, Ia. —34-40-74  
Pat Sawyer, Minneapolis —38-36-74  
Charles Miller, Chattanooga —43-36-79  
Terry Adams, Nashville, Tenn. —36-36-72

John Bulla, Chicago —38-33-71  
Arthur Bartlett, Ottumwa, Ia. —42-37-79

## FIVE WASHINGTON U. GOLFERS TO COMPETE IN COLLEGE TOURNEY

Five members of the Washington University golf team will depart by automobile tomorrow morning for Chicago to compete in the National Intercollegiate tournament which opens next Monday at the North Shore Country Club.

Members of the team are Capt. Tom Draper, Bill Mason, Lefty Campbell, George Stamm and Jonas Weiss.

Lack of official character of the tri-color's participation apparently means the Government will not be represented in the ceremonies at Berlin.

A bill for an appropriation to finance the team will be introduced soon in Parliament.

## BROWNS PLAYING AT PASTER THAN FOUR OF SE OTHER CL

By James M. Gou.

If you take a look at the league standings, note that the Browns still are in the cellar. Such being the case, it may be surprising to learn that they are playing better than most of them on the field.

Proceeding at a snail's pace, the Browns from the opening of the season, the team has been in third place between seventh-place Athletics.

Moreover, since May 14 and lost 12 in its last and over a period of a month, has played better than the World Champions, the Chicago White Sox, and land Indians and the Athletics, all of whom were over the mark; today they are all even-ten-step at that time as now their percentage is only New York, Boston, and the Athletics have, for the moment, a better pace than the Browns.

And despite that lamentable streak of 13 games, the date are a full game ahead of the Athletics, and it will be a real test when they meet the Athletics on June 27.

Season's 100 games to play to do their climbing.

Be Careful, Mr. Cochran. How far are they away from first division berth? Well, the Browns today are fourth with a record of 49-52, and the Athletics are second with a record of 54-47.

So, there appears to be lots of it.

The recent trip netted 10 to 10 for the Browns, a return to the top of the league. In so doing, they have rather confounded the odds makers, because two or three of the team was about to be sure, there are no stars in a team coming from a drab and which, in the time of the home-stay, has been team, for 321!

Tietje's Fine Work Re. It has been said that they are as good as their pitcher, today, in the final week of the season, the Browns' pitching with Tietje, for third victory as a Brother eight hits over a With this pitching, the club looked like a combination, smashing hits of assorted sizes, brilliant, and errorless.

There never was any result of the Philadelphia Browns scored on first and twice in the had they stopped right. would have had a sufficient of runs to insure a stand, they added single fourth and sixth, and the seventh just to make it for Tietje.

The final score was 7-1. Macken getting one sixth on Tietje's only game and two successes and another when Bob one high in the left field, ing off in the seventh.

And, as though it were for their hustle since home the Browns will have at today, the game scheduled with the Boston Braves, and errorless.

The series with the Yankees will open tomorrow a single game. The Sun bill will close it.

With his pitching still in shape, Manager, expected to assign either as or Chief Hopsitt, pitcher. The assignment gets it, is not exactly a for Lefty Grove is due Boston, Grove, while the Grove of old, has 11 games of 11 this season. Buck Newsum of the other to Sugar Brownie, now with the

Notre Dame Golfer. In the past seven years, Dame won six six-team titles in golf.

# MARTHA BIXBY WINS DISTRICT GIRLS' TENNIS CROWN

## BLATTNER AND JOHNSON TAKE JUNIOR TITLE; FRIEDMAN WINS

Victory Over Henry Deutman Gives Robert Friedman Right to Play in National Boys' Tourney.

By Davison Ohear.

Jane Dierberger, 14-year-old Roosevelt High School pupil, put up an admirable defense against the superior driving ability of Martha Bixby before bowing out of the St. Louis District Girls' tennis tournament final at noon today on the Lewis Park courts in University City. Miss Bixby, a 17-year-old student at Mary Institute and a pupil of professional Ike Macy at a St. Louis Country Club, rallied nicely after dropping the first set and emerged with the championship, 4-6, 6-2, 6-2.

Versatile Miss Dierberger, a sister of the two-time champion, Margaret, and a daughter of John F. Dierberger, at one time an amateur and semi-professional baseball star here, displayed fine technique in taking the first set but Miss Bixby's better backhand and more forceful forehand drives turned the tide. Even in defeat Miss Dierberger gave promise of becoming the finest girl tennis player this district has ever had. Miss Bixby, too, played excellent tennis and since she has another year in the girls' division it is highly probable that she will remain champion for another season.

Richard Tindall, defending champion, will meet Dave Chopin in the junior final. As previously announced the winner will be sent to the National Junior championship by the St. Louis District Tennis Association.

In the semifinals yesterday, Chopin eliminated David Ferriss, second seeded player, 6-4, 6-2, while Tindall won his semifinal round encounter from Henry Teiber the day before. While Tindall is favored to retain the title he may find unexpected opposition from Chopin, who defeated such players as Eugene Pettus Jr., Maffitt Bates and Robert Blattner in earlier rounds.

Robert "Bud" Blattner and James Johnson won the junior doubles championship by defeating Charles Eberle and Dave Chopin in a five-set final. Blattner and Johnson opened strong to win the first two sets, 6-2 and 6-2. Eberle and Chopin came back to take the third, 6-2, and the fourth 8-6.

The fifth set was close all the way, Blattner and Johnson finally winning, 7-5. Eberle's net play and Blattner's backcourt game featured.

**Friedman Gains Title.**

Robert Friedman earned a trip to the National boys' championship at Culver, Ind., next August by defeating Henry Deutman, 9-7, 6-3, in the final. Deutman came near winning the first set when he led, 7 to 6 in games, but Friedman took the fourth game and two more to win.

**Yesterday's Results.**

**JUNIOR SINGLES.**

Semi-final round, Dave Chopin defeated David Ferriss, 6-4, 6-2.

**JUNIOR DOUBLES.**

Final round, Robert Blattner and James Johnson defeated Charles Eberle and Dave Chopin, 6-2, 6-3, 6-2, 8-6, 7-5.

**BOYS' SINGLES.**

Final round, Robert Friedman defeated Henry Deutman, 9-7, 6-3.

**GIRLS' SINGLES.**

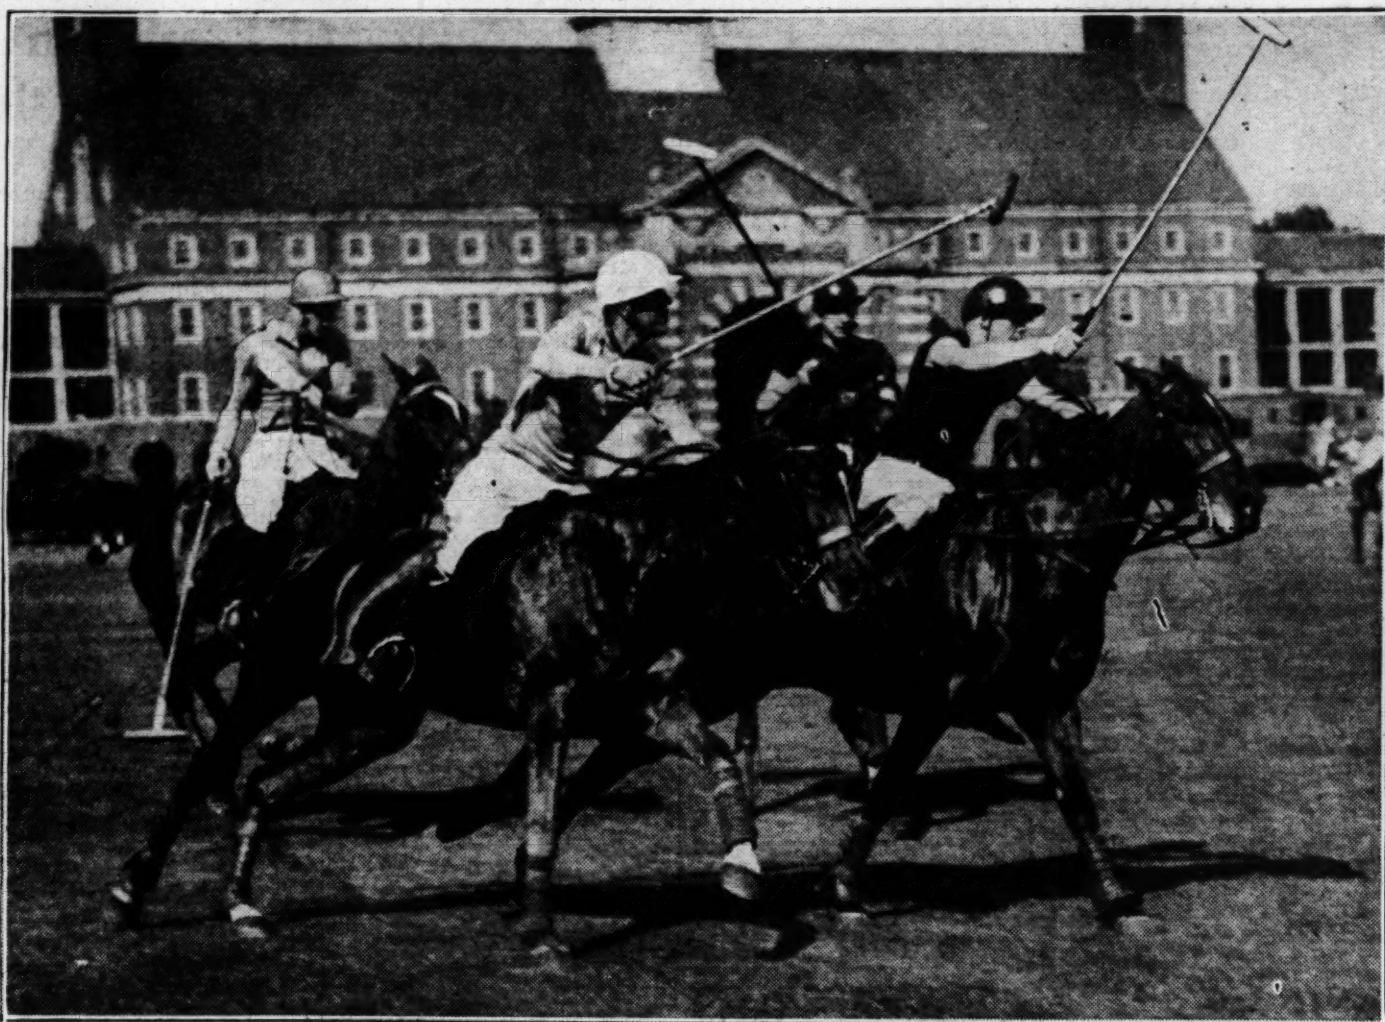

Semi-final round, Jane Dierberger defeated Ann Clark Lewis, 6-0, 6-2.

Final round, Martha Bixby defeated Frances Klein, 4-6, 6-2, 6-4.

**1937 Amateur in Northwest.**

The 1937 amateur golf tournament will be held at the Alderwood Country club, near Portland, Ore. This is the first time a northwest course has been chosen.

## Harvard Beats Yale in Polo Semifinal

This bit of action was snapped during the Intercollegiate Polo championship tournament at Governor's Island, N. Y. Wednesday when Harvard defeated Yale, 6 to 4, to enter the final round. T. Winnill, Harvard's No. 2, and Peter Dominick, Yale's No. 2, are after the ball.

## America's Swimmers Should Regain Olympic Title Says 'Dutch' Smith, German Coach

This is the first of a series of articles on the 1936 Olympic swimming prospects by Harold "Dutch" Smith, 1932 Olympic diving champion and now coach of the German Olympic diving team.

By Harold "Dutch" Smith.

(Copyright, 1936.)

BERLIN, June 15.—For the first time in eight years, the United States stands in a position to win the Olympic swimming championship.

Despite our rather overwhelming defeat by Japan in the swimming finals in 1928, there is every prospect that this summer America's young swimmers will take the measure of Japan's representatives.

Major reason for this belief is the exceptional development within the last two years of at least six brilliant young performers. They are Peter Fick in the 100-meter free style, and 200-meter relay man; Adolph Kiefer, the sensational young back-stroke swimmer from the Lake Shore A. C. in Chicago; Jack Medina, of Seattle's Washington A. C. in the 400 and 1500-meter events; Macdonis in the 100 and 400-meter free style events; J. Kasley of Michigan, in the 200-meter breast stroke, and Paul Wolf and Arthur Lindgren in the 100-meter free style and the 200-meter relay event.

Peter Fick, 21-year-old New York Athletic Club star, has broken all existing records for the century meter event in the past two years. He has lowered Weissmueller's world mark of 57.2 to 56.4. In a recent dual meet with Japan he whipped Yusa, Japan's outstanding sprint swimmer, in the remarkable time of 57.2. The little Nipponese, however, was very close on his heels, finishing only six-tenths of a second behind.

Kiefer the Backstroke Star.

Perhaps even more outstanding than Fick is the 17-year-old back-

stroke ace of the Lake Shore A. C., Adolph Kiefer. He has broken all existing backstroke records by good margins and doesn't seem to know how fast he can really go. He has the 100-meter mark down to 1:04.2 from Kojak's record of 1:08.2 made in Amsterdam.

During a recent tour of Germany this past winter he achieved notable success and was a general favorite of European swim fans. He made 20 starts in all-length pools and broke something like 19 records.

Every bit as outstanding as Fick or Kiefer is Jack Medina, the distance star of the Washington A. C. He is more versatile, swimming anything from 200 meters to the mile. In 1932 he was merely an alternate on the American relay team. Since that time he has broken Weissmueller's marvelous 200-meter record at 2:08 flat, to 2:07.3 and his 220-yard record of 2:08 to 2:07.4. Also he holds the world's mark for the 400 meters with Yusa of Japan in 4:45.2. Medina holds all of the American records from 200 meters to the mile.

Even though last year Medina took Ishikawa and Makino in the 1500-meter event, his improvement since his return to America has been little less than phenomenal and the American coaches are putting all of their eggs in one basket for this event this summer, in selecting Medina.

Kasley, Michigan's breast stroke swimmer, was "just one of the boys," even up to the time that he returned from Japan last summer. This winter he has been working on the new butterfly stroke which he swam recently to break the world's record for 200 meters in the marvelous time of 2:37.2.

The United States has never done anything in breast stroke at the Olympic Games and Kasley looks like our big hope if he is strong enough to swim that new butterfly stroke through the heats that are required in Olympic competition.

**Yale's Fine Prospect.**

The work of Macdonis, youthful Yale University contender, has been outstanding in his two favorite events, the 200 and 400 meter free style events. In Japan last summer he swam 2:14 for the 200 meters and 4:51 for the 400 meters. With one year of good training under Bob Kipphut at Yale, I feel that he will be one of America's strongest contenders.

From the Pacific Coast comes Arthur Lindgren and Paul Wolf of the Los Angeles Athletic Club. Lindgren has been swimming for quite some time but it is only recently that he has come sensationally to the top as a sprint swimmer. Against Japan he swam 200 meters in 2:13.2 over a 50-meter course, which should do any relay team proud. He is now at New Haven training at Yale University with Bob Kipphut, head Olympic swimming coach.

Wolf is just 20 years old and, having been in national competition only two years, he has made great progress. He consistently swims 2:14 for the 200 meters and :39 for the century. With the inspiration of the tryouts and the games

## HATZFELD AND ST. LOUIS WIN OPENING LEGION LEAGUE GAMES

Aubuchon-Dennison Post's team, defending champion in the American Legion Junior Baseball League, rallied for two runs in the last inning, but it wasn't enough to overcome the early lead of the Hatzfeld Post squad, and the champions lost their opening game, 6-5, yesterday afternoon in Forest Park.

The other game, St. Louis Post out-slugged the Navy Post and won, 12-8.

Eckmayer hurried for Hatzfeld and while he was hit freely by Aubuchon batters, he was able to hold them to five runs, while his teammates got to Nepper for five runs in the first four innings and added the winning run in the sixth.

Aubuchon made 15 hits to Hatzfeld's 12.

Justed and Bowers of Aubuchon hit home runs.

The St. Louis Post nine made all its runs and 16 of its hits off Hurst, but the bright spot in the game to the Navy team was the relief pitching of Elcheberger, who held the St. Louis sluggers to one hit and no runs in 2-1/3 innings.

Meredith hit a home run for St. Louis.

Errors—Cline, Benish, Bender, West; Stebe, Dietz; Larkin. Three-base hits—Thomas, Trojowski. 2 home runs—Meredith, Taki.

Sacrifice hits—Larkin, Thomas. Sacrifice flies—McKenna, Stolen bases—Eckmayer, Stolen bases—Bishop, Butcher. Double plays—Hatch to Bishop, Butcher to Kiefer to Bowers. Bases on balls—Off Nepper 5, off Eckmayer 4. Struck out—By Nepper 7, by Haley 2, by Eckmayer 9.

Pitching record—Off Nepper 13 hits 6 runs in 8 innings; Off Haley 1 hit no runs in 2-1/3 innings; Off Elcheberger 1 hit no runs in 2-1/3 innings. Left on bases—Hatzfeld 10, Aubuchon 11. Time—2:20. Umpire—Tobin.

he ought to knock a little off of each of his times, which would make him a dangerous contender in any man's contest.

Certainly with such a wealth of young ambitious talent the United States is going to put up a great fight to regain the championship it lost at Los Angeles in 1932 to Japan.

## PARKER MEETS SOUTHERNER IN CLAY COURTS TENNIS MATCH

By the Associated Press.

CHICAGO, June 19.—Four seeded stars, including the singles favorite, Frankie Parker of Milwaukee, fight it out today in two quarter-finals matches expected to produce the fastest tennis since the start of the national clay courts championships at River Forest Tennis Club six days ago.

Parker, runner-up last year and the nation's seventh ranking player, opposes Billy Reese of Atlanta, Ga., while Robert Riggs of Los Angeles meets Charles Harris of West Palm Beach, Fla. Parker is seeded at the top, while Riggs is sixth, Harris third and Reese fifth on the select list.

Parker and Harris did not see action yesterday in singles competition. Riggs, however, eliminated Bernard Welsh of Washington, 5-7, 6-3, 6-1, 8-6, while Reese beat Charles Carr, University of Southern California star, 11-9, 6-0, 4-6, 10-8.

Vernon John, University of Southern California, and John McDiarmid of the University of Chicago, seeded twelfth and fourth, respectively, became the first players to reach the semifinals. John defeated Wilbur (Junior) Coen, Kansas City star, 6-1, 3-6, 6-3, 11-9, in a bitterly fourth match, while McDiarmid beat Wayne Sabin of Hollywood, seeded seventh, 6-4, 6-3, 4-6, 3-6, 6-4.

Parker also looms large in the doubles picture. He and the veteran J. Gilbert Hall of West Orange, N. J., teamed to trim Bill Seward and Ben Dey, Stanford University, 7-9, 8-6, 3-6, 6-2, 6-2, turning on the pressure in a fine winning rally. Dick Bennett and Paul Newton, national collegiate doubles titleholders, beat Gene Smith and Richard Braly, Stanford University, 6-2, 6-4, 6-2.

**To Swim in Tryouts.**

SPRINGFIELD, Mo., June 19.—Ellen Gale Hopkins, 18-year-old Springfield swimmer, who holds several Missouri Valley AAU records, will depart Sunday for New York City to compete in the final Olympic Games tryouts June 24-25. Her trip is to be sponsored by the Junior Chamber of Commerce here. Miss Hopkins will enter only the 100 meters event.

## ST. LOUIS BOYS IN THE MINORS

Otto Engelskind, former Beaumont High School, a pitcher, who was released by Fayetteville of the Arkansas-Missouri League, has signed with Casville of the same circuit.

Richard (Rick) Tichacek, a catcher, with Union City of the Kitty League, who also formerly played for Beaumont High, is on the voluntarily retired list.

When New Philadelphia, O., of the Ohio State League, surrendered its franchise and players to the league recently, it included John Guhman, an infielder, also a Beaumont High boy.

Elmer Kirchhoff of East St. Louis, and basketball coach at the Missouri School of Mines, at Rolla, is playing second base for Palestine of the East Texas League, and is batting .325.

Charles Hynek, an infielder, with Lafayette of the Evangeline League, has been released.

Thomas J. Franey, a Cleveland High School boy who has been playing in the infield for Greenville of the Cotton States League, was returned to Memphis of the Southern Association, and was later put on the suspended list. He is now playing second base for Jackson of the Kitty League.

Herb Fash of East St. Louis, and former St. Louis U. athlete, who has been playing first base for Union City of the Kitty League, in the absence of the injured manager-first sacker, Heinie Mueller, will go back to third base for that club, with Mueller returning to the lineup.

Earl Smalling, righthand pitcher of East St. Louis, has been optioned to Fayetteville of the Arkansas-Missouri League, by Springfield of Western Association.

John Kyler, the crooning outfielder, who frequently sang at the home plate when he was with Springfield last season, but who is now with Bartlesville of the Western Association, made his singing debut in the Bartlesville park last week.

Joe Schultz Jr., a catcher, former St. Louis U. High athlete, and son of Joe Schultz, Cardinals scout, has joined Albany of the Georgia-Florida League, and is playing left field. The 17-year-old recruit had been doing his share of hitting, but on June 13, in a game at Americus, Joseph Jr. went to bat five times and five times failed to get a hit, with Joseph Sr. in the stands.

Ball players are superstitious; any many of them have various ways of thinking this or that brings them good luck on the field, but to Justin Stein, playing second base for Houston of the Texas League, goes the woven glass ball for his lucky omen. "I never fail," says Stein, "to pick up a hairpin on the ground, give it three twirls and then throw it over my right shoulder." The Buffs were playing in Beaumont last week and Stein found a hairpin, and then made three hits that day.

Columbus in the American Association defeated Kansas City Monday, 8 to 3, the Blues getting five hits, and Herman "Ham" Schulz playing second for the Blues, and five of them in five times at bat.

Jackson, Tenn., of the Kitty League, defeated Portageville, 4 to 1, last Saturday night, and Bill LaPosha, playing first base for the losers, hit a home run and saved his team from a shutout. LaPosha is batting .316.

Bill Thomas, pitching for New Orleans, in the Southern Association, allowed Knoxville six hits in the first game of a double bill last Sunday, to win, 11 to 3.

Scoring 10 runs in the last two innings last Friday night, Little Rock ended an eight-game losing streak by beating Chattanooga, 11 to 9, and Leo Nollenkamp, in center field for Little Rock, got four hits for five, and stole a base.

**KANSAS CITY MIDGET AUTO RACE DRIVERS ENTER TITLE EVENT**

Tullio Gullatto and Carl Bedam, two Kansas City drivers, have filed entries with Earl Relfow for the Missouri State midget auto racing championship, to be held next Tuesday night at Edward Walsh Memorial Stadium.

Nine drivers have now filed entries for the title races. In addition to the two Kansas City drivers and Ed Walnwright, another Maplewood pilot, Tom Rose, one from the East Side, Pete Alberts, and four from St. Louis, Mac McCoy, Ed Walsh, Buddy Doerr and Ray Sherman, are entered.

The races are open to all drivers from Missouri or from St. Clair County in Illinois. Relfow expects an entry list of about 20.

HERE'S WHY MILLIONS SAY..

"KING TASTES BETTER"

BECAUSE IT'S TOP-SCORE WHISKY!

MILLIONS are learning a top-score whisky's bound to be tops in taste. For it's made with all these points that mean real richness and smoothness. So—when King costs so little—why don't you try it too?

Dewey's Ale has now won the American continent. You can buy it practically anywhere from the Arctic Circle to the Gulf of Mexico. And every one so much the favorite that you can't get it anywhere else.

A new generation is evident. Very strongly toward the Dewey's Ale. Probably because of its strong, heavy body but mel-

down payment on any one of many fine R&G used cars. Convenient UCC terms fit the balance easily into your budget. In short, if you go to a Ford Dealer for your used car, you may go just as confidently as you would for a new car. Why not see your Ford Dealer today.

## MRS. HILL WILL NOT DEFEND T-M HONORS

By the Associated Press.  
KANSAS CITY, June 19. — Mrs. O. S. Hill, who last week won the women's Western Open golf championship at Topeka, Kan., in a surprise announcement said last night she will not compete in the women's trans-Mississippi at Denver next week.

Mrs. Hill had intended to compete at Denver, where she would have been one of the favorites to win. But yesterday she aligned herself with an insurance (Business Men's Assurance) company and said business would prevent her trying for the trans-Miss. crown.

## JACK KOCSIS FAVORITE IN U. S. COLLEGE GOLF TOURNEY

By the Associated Press.  
CHICAGO, June 19. — College golf stars to the number of 118, representing 33 universities and colleges, were entered in the National Intercollegiate championship tournament opening Monday over the course of the North Shore Golf Club, scene of Johnny Goodman's triumph in the National Open of 1933.

The field is rated as one of the strongest in the history of the tournament, including as it does a number of the nation's outstanding amateurs. With the graduation of Ed White of Texas, last year's individual champion, the scramble for the title promises to be a wide open affair.

Heading the list seeking the vacated championship is Chuck Kocsis, amateur of the University of Michigan, low amateur in the National Open and twice winner of the "Big Ten" championship. He will lead a strong Wolverine contingent in quest of its third team championship.

The East will send a strong delegation in both the individual and team titles. Yale has entered nine players and Harvard and Princeton six each. The Tigers are led by Jack Malloy, quarterfinalist last year. One of the East's strongest hopes for the individual title is William Turnesa of Holy Cross, a member of the famous Turnesa golfing family.

Louisiana State's five-man team, led by Freddy Haas, 1935 finalist, and Paul Leslie, Southern intercollegiate champion, will make a strong bid to keep the championship in the Southland. The team from Dixie revealed its strength by administering the only defeat suffered by Michigan during the current season.

Stanford will send a team of eight to the tournament. The Pacific Coast players will be led by Don Edwards and Morse Erskine, both of whom participated last year. Another strong Western entry is Arthur Doering of Colorado College rated an outstanding player.

## Three Golfers Tie for Low Net In District Meet

Two Rolla (Mo.) golfers and Scott Gardner, Triple A, tied for the low net honors in the regular monthly handicap tournament of the St. Louis District Golf Association yesterday held at Normandie. Junior Brown and Charles P. Clayton were the Rolla players. Brown and Gardner also tied for the low gross prize, each making the 18 holes in 75 strokes.

Ten play, best-ball honors went also to a Rolla team of Clayton, Paul Goin, John Wilson, and Dr. S. L. Baysinger, who, playing with Ben Richter, professional, had a best-ball score of 54.

Gardner paired with Vernon Tietjen for the two-man team honor, the pair scoring 141. Harold Grant and Nean White, both of Rolla, had 142 for second place.

## CHAMPION REACHES TENNIS SEMIFINALS

By the Associated Press.  
HAVERFORD, Pa., June 19. — Miss Helen Pederson of Stamford, Conn., the defending titleholder, reached the semifinals of the women's Pennsylvania and Eastern States single tennis championship tournament yesterday, beating Miss Elizabeth Blackman of Detroit, 9-7, 6-4.

Miss Blackman, regarded as the tourney's "dark horse," extended the champion, but Miss Pederson's greater experience was the deciding factor.

Dorothy Workman of Los Angeles, defeated Anne Townsend of Philadelphia, 6-3, 6-3, and Mrs. J. B. Jessup of Wilmington, beat Cecilia Riegel of Germantown, 6-3, 6-3, to enter the semifinals.

Eunice Dean of San Antonio, Tex., also advanced by defeating Allison Harrison of Philadelphia, 4-6, 6-3, 6-4.

The semifinals call for Miss Workman vs. Miss Pederson and Mrs. Jessup vs. Miss Dean.

## TWO GYMNASTS MAKE OLYMPIC TEAM IN TEST

By the Associated Press.  
NEW YORK, June 19. — Two National A. A. U. gymnastic champions were decided at the Twenty-third street Y. M. C. A. as the final Olympic tryouts began last night. Harrison Houston, 21-year-old Philadelphian, competing for Princeton University won the 25-foot rope climbing title in 0:6.1 and Joseph Goldenberg, German-American Turn Verein, totaled 57.9 points to win the flying rings championship.

Houston eked out his title by getting to the top of the rope one-tenth of a second faster than Roman Pico, Bristol (Pa.) High School student, the defending champion. Goldenberg's victory in the rings came as an upset over George Guclak, Twenty-third street Y. M. C. A., the defending titleholder. Guclak in his first attempt totaled 28.8 points and Goldenberg performing later was two-tenths of a point better. Guclak went on the rings for the second time but failed miserably, scoring 14.5 points.

A Young Champion.  
Goldberg passed his second attempt. In the final try Guclak equaled his first total, but it was not good enough for Goldenberg's final brought him 28.9 points to give him three-tenths of a point advantage for the title. Goldenberg, 19, is the youngest champion in the past decade.

Fred H. Meyer of the New York Turnverein, the National A. A. U. all-around champion, got off to a good start toward defending his title when he totaled 55.7 points to win the free calisthenics event. This was not a championship event.

petition, but is required for the all-around A. A. U. championship. Just two-tenths of a point behind Meyer was Frank Cumiskey of the Swiss Turnverein of Hudson County, and Frank Haubold of the same organization was third with 55.4 points. The three leaders were members of the 1932 Olympic squad.

Chester Phillips, Temple University star, fared exceptionally well in free calisthenics taking fourth place with 55 points. George W. Mattison, University of Minnesota, and Big Ten conference all-around champion, hitch-hiked from Minneapolis to compete for the national championship. Mattison, however, was outclassed scoring 46.6 points for fifteenth place in the free calisthenics.

## POCKET-BILLIARDISTS TO PLAY IN TOURNEY

An amateur handicap pocket billiard tournament is scheduled to get under way about July 1 at Charles C. Peterson's Cue Academy, according to announcement made by John Anthony Dal-Sasso. All pocket billiard players will be eligible to compete in the event that will be contested each evening. There will be a small entrance fee, which will be converted back to prizes for the winners.

Louis A. Hacker, N. E. Hill, Mike Patterson, K. L. Chora and "Sailor" Grove are few of the outstanding players who are likely to seek the handicap title. Entries are likewise being accepted by Dal-Sasso for the annual red-ball, handicap three-cushion and cushion-carom tournaments. Information may be had by calling Dal-Sasso at Garfield 9603.

## Trolley League Schedule.

A doubleheader will be played at Athletic Park, Belleville, Ill., in the Missouri-Illinois Trolley League, Bob Fisher, president of the league, announced last night, saying that the Alpen Brau-Hufschmidt game, originally scheduled for Granite City, had been changed to Athletic Park. The Belleville Stags oppose the J. S. & C. club of Vandalia in the second game. The Edgemont A. C. plays the Carlysle Boosters in the other game at State Street Park in East St. Louis.

## Six Events Remain.

Six events were left on the program for tomorrow afternoon and evening. The Olympic Committee headed by Roy E. Moore will select an eight-man team at the conclusion of the national championships which are combined with the Olympic final tryouts.

## WABASH RAILWAY

## PRICE DISCRIMINATION BILL TO WHITE HOUSE

Congress Completes Action  
on Measure Barring Unfair  
Trade Discounts.

WASHINGTON, June 19.—Legislation intended to protect the independent merchant against price advantages allowed large competitors was passed last night by Congress and sent to President Roosevelt.

The Senate agreed to a conference report, already approved by the House, on the Robinson-Patman bill.

Primarily, the bill is designed to prevent unfair price discriminations through the use of fake discounts and rebates for services not actually performed. It would permit the Federal Trade Commission to fix the point beyond which discounts for quantity purchases could not go. The Commission would be instructed to prevent discounts for purchases so large that competitors would be unable to match them, thus creating monopoly.

The bill was based on measures introduced early in the session by Senator Robinson (Dem., Arkansas), and Representative Patman (Dem., Texas). To it, however, was attached the Borah-Van Nuys bill, embodying some of the anti-monopoly theories which Senator Borah (Rep., Idaho), advanced to the Republican platform committee in Cleveland.

The Borah-Van Nuys amendment would not rely alone on the Federal Trade Commission, but would permit prosecution of violators in the Federal courts, with penalties of a \$5000 fine or one year in jail.

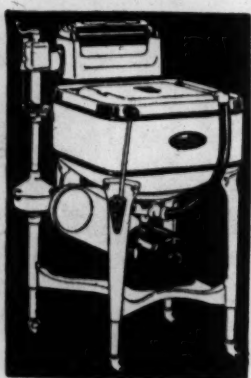

A business man, feeling he had been the victim of unfair price discrimination, would be able to take his case into Federal Court in his own state instead of coming to Washington and working through the Federal Trade Commission.

Exemptions from the operation of the law would be granted in the handling of perishable foods and in other emergencies. A Senate amendment, excluding manufacturers in the purchase of materials, was rejected by the conferees.

Legitimate discounts for quantity purchases would be permitted by the bill up to the point fixed by the Federal Trade Commission. They could only include, however, actual savings realized in the handling of the large orders.

New Zealand Statesman Dies.  
WELLINGTON, New Zealand, June 19.—Sir William Hall-Jones, Prime Minister of New Zealand in 1906, died today. He was 85 years old.

## REMEMBER WIFE AND MOTHER WITH SOME OF THAT SOLDIER'S BONUS

Mothers, wives and sweethearts help fight every war. So don't forget them when the Bonus Check comes. Spend some of that Bonus Money for a Maytag washer and years from now you will still be getting joy and service from it. No other washer provides such convenience, such washing ability—and Maytag quality means more years of low cost washings.

Try a Maytag in your home free. Find out why it is the preferred washer. Very easy payment terms, if desired.

## NEW PASTOR

THE REV. KARL KURTH

## GRACE LUTHERAN TO INSTALL THE REV. KARL KURTH SUNDAY

Ceremony to Be Performed by the  
Rev. Alfred Doerflinger at  
10:30 A. M.

The Rev. Karl Kurth, formerly pastor of Bethlehem Lutheran Church, Evanston, Ill., will be installed as pastor of Grace Lutheran Church, St. Louis and Garrison avenues, at a service there Sunday morning at 10:30 o'clock. He succeeds the late Rev. W. D. Peters.

The installation will be performed by the Rev. Alfred Doerflinger, pastor of Pilgrim Lutheran Church, assisted by other members of the St. Louis Lutheran clergy. The sermon will be preached by Prof. E. J. Friedrich of Concordia Seminary.

The Rev. Mr. Kurth was graduated from Concordia Seminary in 1912 and held several pastorates in Nebraska and in Joliet, Ill., before going to Evanston in 1932. For the past four years he has been chairman of the Church Extension and Home Mission Board of the Northern Illinois District of the Missouri Synod of the Lutheran Church.

Special music at the service will be sung by the Grace Church Choir under the direction of William B. Heyne.

## ST. LOUIS COUNTY TAX RATE TO REMAIN AT \$1.17 FOR 1936

Two Bond Issue Items Decreased  
One Cent Each; Another  
Up Two Cents.

The 1936 tax rate for St. Louis County will be \$1.17 on the \$100 of assessed valuation, the same as last year. It was announced yesterday by County Clerk Walter Miller.

Items are as follows: State tax, 15 cents; county general revenue, 35 cents; road tax, 25 cents; 1916 road bond issue interest and sinking fund, 4 cents; a decrease of 1 cent under last year; hospital bond issue interest and sinking fund, 3 cents; a decrease of 1 cent, and 1928 road bond issue interest and sinking fund, 35 cents, an increase of 2 cents.

School rates in the principal districts will be as follows: University City, \$1.65; Clayton, \$1.40; Maplewood, \$2.10; Webster Groves, \$2.44; Kirkwood, \$2.16; Wellston, \$1.50; Normandy, \$1.85; Ritenour, \$1.85.

## MADISON COUNTY ELECTION SUIT LOST, 68 VOTES VOIDED

Dr. L. D. Darnier Contested Nomination of F. J. Lahey for Coroner; Majority Cut to 29.

A suit filed by Dr. L. D. Darnier of Granite City contesting the nomination of Francis J. Lahey of Madison as Republican candidate for Coroner of Madison County was decided in favor of Lahey today by County Judge Wilbur Trares at Edwardsville. However, 63 votes cast for Lahey were thrown out as fraudulent or indicating the possibility of fraud, reducing Lahey's majority to 29 votes.

Two ballots cast for Dr. Darnier were also found to be fraudulent and three more were thrown out by agreement of attorneys Ralph C. Becker, St. Louis handwriting expert, chief witness for Dr. Darnier, had testified several hundred ballots appeared to be fraudulent. Judge Trares took the case under advisement two weeks ago.

## ILLINOIS MILLERS TO MEET

Golf Tournament, Bride Party on Program for Sparta Gathering.

Sparta, Ill., June 19.—The fifty-first annual meeting of the members and their families of the Southern Illinois Millers' Association will be held at the Sparta Country Club Tuesday, June 23.

The morning session will be devoted to the regular program, while the afternoon will be given over to discussions of tax problems. During the afternoon those not taking part in the millers' meeting will be given opportunity to enter a golf tournament under direction of Earl Gardner of Sparta. A bridge party will be handled by Mrs. J. L. Craig. Among those who are expected to be present are: Jess Smith, president; Norman Steen, secretary of the Millers' National Federation; Prof. J. C. Hackelman and Dr. Sybil Woodruff of the University of Illinois.

Railroad Superintendents' Election.  
By the Associated Press.  
CHICAGO, June 19.—J. J. Brinkworth of Buffalo, N. Y., was elected president of the American Association of Railroad Superintendents yesterday. He is assistant superintendent of the New York Central Railroad. C. J. Brown of Kansas City, general manager of the Rock Island, was named first vice-president. F. O. Whiteman, St. Louis, was re-elected secretary and treasurer.

## MOTHER GETS DEATH FOR MURDER OF BABY

Convicted of Helping Admirer  
Kill Son, 3, With Rail-  
road Spike.

By the Associated Press.

HOLLIDAYSBURG, Pa., June 19.—A jury convicted Mrs. Margaret Karmendl last night of the murder of her three-year-old son and fixed the penalty at death in the electric chair.

The 24-year-old mother walked from the courtroom without showing any emotion.

The State charged Mrs. Karmendl with killing the child, Matthew (Sonny) Karmendl Jr., with a railroad spike. Roy Lockard, 24, her degree was earlier convicted of first degree murder in connection with the crime, the jury recommending the death penalty for Lockard.

Lockard testified for Mrs. Karmendl as a surprise witness, assuming full blame. He told the jury his statement to police after his arrest admitting both he and Mrs. Karmendl hit the baby with a rail-

road spike was only "half true." The Commonwealth asked for the death penalty for Mrs. Karmendl, saying she said Lockard plotted to do away with the baby because he interfered with their meetings while his father worked.

## MINIMUM WAGE SCALE ON FORD'S ENGLISH FARMS

Highest Wage Paid by Co-Operative  
American Financed, \$32.50  
a Week Last Year.

By the Associated Press.

BOREHAM, England, June 19.—As high as \$5 a day is earned by farm workers operating a co-operative agricultural experiment here on about 2000 acres of Essex land.

The experiment, called "Fordson Co-Operators," was started two years ago by farmers including Henry Ford and Percival Perry, chairman of Ford's British company, to show that there is opportunity on the land both for more men and higher incomes.

Workers are formed into three co-operative societies, each conducting a farm. Seventy-three permanently employed men rent and work the land through the societies.

Two societies, working 1239 acres, Sir Percival said, made a profit of more than \$14,000 last year, the average income of many of the men being above \$1000, or about \$20 a week. The highest wage

averaged \$32.50 a week. These figures compare with the legal minimum wage in the district of \$7.75 a week.

The third farm, however, operated at a loss, thought due to severe spring frost, but the men nevertheless received the society's standard rate, 25 per cent above the district minimum.

## WPA LAUNCHES THIRD DRIVE ON WILD CURRANT BUSH

6000 Men Engaged; Plants Are  
Hosts for Spores of Blister

SPOKANE, Wash., June 19.—Sixty-eight hundred WPA workers recruited by the National Emergency Council are starting a third summer's campaign to destroy every wild currant bush in the pine forests of Washington, Idaho and Montana.

Every square foot of ground must be inspected and the shrubs grubbed out and burned, because wild currants are the "hosts" for the spores of blister rust, a disease

which threatened to destroy the last great stands of virgin pine forests when the Government started its control work in 1933.

The Department of Agriculture is directing the work through S. N. Wycoff, senior pathologist here. It put 1000 men to work before June 1 and hopes to have its complete army in the field by the first of July. The season will end Oct. 1. Blister rust was discovered in 1923 in pine forests near Vancouver, B. C., but has made its greatest inroads farther inland.

The "soldiers" in the blister rust war are 18 to 35 years old and are recruited from WPA rolls and paid a starting wage of \$44 a month for unskilled labor. They work mostly in groups of three and are housed in portable camps of 33 men each.

While much of the eradication work is done by hand, the blister rust army has developed a tractor pushed "bulldozer" for uprooting extensive tracts of currant bushes.

Show Company Denied Injunction.

By the Associated Press.

SPRINGFIELD, Ill., June 19. —

United States District Judge J. Earl

Major today refused to grant an

injunction sought by the S. P. Mil-

ler Derby Show to restrain Rock

Island County officials from inter-

fering with the operation of the

show. The restraining order was

sought after officials charged the

show was operating without a li-

cense and arrested 34 persons.

## MOTHER, TWO CHILDREN STRANGLER TO DEATH

Hammer and Ice Pick Also  
Used in Killings in Pitts-  
burgh Home.

By the Associated Press.

PITTSBURGH, Pa., June 19.—Coroner's physicians reported today an autopsy showed strangulation caused the death of Mrs. Eleanor Feely, 30-year-old wife of a University of Pittsburgh instructor, and their two children, Bobby, 5, and Janice, 3.

The announcement was made by Dr. T. R. Heindel shortly after the discovery of the discovery of a man's thumbprint on a hammer found near the bodies last night. The autopsy showed an ice pick nearly penetrated Mrs. Feely's heart and that the boy had been hit on the head with a hammer before being strangled.

Chief Bertillon Operator L. P. Dumont said the discovery of the thumbprint strengthened the theory the three had been murdered, but other investigators held to the theory that Mrs. Feely killed the children and then herself.

Mrs. Feely was the wife of Martin J. Feely, an assistant professor of physical education. He hurried home from Pottersville, N. J., where he attended a boy's summer camp.

**Position of Bodies.**  
The boy had just recovered from scarlet fever. His body lay on his back. He was wearing his overalls. The girl's body was in her crib. Police said a bathrobe cord was twisted around the boy's neck, and a rope around the girl's neck.

Mrs. Feely was clad in a black slip, black shoes and pink undergarment. She wore no stockings. Her body lay face down, on the floor, a rope of hemp looped around her neck. Under her throat was a claw hammer, its handle thrust through the rope. It had been turned until the rope was twisted tight.

Police Lieut. George Schmotzer said he thought Mrs. Feely killed the children and then herself, but Deputy John Artz, the coroner's office asserted: "I don't care what the police say. Some fiend—some ghoul—murdered them."

**Window Screen Open.**  
Charles F. Young, owner of the home and occupant of the second floor, discovered the bodies. His wife said she last had seen Mrs. Feely about 1 a. m. Thursday. Young called police, who got into the apartment by cutting a hole in a screen. They later found one window screen was open.

Inquiring for a possible motive for suicide, police questioned Mrs. Grace Stansbury, who nursed the boy for three weeks while he was ill. They quoted her as saying Mrs. Feely had appeared nervous, but had given no indication she intended to end her life.

Mrs. Stansbury told police there might have been some financial troubles in the family. She said Mrs. Feely gave her \$21 in cash and a \$42 check at the time she left. There was not sufficient money in the bank and she telephoned Mrs. Feely. She said Mrs. Feely expressed surprise and told her the university was to have deposited \$200 to her husband's account. She added later the university said there had been a "delay."

**PASTOR SHOT AT COLUMBIA**  
Mistaken for Fowler as He Crosses Neighbor's Yard.

COLUMBIA, Mo., June 19.—J. E. Cropp, 51 years old, Christian Church minister, former school teacher here, and once candidate for Boone County Superintendent of Schools, was shot and seriously wounded by Raymond Pace, 22-year-old grocery clerk, here early this morning. Cropp was wounded in the shoulder with a shotgun. According to Pace, he shot Cropp through a window in his house as Cropp crossed his backyard, supposing Cropp was a prowler. Cropp had gone across Pace's yard to the home of a neighbor to call police to disperse boys who were making a disturbance in the neighborhood. He was returning home when shot.

**Woman Found Shot to Death.**  
Ruth Brown, 25-year-old Negro, 1712 Wash. street, was shot and killed this morning in a hallway at 1605 Delmar boulevard. Her body, with three bullet wounds, was found by police responding to a report of a shooting in the neighborhood. Search is being made for a Negro man with whom she had left her nearby place of employment.

## GREAT BRITAIN SETS RECORD IN EXPORTS OF AIRPLANES

Total Last Year \$13,500,000, an Increase of \$4,000,000 Over That of 1934.

LONDON, June 19.—Britain's airplane industries, at present working day and night under the rearmament plan, had a record year in 1935 with exports valued at \$12,721,441 (about \$13,500,000).

This surpassed the previous record year, 1929, by \$562,774 (about \$2,800,000), a Government report by the Department of Civil Aviation discloses it exceeded the total in 1934 by \$800,389 (about \$4,000,000). Exports by the United States, by comparison, reach \$2,911,568 (about \$4,500,000), exceeding those of the United Kingdom by \$190,125 (about \$850,000), the report notes. Aircraft exports of the United States, the report says, declined in 1935 by \$674,483, while those of Great Britain increased by \$800,339.

Great Britain's exports to European countries totaled \$1,137,036, an increase of \$204,403 over those of the year 1934. Sales to the Near East totaled \$357,017, to British overseas possessions \$1,001,661, and to the United States, Central and South America \$161,308, in each case a considerable increase as compared with exports in previous years.

Since 1924, when export figures on aviation first became available, Great Britain has exported 3415 complete aircraft valued at \$7,091,069, a total of 6204 engines valued at \$5,589,631 and spare parts valued at \$7,114,581.

## ROOSEVELT AND LANDON BOTH PRAISED IN HOUSE

Democrats and Republicans Predict Victory for Respective Candidates.

WASHINGTON, June 19.—Both President Roosevelt and Gov. Landon were characterized by their partisans in the House today as "the next President of the United States." Representative Fitzpatrick (Dem., New York), started it all by announcing that "for the best interests of the country, President Roosevelt should be kept in the White House and he will be the next President of the United States." The Democrats applauded.

Representative Guyer (Rep., Kansas, arose and, naming Landon as the next President, described the Kansas Governor as "an extraordinary man. His rise to the presidential nomination of the Republican party has never been equaled in the political history of the United States." The Republicans applauded.

## SALE OF FARM PRODUCTS UP 200 MILLION OVER LAST YEAR

Figure of \$1,899,000,000 for 1936 Up to May 1; AAA Benefit Payments Excluded.

WASHINGTON, June 19.—An increase of more than \$200,000,000 in receipts from the sale of principal farm products during the first four months of this year over the same period of 1935 was reported today by the Bureau of Agricultural Economics.

Receipts to May 1 totaled \$1,899,532,000, compared with \$1,698,144,000 for the same period last year, \$1,451,885,000 in 1934 and \$1,085,981,000 in 1933.

These totals do not include AAA benefit payments, which totaled \$53,751,000 in the first four months of this year, compared to \$220,837,000 for the same period last year and \$104,011,000 in 1934.

## CZECH INDEPENDENCE LEADER KILLS SELF IN SANITARIUM

Franz Stanek Famous for Speech in Austro-Hungarian Reichsrat in 1913.

PRAHA, Czechoslovakia, June 19.—Franz Stanek, 68 years old, former President of the Chamber of Deputies and former member of the Czech Cabinet, committed suicide today in a sanatorium. He shot himself with a revolver, apparently while depressed by an incurable illness.

Only a few days ago Stanek welcomed Dr. Eduard Benes, President of Czechoslovakia, when Benes visited Moravia. His condition grew rapidly worse when he returned to Praha.

Stanek headed the Czech party in the old Austro-Hungarian Reichsrat and on Oct. 4, 1918, created an international sensation by demanding independence for the Czechs and Slovaks. His speech caused such a stir that the United States, Italy and France recognized the provisional Czech Government, then operating outside the country.

**Reports Bomb Tied to Tavern Door.**  
George Blazier, bartender in a tavern at 1406 State street, East St. Louis, reported to East St. Louis police today that a bomb was tied to a door of the establishment last night, but failed to explode. Investigating, the police found a box-like object with a fuse, but did not determine the nature of the explosive.

## HYPODERMIC NEEDLE USED BY MAN ATTACKING CHILDREN

Six Youngsters Jabbed in Montreal, Canada, in Last 10 Days.

MONTREAL, Canada, June 19.—A man who has attacked six children with a hypodermic needle within the last 10 days was sought by police here today.

The latest victim was Armand Sarrazin, 10 years old, of St. Henri orphanage, who told officers he had been jabbed in the leg by the man as he left the institution yesterday.

Police said they thought nothing harmful had been injected, but physicians were making blood tests. One of the other child victims described his attacker as "a big skinny man."

**Party Fund Plea to U. S. Employees**  
By the Associated Press.  
SPRINGFIELD, Mass., June 19.—Delegates to the Massachusetts Republican state convention unanimously adopted a resolution today condemning the solicitation of Democratic national campaign funds from Federal employees as a "political graft" and "gutter tactics." Tickets, bearing Farley's stamped signature, to be sold at \$1 each, to raise campaign funds, were distributed this week to Federal employees in Boston and other Massachusetts cities.

## BABY CHOKES ON MARBLE

Swung by Heels, Obstruction Drops Out of Throat.

Charmers Smith Jr., one year old, was taken to City Hospital yesterday by his aunt, Miss Mary Smith, 5065 Emerson avenue, who told doctors she thought the child had swallowed something that caused it to choke.

A physician swung the baby by the heels. A marble which apparently had been lodged in its throat fell to the floor and after a time Miss Smith was able to return the child to his parents, who live at 6308 South Broadway.

**Bill to Restore Historic Ships.**  
By the Associated Press.

WASHINGTON, June 19.—Five vessels famous in American naval history would be restored to their original condition and berthed in the Potomac here under a bill introduced yesterday by Representative John J. Cochran, St. Louis Democrat. Cochran's bill would have the vessels maintained as a

## FIVE-STATE BLOCKADE BY POLICE PROPOSED

Texas Suggests Virtual Elimination of State Lines in Hunt for Criminals.

By the Associated Press.  
AUSTIN, Tex., June 18.—A five state blockade has been proposed by the Texas State Police to catch fleeing fugitives of the Southwest. New Mexico, Oklahoma, Louisiana, Arkansas and Texas would be asked to join in the plan, said L. G. Phares, chief of the Texas Highway Patrol.

If the blockade is arranged, local officers, State police and motorized Texas rangers can be placed along any border section within a few minutes.

A system of pre-arranged positions for various police units of the State will be worked out. An emergency signal will send officers to assigned posts, there to await further instructions.

Rapid transmission of code messages by radio, telephone and telegraph will facilitate the movement of officers over the territory. Motorcycles and fast automobiles will be used to police the danger zones.

State officials said a legislative program was being worked out to remove legal barriers in the event a fugitive should escape across a state line. Identical legislation on extradition would virtually abolish state lines in the capture of criminals, they said.

The plan is similar to one suggested last winter at a five-state crime conference in Tulsa, Ok. It was suggested because of the difficulties encountered in the hunt for the late Clyde Barrow and Bonnie Parker.

### ACQUITTED OF OBTAINING RELIEF BY FALSE PRETENSE

East St. Louis Man Freed at Belleville Trial; Charges Against Wife and Son Dropped.

Seth Powell, 518 North Forty-third street, East St. Louis, was acquitted yesterday of obtaining relief by false pretenses, by a jury in County Judge Joseph E. Fleming's court at Belleville. The State then dismissed a similar charge against his wife, Bertha, and their son and daughter-in-law, Mr. and Mrs. Marion Powell, 906 Rock road, East St. Louis.

State witnesses testified the elder Powell obtained \$96 in relief from March to July, 1934, during which he also received \$179 on surrender of an insurance policy. Powell testified he used the insurance money to pay for taxes and repairs on his home and for other debts, and that his only other income was about \$40 from odd jobs. He said he had told relief officers about that money, and they told him he could earn up to \$16 a month and obtain relief funds.

## GEN. RIVERS AGAINST HOLDING PHILIPPINES

Says Independence Program Should Go Through to Avoid War.

By the Associated Press.

WASHINGTON, June 19.—Belief that the holding of the Philippines as a dependency would involve the United States in war was expressed by Major-General William C. Rivers, retired, in a statement printed in the Congressional Record.

The statement was published at the request of Representative Karl Stefan, (Rep., Nebraska, who criticized the "useless expenditure of American taxpayers money in the maintenance of an idle army" in the islands. Stating that there has never been a war between two major nations as far apart as the United States and Japan, Gen. Rivers said:

"Holding the Philippines as a dependency would involve us in such a war—some future revolt in the Philippines against us as alien rulers, or a war with Japan. In either case, the Philippines would be crushed.

"Though we won a war, with Japan at such unprecedented if not impossible distances the conflict would but aid Russia to Communize China. A war between ourselves and Japan to aid the Philippines or to aid China would harm both those countries."

Gen. Rivers suggested settling American differences with Japan on an alternative to a naval race and to the present Philippine program of conscription for defense. The latter, he said, "may wreck" insular finances.

"We should recognize Japan's position in Manchoukuo and China," he said. "We assert a desire to aid the Philippines and China. This can be done only by peace in the Orient through the employment of constructive statesmanship and the frank recognition of existing conditions."

"What some of the Filipinos desire is, I assume, continuance of autonomy in all matters of local government, continuance of free trade with the United States, and of the single-handed responsibility of our country for defense."

For such defense, Gen. Rivers added, the United States would have to have a fleet three times that of "any Western Pacific power."

He said a dominion status for the Philippines in place of the independence scheduled for 10 years hence was impracticable because of the difference in race.

Representative Stefan said that "there is a growing movement in Manila and also in this country for the revocation of the Independence Act."

**'COUNT' HENRY HOFFMANN LEFT ESTATE OF \$20,500**

Manager of Mayfair Hofbrau Bequeathed Entire Property to His Widow.

An inventory of the estate of Henry Hoffmann, manager of the Mayfair Hofbrau, filed yesterday, showed a total personal property valuation of \$20,536.50. The estate was placed at \$20,536.50, including \$1,850 in cash, \$4,577.50, and chattels, \$200. The will of the "Count," as Mr. Hoffmann was called, left his entire estate to his wife, with whom he resided at 3914 Fillmore street, except for a \$1 bequest to his son, Henry E. Hoffmann. He died of a heart attack April 29 in the Sportsman's Park grandstand, at the climax of the 17-inning game between the Cardinals and the New York Giants, won by the home team.

## CONCENTRATION CAMPS DE LUXE FOR BEGGARS

Austrian Officials Approve Plan as Means of Getting Them Off Vienna Streets.

By the Associated Press.  
VIENNA, June 19.—To curb the growing numbers of beggars and tramps, the Austrian Government is planning de luxe concentration camps for them. This decision was reached at a conference in Linz of gendarmes, police and provincial and Federal officials.

The pattern for the projected camps is furnished by one at Schloggen, on the Danube in Upper Austria, where so far 783 persons have been kept, including 247 who refused to work.

The Schloggen camp was finished in August, 1935. It has four dormitories for 1200 men, and several buildings for kitchens, offices, food and storage. The original cost nearly \$7000 for each 100 men. To keep a man a day costs about 47 cents, which includes a small sum

for cigarettes and soap. Provisions are made for entertainment and rehabilitation.

## WE WERE ONLY HALF RIGHT!

"Sins of Man" Is Even Greater Than We Said It Would Be!

Crowds at the opening wept, applauded, and acclaimed it one of the greatest human dramas in the history of the screen! Rarely have we seen any audience so deeply moved—so completely swept away by any picture! Jean Hersholt scores an individual success to rival his triumph in "The Country Doctor". Read what the critics say!

"... every bit as good as *Sorrel & Son*, *Hamorques*, *Stella Dallas* and heart dramas of similar nature that scored tremendous success... magnificent performance."

—Hollywood Reporter

# STOCK MARKET

## ON A LIGHT TURN

Selective Buying Helps Support a Few Issues. But Profit-Taking Carries Down a Number of Leaders Fractions to 2 or More Points.

By the Associated Press.

NEW YORK, June 19.—Selective buying helped support a few issues in today's stock market, but profit-takers sent down a number of leaders fractions to 2 or more points.

There was little change in the general news picture, and observers attributed the unsettled market largely to technical factors involved in the recent advance. The close was irregular. Transfers were around 800,000 shares.

The motors gave little lead to the slight increase in automobile production. General Motors' output had advanced 31 units to 100,733 compared with 95,561 a year ago. The stocks of Chrysler improved, while General Motors was backward.

Philip Morris and Zenith Radio got up a point or so each. Several of the oils, including Standard Oil of New Jersey and Pure Oil, were in demand as gasoline price cutting seemed to be subsiding.

American Telephone was heavy throughout on repeated threats of a reduction in rates of its New York subsidiary. Among other losers were U. S. Steel, Bethlehem Steel, Western Union, Radio, Westinghouse, Johns-Manville, Greyhound Corporation, U. S. Smelting, Parker Rust Proof, North American, Santa Fe, N. Y. Central, Woolworth, Montgomery Ward and Du Pont.

Wilson & Co. common was actively lower.

U. S. Pipe & Foundry, Youngstown Sheet & Tube and Republic Steel were exceptions in the steel group, holding small gains.

Wheat advanced 3 1/4 to 4 1/4 cents a bushel on crop weather reports.

Corn was also up 2 1/4 to 3 cents.

Bonds were mixed. Gold currencies rallied in terms of the dollar as the French Finance Minister announced the franc would not be devalued.

The list continued to slip in the final few minutes of the session, although the volume did not expand to any extent.

Additional losers included Northern Pacific, Briggs Mfg., Schenley, T. S. Rubber, Electric Power & Light, International Telephone & Telegraph, Celanese, Sperry, Douglas Aircraft, Anaconda, Goodyear, Deere, National Biscuit, Distillers' Corp., Seagrams, International Nickel and International Harvester.

Loews' emerged with a slight advance, and American Crystal Sugar, General Electric and Pennsylvania were about even.

At mid-afternoon the French monetary unit was up 0.004 of a cent at 65.88 cents, Swiss franc showed a gain of 10 of a cent at 32.46 cents, Belgian were ahead .01 of a cent at 16.92 cents and guilders pushed forward .05 of a cent at 67.65 cents.

Sterling was off 1 cent at \$5.02.

Cotton finished up 20 cents to \$13.9 a bale.

News of the Day.

While emphasis was still being placed on pleasing business news, Wall Street evidenced nervousness over the new corporation tax bill.

Many brokerage customers, therefore, joined the "wait-and-see" contingent on the theory that share prices should retrace some of their recently gained ground.

In view of the fact that steel mill operations are at the highest level in several years, analysts were somewhat puzzled by the dip in the principal stocks of this industry.

The thought was advanced, however, that rumors—already denied—of wage increases and a consequent lowering of earnings may have had their effect.

The apparent subsiding of bonus bond cashing put a damper on the stock market, although, in the long run, these are expected to benefit substantially from payments to the veterans.

The rails were unexcited by the freight loadings reported for last week which disclosed a more than seasonal decline from the previous week. The aggregate was considerably above the corresponding period last year.

Most of the power shares indicated reluctance of owners to part with them at sizable concessions. With electric consumption making pronounced strides toward new peaks, some believed a number of the utility companies will record excellent profit showings the remainder of the year.

Midweek Trade Review.

Holders of merchandising stocks read with satisfaction the week-end review of Dun & Bradstreet, which pointed out that retail sales during the week bore more heavily to the brick and mortar preparations for a broadening of activity during the early summer months.

The review said that most seasonal lines shared in the advance. More progress in fall buying was noted in the wholesale field, although volume here held close to that of the preceding week.

Other surveys estimated department store sales in May recorded a year-to-year increase of 12 per cent, chain store distribution was up 15 per cent and mail order turnover

<b>EARNINGS AND DIVIDENDS</b>	<b>\$63,000,000 GOLD GAIN DURING WEEK</b>
---------------------------------------	---

Orders, factory productions  
and other business items.

By Standard Statistics Co., Inc.  
NEW YORK, June 10.

**NEW YORK, June 12.**—The Federal Reserve Bank today is expected to continue its clearing period by receiving new data in sales statements and detailed reports for changes in the volume of stocks, if any, on comparative basis.

**AIRCRAFT.**

**INSURANCE, REAL ESTATE AND RELATED LINES.**

Kelley Insurance Co., of Transport Co.—President said sales of company are running 35 per cent ahead of like 1935 period and are expected to continue.

**MACHINERY.**

United Machinery Co.—United Machinery Company—Illinois Steel Corporation has ordered from this company a complete installation of United Machinery Co. type new continuous 100-inch plate mill at Wayne Pump Co.—Common share earnings before Federal taxes, six months and nine months ending March 31, 1936, \$2.25 and \$2.25, respectively.

**FEDERAL RESERVE BALANCE.**

By the Associated Press.

WASHINGTON, June 19.—The weekly condition statement of Federal Reserve Banks disclosed today that \$83,000,000 in gold had entered this country during the week ended June 17 to bring total American stocks to \$105,543,000, a new all-time peak.

The increase was occasioned primarily by the weakened condition of the French franc.

Mid-month financing of the Government caused member bank reserve valance to drop \$939,000,000, decreasing the total to \$4,894,000,000, an amount estimated by the board still to be \$1,000,000,000 in excess of legal requirements.

During the week the treasury

**MISCELLANEOUS**

**CROWN CORK & SEAL CO.**—Common stock purchase warrants to be attached to company's new \$2.25 cumulative preferred stock will entitle the holder to buy one-quarter share of common stock at \$55 a share to June 30, 1937; \$60 a share to Dec. 31, 1937; \$65 a share to May 15 thereafter and to June 30, 1941; then the warrants would expire.

**FEDERAL RESERVE BANK OF ST. LOUIS**.—Declared a stock dividend of 20 per cent on common stock owned by holders of regular quarterly cash dividend of 50 cents per share, payable Aug. 1.

**ILLINOIS CANNING CO.**—Subsidiary, Geo.-Illinois Can Co., acquired the assets of St. Louis Can Co. of St. Louis, Mo., which transferred its assets to the subsidiary. It declared usual dividends of 87½ cents on 6 per cent preferred stock; 75 cents on 6 per cent preferred stock; 12½ cents on 6 per cent preferred stock; 12½ cents on 6 per cent stock; giving effect to these distributions of \$12.25 a share on 6 per cent preferred stock, \$10.62½ a share on 6 per cent stock and \$9.62½ a share on 5½ per cent stock.

**TENNESSEE ELECTRIC POWER CO.**—Preferred-share earnings, 12 months ended March 31, 1937, were \$1,000,000.

**UNION PACIFIC RAILROAD AND RAILROAD EQUIPMENT TRUSTS**.—The Union Pacific Trusts withdrew \$964,000,000 from commercial institutions and redeposited it in Federal Reserve Banks.

The condition statement said:

"The daily average volume of Federal Reserve Bank credit outstanding during the week ended June 17, as reported by the Federal Reserve Bank of New York, was \$2,485,000,000, an increase of \$9,000,000 compared with the preceding week and a decrease of \$1,000,000 compared with the corresponding week in 1935."

**RESERVE BANK CREDIT**

"On June 17 total reserve bank credit amounted to \$2,480,000,000, an increase of \$9,000,000 for the week. This increase corresponds with increases of \$111,000,000 in money in circulation, \$100,000,000 in treasury cash and deposited with Federal Reserve Banks, and \$100,000,000 in deposits with member banks."

**Kanana City Southern Ry.—May** net railway operating income was \$296,384, compared with \$280,000 in 1934. Railway operating income was \$1,163,745 against \$328,856.

**Rocky Mountain Ry.—Common** share earnings, five months ended May 31, were \$35.35 against deficit of 25 cents a common share.

**Southern Pacific Co.—Common** annual earnings, it would receive bids until noon, June 1, for the purchase of bonds exceeding \$1,000,000 first mortgage 5½-cent bonds of Southern Pacific Industries, Ltd. dated April 1, 1936.

**Texas & Pacific Railway—Preferred** common shares, 100,000 shares, were \$1.90 against 18 cents.

**RETAIL TRADE.**

**Norwich** reported a quarterly dividend of 15 cents and regular quarterly dividend of 35 cents on common shares.

**United Fruit** reported a quarterly dividend of 25 cents a share was paid on this issue.

by decreases of \$939,000 in member bank reserve balances, and \$62,000,000 in non-member deposits and other Federal Reserve Accounts and an increase of \$63,000,000 in monetary gold stock. Member bank deposits on June 17 were estimated to be approximately \$2,040,000,000 in excess of requirements.

"Relatively small changes were reported in holdings of discounted and purchased bills and industrial advances. An increase of \$50,000,000 in holdings of United States Treasury bills was offset by decreases of \$47,000,000 in holdings of Treasury notes and \$1,000,000 in

Tulsa Chaitillon Corporation—Company uses its prices on knitting yarn and wool to conform with new prices quoted the market.		States Treasury bills." Changes for Week.	
UTILITIES.		Changes in the amount of reserve bank credit outstanding on related items during the week and the year ended June 17, 1936, were reported as follows:	
Alabama Power Co.—Preferred share earnings, 12 months ended May 31, were \$5.50 against \$7.96.		1936 1935 (in millions of dollars.)	
Brooklyn Union Gas Co.—Preferred share earnings, 12 months ended May 31, were \$9.26 against \$8.61.		Bills discounted	2
Brooklyn Borough Gas Co.—Declared quarterly dividend of 75 cents and participating dividend of 84 cents on stock.		Bills bought	3
Brooklyn-Manhattan Transit Corporation—Common share earnings, 11 months ended May 31, were \$8.21 against \$8.21.		U. S. Government securities	2,430
Brooklyn & Queens Transit Corporation—Preferred share earnings, 11 months ended May 31, were \$8.89 against \$8.89.		Industrial advances (not including 25 million conversions, June 17)	30

## DEAD WHALE NOW AT BEVERLY, EXCLUSIVE SUMMER COLONY

Residents Slam Windows Shut When Carcass Floats to Shore Again.

By the Associated Press.  
BEVERLY, Mass., June 19.—The 75-foot carcass of a whale which has floated into Marblehead and Gloucester several times during the past week, drifted on the Beverly shore, an exclusive summer colony, today. Residents of the North Shore section promptly slammed windows shut and frantically called Mayor James A. Torrey of Beverly for aid in getting rid of the carcass.

The dead whale bobbed languidly in front of the estate of Mrs. Joseph Leiter, widow of the wheat king. Mayor Torrey declared Marblehead, where the whale landed yesterday, had deliberately planned to permit the whale to float off Beverly's shore. He said Marblehead nurtured a grievance against Beverly because both cities claimed to be the birthplace of the United States navy.

Last night a Marblehead boat yardmaster towed the carcass to sea, hopeful it would stay away from shore. Three times previously Gloucestermen and coast guards, using rifles and machine guns and driving the hull of the coast guard patrol boats into the whale, attempted to rid the shore of its presence.

## MOTION TO SET ASIDE GENERAL AMERICAN ORDER

Kentucky Home Life Co. Opposes Sale of 30,000 Shares of Southwestern Stock.

The Kentucky Home Life Insurance Co. filed a motion with Circuit Judge John W. Joynt today asking him to set aside the order he entered Tuesday authorizing State Superintendent of Insurance R. Emmet O'Malley to approve the proposed sale by the General American Life Insurance Co. of 30,000 shares of stock of the Southwestern Life Insurance Co. stock to the Dallas Service Corporation.

The Kentucky Home has an interest in the case because it was a large stockholder in the old Missouri State Life Insurance Co., whose assets, including the Southwestern Life stock, were taken over by the General American in September, 1933.

The General American, through the Missouri State Life, acquired 105,000 shares of the Southwestern Life stock, a controlling interest. The Kentucky Home, in its motion to set aside the order making possible the sale of 30,000 of these shares, argues that the 75,000 shares which General American would retain would depreciate in value because they would no longer be a part of the controlling block. The motion asks that General American be required to sell all or none of its Southwestern Life holdings.

**WHEAT UP 43-4C IN CHICAGO**  
All Grains at Season's Top Prices on Reports of Drouth.

CHICAGO, June 19.—The price of wheat today rose 4 1/2 cents a bushel, within 1/4 of the limit permitted in one session, in a bull market inspired by reports of crop losses in drouth regions.

September wheat reached 93 1/2 cents a bushel just before the market closed and other deliveries here as well as in other major North American markets rose sharply in sympathy. Wheat, corn, oats and rye futures sold at the highest prices of the season on the Chicago board of trade.

**Alma Gluck's Auto Kills Girl.**  
TORRINGTON, Conn., June 19.—An automobile driven by Mrs. Alma Gluck Zimbalist, noted soprano and wife of Efrim Zimbalist, the violinist, struck and fatally injured Minnie Prusanti, 13 years old, within a few hundred feet of the girl's home here today. Mrs. Zimbalist said the girl stepped out from behind a parked car and that she had no time to stop.

## METHODS FOR FIGHTING CHINCH BUG INVASION

Dust Barrier Effective in Dry Weather—Creosote or Gas Tar Also Efficient.

Special to the Post-Dispatch.

COLUMBIA, Mo., June 19.—Immediate start by Missouri farmers in establishing barriers to fight a chinch bug invasion threatening crops in many sections of the State was urged today in a warning by Dr. Leonard Haseman, State entomologist of the University of Missouri College of Agriculture.

Asserting that "every day delayed in establishing barriers means the loss of acres of corn," Dr. Haseman made public information on setting up effective barriers. Dr. Haseman's suggestions are as follows:

"In dry weather the one barrier available to every farmer whose soil will form a dust mulch is the log-furrow barrier. This was used long before creosote and gas tar were available.

"If creosote or gas tar are not

available for an oil barrier, farmers should plow a furrow and drag a gate post or short length of iron into a fine bed of dust is formed. A six-foot length of log 12 to 18 inches in diameter will round out a perfect dust furrow better than anything else readily available to most farmers.

"If the bugs are already on the first few rows of corn or cane the barrier should be placed in the field between them. The dust barrier is 100 per cent effective if properly made and maintained so long as rain does not interfere. While it costs only the labor of a boy and a horse, the mistake of simply running the log back and forth in the furrow a few times each day should not be made. On the average, the layer of dust should be stirred and the bugs ground into it every 15 minutes from about 9 or 10 o'clock in the morning until sundown."

## \$1000 FELLOWSHIPS AWARDED TO 4-H CLUB GIRL AND BOY

Winners Will Study Nine Months With U. S. Department of Agriculture.

WASHINGTON, June 19.—Ruth Durrenberger of Orlando, Fla., and Keith Jones, Okanogan, Wash., today were awarded fellowships of \$1000 each, providing for nine months' study with the Agricultural Department, for outstanding achievements in 4-H Club work.

The awards were made at a ses-

## FINANCE MINISTER SAYS FRANC WOULD NOT BE DEVALUED

Introduces Measure to Government Control Bank of France Through Decree.

WARNS THOSE WHO SEND GOLD ABROAD

Rejects Heavy Capital Because "It Would Bloodless Treasures 1936."

By the Associated Press.

PARIS, June 19.—Vincenzo Aurilio, Minister of Finance, declared in the Chamber of Deputies today that the French franc would not be devalued and that France would not recover the huge gold and other capital assets sent abroad. He read the country's financial balance sheet showing a deficit of 14,900,000,000 francs since January, 1935. (The franc is currently at about 658 cents.)

Bill for Control of Bank of Deputies introduced the government control of the franc through decree power. He disclosed the bank had advanced 14,000,000,000 francs to the treasury by discounting.

Aurilio reported the treasury needed more than 14,900,000,000 francs without counting the cost of restoring the pay and pension of Government employees cut to the levels from which they were cut by Government.

He said the treasury's immediate resources were 840,000,000 francs in bonds remaining to be issued.

Aurilio told the Chamber that 200,000,000 francs were being sent abroad since January, 1935. The Minister said he placed faith in economic recovery to the Government's financial difficulties.

A tumultuous clamor by the left almost drowned out the Minister's recitation of his balance sheet. The Leftists shouted "Rightists who tried to interfere."

Attacking "the legion of economists who are more numerous and turbulent," he said some were "sincere," but added that there were financial groups who were waiting for the time when devaluation would come to "capitalize on their own, thanks to the triumph of their capital, enlarge and strengthen by the fine foreign skies."

He declared: "Who can devalue the franc? The alignment of the franc is a discipline on the body and an international standing of economic peace has not been realized."

"In the face of this lack of national guarantee," said devaluation would lead to "repercussions," higher prices, a violent reaction by labor and the Leftists.

Assaulting Trade Barriers

Saying he doubted the franc was over-valued, Aurilio laid the blame of foreign trade to traders raised by other nations. He said French wholesalers sold only "eight" rather than those of the franc.

He added that revaluation by devaluation of the franc gave the treasury a profit of 2,000,000,000 francs after off the advances of the Bank of France.

Offers Amnesty to Exporters

He offered amnesty to exporters of this capital, but added to confiscate the goods of those "frauds" were disclosed. This latter phrase referred to the fact that France is required to declare their foreign bank to the authorities.

In making his declaration, introduced into the Chamber which would exempt from report exportation of capital. "On the other hand," the Minister stated, "frauds who discovered will result in more penalties up to the exclusion of sums equivalent to the cleared goods and to deprive civil rights."

"Negotiations will be started by the Government of neighboring countries for the joint suppression of evasions and tax frauds."

He added that the Government's anti-devaluation declaration was the fear or hope of the nation of the franc, to which he attributed the great flight of capital.

To Offer Short Term Bonds

Aurilio announced the government would seek a public subscription.

By the Associated Press.

PARIS, June 19.—Vincent Auriol, Minister of Finance, declared today in the Chamber of Deputies that the French franc would not be devalued and that France would endeavor to recover the huge amount of gold and other capital which has been sent abroad.

He read the country's financial "balance sheet" showing the 1936 "deficit" already was "six or seven billion francs" despite economic and previous deflation policies. (The franc is currently valued at about 6.55 cents.)

**Bill for Control of Bank.**

Auriol introduced into the Chamber of Deputies a bill to give the government control of the Bank of France through decree powers. He disclosed the bank already had advanced 14,000,000,000 francs to the treasury by discounting bonds.

Auriol reported the treasury needed more money to pay the cost of restoring the pay and pensions of Government employees and veterans to the levels from which they were cut by Government decrees.

He said the treasury's only immediate resources were \$400,000,000 in bonds remaining to be issued.

Auriol told the Chamber that 60,000,000 francs were being hoarded, including 26,000,000 sent abroad since January, 1935.

**Fall in Economic Recovery.**

The Minister said he placed his faith in economic recovery to solve the Government's financial difficulties.

**SECTION**

**Red Shirts, Clenched-Fist Salute**

**Follow Socialist Rule in France**

**Bastille Day to Be Made Occasion for Mass**

**Demonstration of Leftist Unity Under**

**Premier Blum.**

By the Associated Press.

PARIS, June 19.—The new Socialist Government under Premier Blum has turned to ritual and mass demonstrations to stimulate and unite its followers. A full display of the leftist pageantry has been called for July 14, when workers will celebrate Bastille day and their recent labor victories.

The leftist salute—an extended arm with a clenched fist—has become a general signal at ceremonies attended by the Premier and his Ministers. Socialist youths have donned red shirts and blue ties for guard duty at people's front meetings.

When Blum and several of his official associates delivered their "ministerial declaration" to the people of Paris, they walked to the platform over a red carpet.

More than 60,000 enthusiastic followers jammed the Sports Palace to thrust their clenched hands in salute to the new Chief of the Government.

Between speeches, a squad of crooners intoned the "Internationale," whose hymnal strains have virtually replaced the martial refrain of the "Marseillaise."

A cheer leader leaped to the front when the Premier asked the throng, "Have you confidence in me?" Under the leader's direction, Blum's followers roared "Yes, yes, yes."

Demonstrations in the new manner have been proposed for the Bastille day celebration, in commemoration of the fall of the royalist prison in 1789.

Banners, pictures of Leftist leaders, red flags and emblems are expected to occupy prominent places in the street parade. At the end of the line of march, officials plan to release thousands of snow-white pigeons over the Quai d'Orsay as soaring symbols of peace.

By the Associated Press.

ANKARA, Turkey, June 19.—Giant fortifications in the Dardanelles, costing an estimated \$400,000,000, will be the long-time goal of Kamal Ataturk's Turkish Government, according to informed sources here.

For the present, however, in view of Turkey's financial position, it is not expected that any mention of such extensive plans will be made at the 10-power conference at Montreux, Switzerland, on June 22, when Turkey's request for remilitarization of the Dardanelles zone will be considered.

Heavy artillery and mines, capable of breaking havoc against an enemy if not providing an absolutely iron-clad defense, are expected to be the first step in Ataturk's program for the 47-mile straits, connecting the Aegean with the sea of Marmora, where more than half a century ago, French and Turkish troops were killed during the World War.

Demilitarized in 1923 by the treaty of Lausanne, the Dardanelles today is still as vital a Near East gateway to the Western world as it was when the siege of Troy centered around its possession.

Under the Lausanne treaty, signed by Great Britain, France, Russia, Japan, Italy, Rumania, Yugoslavia, Bulgaria and Greece, the Turkish Government withdrew all military forces from the zone and guaranteed free passage to fighting ships of all nations in time of war.

Since then, four prime factors have arisen which are confidently expected to override past objections to Turkey's remilitarizing the area.

**Adjourns Is in Doubt.**

**CLARK ATTACKS**

**DIRECT PAYMENTS**

**Agrees With Borah It Is**

**Leaser of Two Evils**

**Compared With Indirect**

**Mail Subsidy.**

By the Associated Press.

WASHINGTON, June 19.—The Senate today passed a bill intended to enlarge the American merchant marine through direct subsidy payments.

The bill carried without a record vote and was sent immediately to conference with the House for action on Senate amendments. Whether the differences can be adjusted before adjournment of Congress is in doubt.

Senator Clark (Dem., Missouri), made the principal speech in opposition to the subsidy, which would substitute direct payment for the present mail contract subsidy system.

Clark said the bill was "wrong in principle, un-American and contrary to the long established tenets of the Democratic party. It would be perfectly impossible for me to support this bill or any other ship subsidy measure."

**What the Bill Provides.**

The bill would create a United States Maritime Commission, composed of five members, to administer the act. The amount of operating subsidy paid would be determined after an investigation of the relative cost of operating vessels here and abroad.

For construction, a subsidy up to 50 per cent of the cost would be authorized with approval of four of the five members of the commission.

Operators would have to put up 25 per cent in cash. The Government would lend the remaining 25 per cent at 3 1/2 per cent to be repaid over 20 years. If a reputable operator could not put up the 25 per cent the Government could construct vessels and charter them to him.

A \$25,000 salary limitation for officers of companies receiving a subsidy would be prescribed.

Clark agreed with Senator Borah, Idaho, that the bill provided a system which was "the lesser of two evils" compared with the indirect mail subsidy.

Senator Guffey (Dem., Pennsylvania), offered an amendment to provide that American materials be used whenever practicable in American shipyards. It was agreed to without a record vote.

An amendment by Senator Steiwer (Rep., Oregon), to permit the employment of aliens, ineligible to citizenship, to constitute up to 20 per cent of the employees in the steward's department of a boat receiving a subsidy was rejected, 46 to 7.

The bill provides that for one year all licensed officers and 80 per cent of the crew shall be American citizens. The percentage of the crew required to have citizenship would increase 5 per cent a year until it was 90 per cent.

An amendment by Senators Black (Dem., Alabama), and Borah to permit appeal to the Court of Claims to settle differences over the amount to be paid present holders of mail contracts was approved without a record vote. Black said it was intended to give the government an appeal from any excessive award made by the commission.

An amendment by Black to give a 6 per cent differential to the Gulf coast, as well as the west coast, to shipbuilders in the award of bids was rejected. Black cast the only vote for it.

**New Decree Means Reopening of Places Near California Border.**

By the Associated Press.

MEXICO, D. F., June 19.—President Lazaro Cardenas has legalized many games of chance in the Federal District and the territories of Lower California and Quintana Roo.

A decree published in the Official Gazette, which becomes effective tomorrow, lists as permissible horse and dog races, cock fights, dice games, lotteries and raffish.

Left out of the list of permitted games are roulette and baccarat and Secretary of Interior Silvano Barba Gonzalez said emphatically it was the Government's intention to bar them.

The decree, he explained, is intended to clarify previous rulings concerning gaming and give the Federal Government full supervision. He said the Interior Department would pass on applications for permits to open gaming houses.

The Government order means that activity will be resumed at Tijuana and Agua Caliente, gambling resorts just across the United States border in Lower California, which were closed by Cardenas in December, 1934, the first month he was in office.

**HOW ALLIES WON**

**JEWISH AID WITH**

**PALESTINE PLEDGE**

**Lloyd George Tells Com-**

**mons That National Home**

**Was Promised to Get**

**Valuable Support.**

By the Associated Press.

LONDON, June 19.—How a national home for Jews in Palestine was promised to gain world-wide Jewish support for the allied cause in the World War was told to the House of Commons today by David Lloyd George, war-time Prime Minister.

He said the promise of the national home by Lord Balfour, then Lord President of the Council, was made at a time when Great Britain was in desperate straits and that the Jewish response was immediate and valuable.

"The Balfour declaration," said Lloyd George, "was made at one of the darkest times in the war."

"The French army had mutilated, the Italian army was on the eve of collapse, America had hardly started to come in."

"There was nothing left but for Great Britain to confront the most powerful military combination the world ever has seen."

"We came to the conclusion it was most vital we should have the sympathy and co-operation of that most remarkable community—the Jews throughout the world. They were helpful in America and even in Russia."

"We proposed this to the Allies, France, Italy, the United States, and all the others accepted."

"I bear testimony to the fact that the Jews responded to the appeal which was made."

"I do not know whether the House realizes how much we owe to Dr. Chaim Weizmann, that marvelous scientist. (Weizmann was director of the British Admiralty laboratories from 1916 to 1919 and now is president of the world Zionist Congress.)"

"He absolutely saved the British army at a critical moment, when a particular ingredient essential for our great guns was absolutely exhausted."

"This great chemical genius solved the problem and he was only one of many who rendered great service to the allied cause."

Lloyd George did not name the ingredient.

He said Great Britain must retain its mandate over Palestine as an obligation of honor.

**Would Put Farley in Civil Service.**

WASHINGTON, June 19.—The Postmaster-General and his four assistants would be placed under civil service regulations by a bill introduced yesterday by Representative McLeod (Rep., Michigan). It would extend the civil service to all civilian employees of the Government.

**'MAD MONK OF RUSSIA' LOSES \$100,000 LABEL SUIT ON BOOK**

Publishers Contended Statements About Him in "Rasputin: The Holy Devil" Were True.

NEW YORK, June 19.—Sergius M. Traufanoff, once known as "Ilidor, the Mad Monk of Russia," lost his \$100,000 label suit yesterday against the publisher of the book "Rasputin: The Holy Devil," in which Ilidor charged his character was defamed.

Counsel for Ilidor, in his closing argument, charged that the book, written by Rene Fulop-Miller, depicted his client as a cheap, filthy, disgusting, horrible creature, and declared that the laws of this country hold that one cannot just print of a living person things that will make it (a book) sell.

In reply, counsel for the defendants, the Viking Press & Garden City Publishing Co., publishers of the book, contended that every statement about Ilidor contained in the book, was true and authenticated.

### SENATE SENDS SHIP SUBSIDY BILL TO CONFERENCE

Continued From Page One.

Fork, said the Pacific coast had been given the differential on account of the additional cost of materials there as compared with the Atlantic and Gulf coasts.

A filibuster designed to force House action on the legislation developed after the subsidy bill was passed.

Billbo Starts Filibuster.

Then Senator Billbo (Dem.), Mississippi, took the floor to block final action on the \$992,620,872 Treasury-Postoffice supply bill, carrying \$26,000,000 for continuing the present system of subsidies through ocean mail contracts until the House voted on the direct subsidy plan.

"I'm willing to join with those who oppose subsidies for a favored few by speaking until Congress adjourns," he said.

Billbo gave up the floor after a prolonged speech. Whether he would resume the filibuster later was not disclosed.

### GENEVA LABOR PROGRAM SUBMITTED TO CONGRESS

Roosevelt "Invites Attention" to Five Draft Conventions and One Recommendation.

WASHINGTON, June 19.—President Roosevelt submitted to Congress yesterday for its consideration five draft conventions and one recommendation adopted at the international labor organization meeting in Geneva a year ago.

The conventions deal with employment of women in mines, limitation of work hours in coal mines, a 40-hour week, an international plan for maintenance of rights under invalidity, old age and widows' and orphans' insurance, and reduction of hours in the glass bottle industry. The recommendation concerned unemployment of young persons.

The President's message of transmittal said that "representatives of the Government and of American employers and American labor attended the nineteenth session of the conference of the International Labor Organization held at Geneva, June 4-25, 1935. He added that the conference adopted with the American representatives voting favorably, the conventions and recommendation he submitted.

Mr. Roosevelt made no recommendations, but "invited" the attention of the Congress.

### FINANCE MINISTER SAYS FRANC WILL NOT BE DEVALUED

Continued From Page One.

tion of short term bonds in small denominations to be offered for sale within a few days.

Meanwhile, "to live," the Government will ask the Bank of France to Finance it "publicly and directly without shame or hypocrisy."

This statement referred to the discounting of bonds.

Denying any intention to nationalize private banks, the Finance Minister said they, as well as corporations, would be subjected to more strict supervision.

Auriol flatly rejected the Communists' "soak the rich" proposal for a heavy capital tax on the ground it would "kill the bloodless treasuries of 1936." He promised, instead to introduce bills later for tax reform and for lower interest rates on money.

### ARMED LEAGUE CHIEFS DEFY ORDER TO DISBAND

Defiance greeted a dissolution order against armed Rightist leagues.

Chiefs of four armed leagues refused to accept an official command to disband their organizations—the Croix De Feu, the League of French Solidarity, the Young Patriots, and the Francistes.

At the same time four parliamentary agents of the Nationalist troops "dissolved" by Government decree opened a counter-attack on the forces of Premier Blum's Peoples' Front. Four deputies announced they would introduce a resolution demanding the dissolution of groups affiliated with the Socialist and Communist parties. These include the "Red Falcons" of the Young Socialists and the Communist "Advance Guards."

The Senate enacted into law the last of Premier Leon Blum's labor measures, passing the 40-hour week proposal, 182 to 84, after a vigorous Rightist effort to make the reform contingent on international acceptance of shortened hours.

More than 200,000 workers remained on strike but officials said the "folded arms" movement was slowly diminishing. Only scattered instances of violence were reported.

Three Leaders to Appeal.

Three of the armed league leaders declared they would appeal the Government's dissolution order to the Council of State, while Marcel Bucard, Franciste chieftain, asserted his followers were willing to die if necessary to continue the work of "remaking France."

"There are still judges in France," said Col. Francois de La Rocque, head of the Croix de Feu. "Our movement cannot for a moment be stopped."

"If the Government opposes us it will have to declare a dictatorship of Socialism and Communism."

De La Rocque said his league would "meet all consequences without fear or weakness. The measures taken against us are illegal. As the mouthpiece of more than 1,000,000 citizens—men and women—I cannot accept it."

Basis of Appeals.

Leaders of the Rightist leagues expected to base their appeals against the dissolution order on the contention their organizations were now constituted as political parties. They will also contend the Cabinet's decree exceeds its powers.

The council of state, which is the supreme tribunal of administrative jurisdiction, may be petitioned by anyone challenging the power of the Government.

Consisting of 25 members as a separate judicial system with the

Minister of Justice presiding, the council is powerless to invalidate legislation but its decisions carry great weight and are usually followed by the Government, legal authorities said. The body is not an appeal court in the strict sense of the word but rather a court of first and last instance. Its origin came from the old Roman consistorium which has existed in various forms under French kings. The council was abolished during the revolution and was re-established in its present form a few years later.

Premier Blum is a former member of the council.

### DEMONSTRATIONS FORBIDDEN

Marseilles authorities forbade a Nationalist "tri-color demonstration" planned for Sunday to protest against the display of red flags on buildings occupied by strikers. The French tri-color emblem was ordered raised alongside the red

banners after Chamber of Commerce officials criticized "union leaders."

The refusal of employees at the American Hospital near Paris to work was condemned by newspapers after the strike had been amicably arbitrated and the workers returned to their jobs with promises of shorter hours and more pay.

"It was infinitely regrettable," commented the Socialist newspaper Le Populaire. "The working class must not give the impression public services—above all a hospital—will not be permitted to function before conciliation efforts have been pursued to the limit."

Textile strikers at Mille Fleurs refused to allow the management to operate the plant and kept officials captive in the establishment for an hour and a half. The employees, in their turn, refused to negotiate with the workers until the mill was evacuated.

## Today

(Reg. U. S. Pat. Off.)

Much for Science.  
Can It Aid Government?  
Napoleon's Square.  
80 Should Be Young.

By ARTHUR BRISBANE.

NEWTON D. BAKER, Secretary of War in the big war, tells graduating students of the Massachusetts Institute of Technology it is their duty to "carry science into politics." Scientists, Mr. Baker thought, must seek for the solution of world problems when the great international crisis comes as it surely will come.

A sufficient "great crisis" seems to be here now, with many countries wanting to fight each other, different classes already fighting each other, and in this richest country in the world—10,000,000 human beings living practically on charity.

If that is not a real crisis, few would care to see one.

Mr. Baker thinks people are attracted by Father Coughlin and Dr. Townsend, by "a belief that what they promise ought to be true, because they are so enticing in their unscientific aspects."

It would be pleasant if scientists, as such, could solve government problems and dispose of "great crises." But, is there really any reason to think they could do so? Newton was a great scientist, certainly; but it is related that his only contribution to scientific government was limited to a suggestion that a broken window pane be replaced.

Einstein might, if he chose, prove to you that the "square of the hypothesis" does not exist. But, if you asked him how to solve the money question he would reply, "How do I know?"

Men who have dealt with great crises and public affairs have not usually been scientists. One who tells you, "I could read and write and cipher to the rule of three, and that was all of my education at the age of 22," dealt with one crisis only. That was Abraham Lincoln. Oliver Cromwell, no scientist, knew how to rule in a crisis, cutting off a head and then taking charge himself.

Bismarck was no scientist, but he made Germany an empire, and he would have avoided trouble for many Germans if he could have lived forever.

Science calls for scientists, and government in a crisis calls for force of character, decision, common sense and action.

On his expedition to Egypt, Napoleon took along a group of the ablest scientists of his day, thinking it would add to his dignity.

When fighting began he formed a hollow square and ordered "donkeys and scientists in the center," wishing to protect them. The scientists were superior to the donkeys, and also superior to Napoleon, but not for fighting.

Science deals with the abstract, common sense and experience deal with the concrete and practical.

A scientist is said once to have put his watch in boiling water, holding an egg in his hand for about three minutes, looking intently at the egg. That absence of mind might indicate a great scientist, but it would not do for a man in charge of government.

George Bernard Shaw, not yet 80, says "I must give up public speaking. I am too old." That surprises you from a Celt and an Irishman. At 80 many men have been vigorous in thought and body; for instance, Pope Leo, Von Moltke, Gladstone, Michelangelo.

Not one of those, however, suffered from handicaps that have aged George Bernard Shaw prematurely; he is a vegetarian and a teetotaler. Youth and strength reside in a saddle of four-year-old mutton and good, light claret, greatly diluted with water.

# IF YOU ASK MY OPINION

By Martha Carr

Dear Mrs. Carr: I am planning to trip to Los Angeles in July and August. As I am not acquainted either with extensive travel or the California climate, will you please plan for me, through your column, an inexpensive wardrobe? I am 17 years old, brown-haired and brown-eyed. I live in a small place.

STYLE-CONSCIOUS.

I can always plan better, if my correspondents will give me some idea of the activities they expect to indulge in when they go on such trips as this. Again, the northern and southern parts of California have quite different climates. The weather in the months of July and August is rather warm and rainy in September. July and August are cooler there than in Los Angeles and adjacent country. A coat suit of light weight wool, or silk or a sheer, either wool or printed, in the latter case, will be invaluable. They say out there you must wear a light coat early in the morning completely buttoned up. At 10 o'clock you unbutton two buttons at the neck. At 11 one more; at 12 remove the extra coat, at 2 put it on, at 4 button two buttons and at 6 button it all the way tightly. And so you can expect coolish mornings and evenings, though not for a very thick coat. You will, of course take a polo or tweed topcoat for motoring and shore wear, and a knitted suit is a necessity.

For little dances or suppers, you can wear a washable summer party gown, but should you be traveling much, you will find a flowered chiffon for the real boon. Your accessories will be just what you would wear here, a little evening cape or jacket, or your light pastel-colored sports coat.

Usually there are alert reporters around a Marriage License Bureau and all ready at the chambers of the local Judges. But whether you are well-known enough for them to pounce upon the news of your marriage, which would interest a good many people, I do not know. It may be that a request at some of these places could keep your marriage out of print, but the chance of having this published is about the same in all places.

A girl is of legal age to marry, without consent, in Missouri at 18 years.

ABOUT two months ago we lost our little dog and we were so fond of it. He was a wire-haired terrier, with white black spots and brown ears. We had this dog since he was two months old. We have inquired at the dog pound and the humane society and have no trace of him. If anyone has found him, will let you know, I shall appreciate it.

What is the value of a 1913 nickel and where could I take this personally, to find its value? Will you kindly tell me where I can obtain information about girls' camps?

DOG-LOVER.

YOU should have watched the Lost and Found column and advertised in this column for your dog; possibly you could have recovered it in this way.

A stamp and coin company will give you the information you want about this nickel.

# New York In The Viewpoint Of a Woman

Sidelights on People and Their Activities—Summer Innovations.

By Alice Hughes

NEW YORK, June 17.

I HEAR—That Helen Willis Moody, who (says mere I) will regain the national tennis championship at Forest Hills in August, has designed a really fine line of sportswear for a yarn firm. Add that to her tennis and painting. "I believe that the future of fashions for women lies in the suitable adaptation of wearing apparel for the strenuous demands of everyday life," says La Belle Moody.

That the rumba champion of New York and Hollywood is the Countess Dorothy Taylor of Frasso, who used to be Dorothy Taylor of here before she married the Roman prince, and is now chief party-tosser in the movie colony.

That dear old Schiaparelli has contributed, to her share of the summer resort gayety, three-colored parasols, very gay, on a long stick which can be plunked into the sand. They're linen. And loose, bright scarlet flannel coats for those as simply must be noticed at the shore.

That the latest linen bags sported around here have the owner's name embroidered on them in exact facsimile of her handwriting. Of course, you realize that very few of them can be read!

THE summer informality of our most formal and high-tart evening spots is proving enormously popular, proving all over again that Father always loathes a boiled shirt, but especially in hot weather.

Take Mr. John D. Rockefeller Jr.'s, seventieth-floor Rainbow Room. Ever since they let down the bars to street clothes, the swanky place has been jam-packed and full of earthy fun. And to take a balance, the current warbler is one Kathleen Barrie, who answered to the name of Mrs. R. K. Taylor Jr., when in residence on Park Avenue. Happily married for 13 years, with husband and children doing well, she likes to sing at night clubs and on the air. And does well, too.

Society folk keep right on entertaining, professionally on a summer garden, a deb, is trilling in the summer garden of the Ambassador.

CUPID is doing all right in Gotham. No less than 238 goggling, giggling couples sidled up to the marriage license clerk one day last week. It was a local record since war times. Ninety of the pairs were married on the spot by City Clerk Michael Cruise and his aides.

One of the big Fifth Avenue emporia now prides itself on a summer pick-up without alcohol. For \$2 the lady customer gets 25 minutes of soothing massage, a shower and a thorough drying, with the session topped off by an eau de Cologne rubdown. A big \$2 worth, and a real refresher!

One of the autograph maniacs got away with one of his shoes! . . . The town's biggest department store bobs up with what it calls Bride's Blessing. It's a file wherein the nervous newlywed can list everything she buys for the Little Home. Thus no duplication! Nice gift.

The old wheeze about Dancing in the Streets is literally true here, in the summer. Twice weekly, this summer, there is free dancing on the Mall in Central Park, to tunes by famous bands. Out of the teeny streets pour thousands of boys and girls. It's a marvelous sight, 2000 couples at once. Come on over!

ably save enough to go and see my little girl. And I thought if anyone had a machine which they would exchange for sewing, I could pay them for it in that way. I can give satisfactory references.

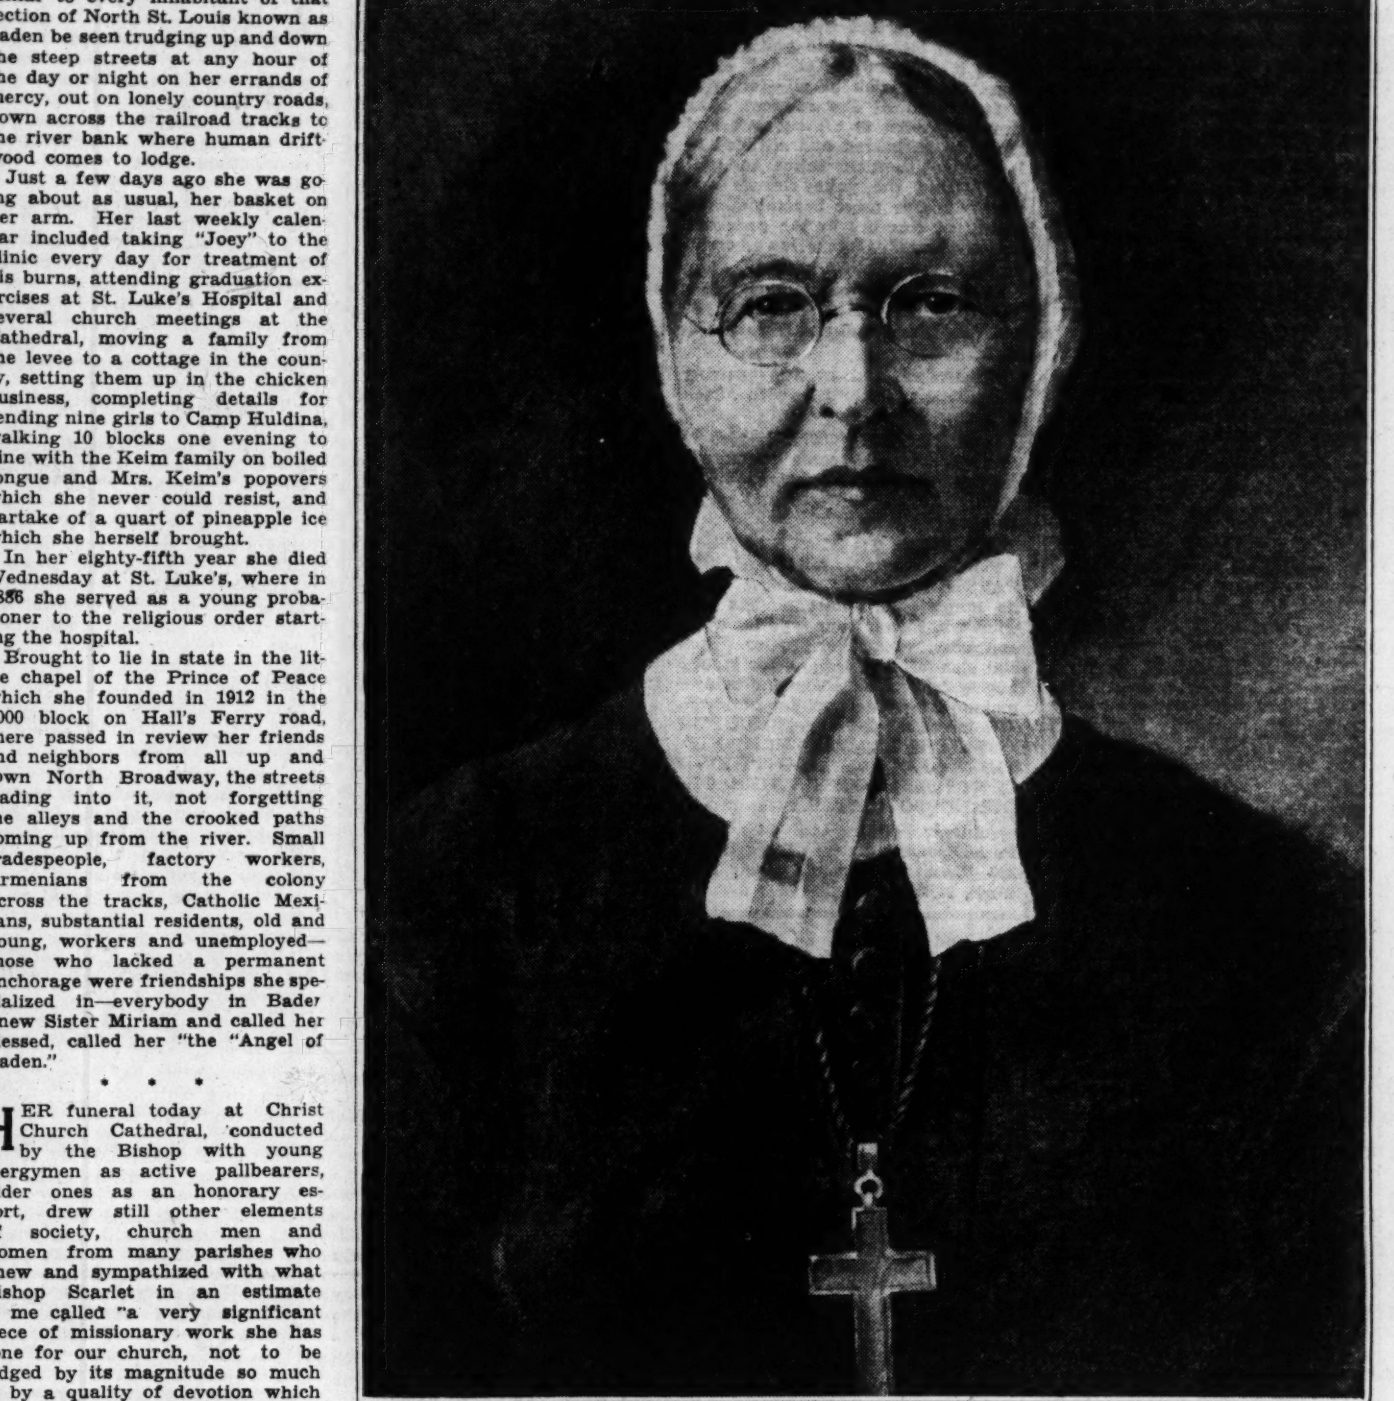

ALONE.

# ST. LOUIS POST-DISPATCH DAILY MAGAZINE

## A LIFE-LONG ERRAND OF MERCY ENDS

Sister Miriam, "Guardian Angel of Baden" Who Died Wednesday, Considered Neither Time Nor Place if the Suffering Called for Her Ministrations.

By MARGUERITE MARTYN

SISTER MIRIAM.

THE Guardian Angel of Baden" has passed to her great reward. No longer will the tall spare figure of Sister Miriam in long black habit, kind blue eyes peering nearsightedly through strong-lensed glasses out of a rosy face framed in the fluted ruching of her snowy lawn cap—last survivor of the order of the Episcopalian Sisterhood of the Good Shepherd—no longer will this figure familiar to every inhabitant of that section of North St. Louis known as Baden be seen trudging up and down the steep streets at any hour of the day or night on her errands of mercy, out on lonely country roads, down across the railroad tracks to the river bank where human driftwood comes to lodge.

Just a few days ago she was going about as usual, her basket on her arm. Her last weekly calendar included taking "Joey" to the clinic every day for treatment of his burns, attending graduation exercises at St. Luke's Hospital and several church meetings at the Cathedral, moving a family from the levee to a cottage in the country, setting them up in the chicken business, completing details for sending nine girls to Camp Huldina, walking 10 blocks one evening to dine with the Keim family on boiled tongue and Mrs. Keim's popovers which she never could resist, and partake of a quart of pineapple ice which she herself brought.

In her eighty-fifth year she died Wednesday at St. Luke's, where in 1885 she served as a young probationer to the religious order starting the hospital.

Brought to lie in state in the little chapel of the Prince of Peace which she founded in 1912 in the 8000 block on Hall's Ferry road, there passed in review her friends and neighbors from all up and down North Broadway, the streets leading into it, not forgetting the alleys and the crooked paths coming up from the river. Small tradespeople, factory workers, Armenians from the colony across the tracks, Catholic Mexicans, substantial residents, old and young, workers and unemployed—those who lacked permanent anchorage were friendships she specialized in—everybody in Baden knew Sister Miriam and called her blessed, called her "the Angel of Baden."

HER funeral today at Christ Church Cathedral, conducted by the Bishop with young clergymen as active pallbearers, older ones as honorary escort, drew still other elements of society, church men and women from many parishes who knew and sympathized with what Bishop Scarlett in an estimate to me called "a very significant piece of missionary work she has done for our church, not to be judged by its magnitude so much as by a quality of devotion which has been an inspiration to us all." Old pupils whose mathematics teacher she was at Bishop Robert City Hall, a girl's school conducted by the Sisters of the order and now defunct, paid their final tribute with relatives prominent in the social, cultural, professional life of the city. Born Susan Mary Ellis, she was the sister of Mrs. Washington E. Fischel, aunt of Mrs. George Fischel and Dr. Ellis and Walter Fischel.

No longer will street car conductors reverently relieve her of her basket to give her a lift nor bus drivers slow down to pick her up at some remote section of a country road along which she had trudged through winter snow or summer dust in answer to some call of need or distress. Not a call, either, most likely, for Sister Miriam never waited to be called. She was always alert and asking for information about an expectant mother where there would be no nurse or layette. She lived, perhaps purposely, in a flat above that of a midwife so as to be first to hear of these events. Or of an illness where there would be no doctor, or a death in circumstances of destitution, or an accident in a bewildered household.

Sister Miriam never waited to be called, but would appear unexpectedly in the midst of such scenes and take charge of the emergency with her own aristocratic hands.

A WOMAN tells of one of these providential appearances. "On awaking that morning she said my name occurred to her with the feeling that something was wrong at home. It was true my husband had been out of work for weeks and there wasn't a penny in the house, but I was busy denying that things were worse than that usual!"

If on one of these visitations Sister Miriam ever remembered she had been born and bred in an environment at the opposite end of the social scale, trained for intellectual rather than manual pursuits, or that well-to-do relatives in another part of town would gladly have spared her all contact with sordidness, memories deterred her not an instant from seizing a broom or a mop or a dishrag, pinning back her long skirts, rolling back immaculate cuffs, bathing a new baby, laying out a corpse, cooking a meal for a hungry family, doing whatever needed doing immediately while organized social agencies, if she ever appealed to them, were unwinding red tape. She was the

word was not uttered aloud by young females in the hearing of disapproving elders; however, it might be whispered in private. Digging deeply enough into memories of a pre-historic age, I can recall being one of the girls in a solemn procession headed at the rear by a black-garbed sister, out after study hour for a constitutional around Compton Hill. When we would pass a drug store and a group of ogling lads, it was Sister Miriam's way, as one of our severest chaperones, to say, "Don't look at the houses, girl." Boys were not to be mentioned!

Better housing conditions and wholesome recreation for the young were among other "pet projects. Boys' clubs and girls' clubs met in the basement of the church and the small playground in the rear. Sister Miriam herself would join in "Going to Jerusalem," "Musical Chairs," such games as she had played as a girl, but there must be no jazz music or the suspicion of a tap step. They could make scrap books for the less fortunate children in hospitals and training schools but there must be no pictures of moving picture beauties or comic strip characters among the clippings. A god-child on whom she lavished affection was not to be envied for the shoe-top-length dresses Sister Miriam bought her. Little girls coming into church bareheaded—a woman must not come before the Lord with her head uncovered, said St. Paul—would be chagrined when old-fashioned old women's hats Sister Miriam kept handy for the purpose were clapped upon their heads.

Of benefit bridge parties and raffish as means of raising worthy funds, she was equally intolerant. "A house built on gambling will never stand," she would object.

Boys—at Bishop Robertson Hall

ADVERTISING I came to know later was to her another modern abomination. Believing her financial resources to be limited to a deaconess' stipend from Christ Church, income from a trust provided for her personal support by the late Dr. Fischel, the elder, and voluntary contributions, knowing the pinch penny struggle by which she accomplished so much, often I have wanted to do a piece about her mission for the paper. "Publishing has been known to bring financial support," I would argue. Almost she would yield, thinking how much more could be done with more money, but at thought of seeing her own name glorified in print her hands would go up in holy horror.

Ensemble A new culotte and hat costume uses a novel nautical design which combines a number of different sea and sailor motifs into a modernistic jumble pattern that includes compasses, pilot wheels, and rope, and fish. Both culotte and hat are fashioned of silk linen.

# Sensitiveness Quite Natural In Adolescent

Parents Need to Guard Against Being Too Direct in Attitude.

By Angelo Patri

ADOLESCENT boys and girls are very sensitive about the things that concern them closely. Their personalities are very new and consequently easily bruised. A too direct word will make them

flinch and go to cover. When you feel that there is something that needs saying try to say it as indirectly as possible. If you say it with blunt directness you will drive the child into himself and frighten him so that he will avoid you in the future. That is why many adolescents keep secrets that might better be told.

The first gestures toward the opposite sex are not always admirable, but be careful. Never speak directly and bluntly about the apparent interest in a particular boy or girl. Take it as you might the weather, as it comes. Know that the change is strongly in favor of this interest's passing and another coming in its stead.

Bring in other boys and girls, including the one of strongest appeal at the time. There are more ways of killing a cat than by choking him with butter, but that is one very good way. At this time give the boy or girl some interesting books dealing with their special problems—Alice Adams, Seventeen, The Right Thing. But supply no maps with them and refrain from any other form of accent. Be casual, be calm.

Never ridicule an adolescent child because he tried to do something and did not succeed. If he tries to dance and bruises his own ankles, gets in everybody's way, it is all right with you. If he says anything you can tell him that everybody has to learn to think with his feet because up to the time he begins to dance he has used mainly his head and hands for that purpose. Take his vagaries good humoredly, as far as you can, and above all, don't tell him what you think too often. He will change by tomorrow and you will have to change your mind. Save the energy.

When you have to blush for some childish indiscretion or other, refrain from expressing your shame and indignation directly, and upon the heels of the offense. Wait a little. Go gently. If the child is intelligent and has been subjected to the usual forces of good breeding, he very likely knows that he made a mistake, and is suffering secretly because he made it. So don't say, in tones of exasperation, "WHY did you sit down in Mrs. Oldman's chair and leave her standing in the middle of the floor like that? Haven't you any sense at all?" Likewise don't say, "If I couldn't tell a story without bawling it up and stammering and stuttering over it, I would keep still. I thought I should die while you were trying to get out that story about the Scotchman and the smooch. And Mrs. MacTavish is Scotch! If that has escaped your observation."

The only effect that sort of treatment has is to increase the adolescent's fear of his ability to manage himself in the presence of others. He must have time and plenty of encouragement in order to be at home among strangers. He must have experience in order to know true values. He must have understanding help to get over his difficulties. That help is best given tactfully, indirectly and impersonally.

Angelo Patri will give personal attention to inquiries from parents and school teachers on the care and development of children. Write him in care of this paper, inclosing a three-cent stamped, addressed envelope for reply.

## On Broadway

By Walter Winchell

Memoirs of Colymbian's Girl Friday.  
Dear Mr. W. Your brief bulletins on Ruth's condition have me so depressed I just can't enthuse about anything. I didn't realize she was so desperately ill. . . . A story just came over the wires for the Pittsburgh Sun-Telegraph (her home town) stating Ruth went under surgery for the third time in 10 days and that Buddy Ebsen is living in the next room at the hospital. . . . Every body in town, it seems, has been phoning about Ruth—but all I could say was I didn't know any more than you itemed. . . . J. Edgar Hoover phoned about the Hollywood Reporter's rumor that he was resigning to enter the picture business. He said to tell you it isn't true, but that he intends leaving for the coast in mid-July, purely for a visit, etc. . . .

This, of course, will please you. The column you did ("G-Man-Script") wound up in Congress. . . . Representative Lamneck of Ohio offered a bill for more than the \$5 daily subsistence for Federal agents and quoted from the column. . . . That story about Eleanor Powell being John Payne's girl isn't true. The real heart is a doll named Jane Berks, who was in "At Home Abroad" when he was in the chorus of it. Jane is bound for the coast to "pull the story." . . . Your telegraph ticker sounded like it was sick, very rotten. . . .

How do you like this for understatement? Read it in a paper viz: "When a charge of dynamite failed to explode after 5 minutes, B. Yonimoto, 57, descended to investigate. He is survived by 10 children." . . . The get-to-the-point influence of the Broadway column, no doubt. . . . Hoffman was in. Said that Gordon & Revel's score in Shirley Temple's "Poor Little Rich Girl," is orchestration and that the picture is a June Christmas gift for children. Here's a novelty. . . . A movie called "Flying Hands" is being prepared. It will feature a cast of players who are deaf and dumb. Charlotte Lamberon, the mute who dances at the Hollywood is to be the star. . . . Another troupe (who won't be seen, of course) will be their voices.

Oh, I nearly forgot! Your query last Monday about "S. Stearns" being a girl (as coxswain for the male Rollins crew in the race with Manhattan) was confirmed over the sports page tickers. Caused a little rumormongering. She's barred henceforth. . . . Arthur Murray wants to play that comforting-thought game, to wit: "They don't knock—until they have to knock to get in to see you." . . . When Frances McCoy, the lark, meets a phony she always says: "Hello, your friend."

I can't wait to tell you the next paragraph. . . . It happened at the Paradise a few weeks ago. . . . "One guess" walked in with his usual group of eight or 10 in dress clothes, no less, and they proceeded to have themselves oodles of vittles and drink. . . . It seems that Nicky Blair, the owner, wasn't around, and a new waiter, who has no respect for chinch, whether they do a column or not, handed him a check—but for nearly \$40. . . . All of a sudden the press agent, who happened to see the incident, went pale. He told the head waiter how "awful" it was to hand a columnist a check, and that the place would be panned or something as a result. . . . Well, my friends, I chocked laughing when I heard the denouement. . . . The head waiter curtsied all over the place and almost cried. . . . "I'm so sorry," he said, "that's a new waiter, he didn't know you. Wait a moment, I'm getting you back your money." . . . "Oh, that's all right," was the devastating answer, "I signed it." . . . Are you hysterical?

Nat Bradwynne's priceless observation: When a guy hits the skids suddenly, it's invariably because he fell in love with the wrong woman—or with himself. . . . The Glenn McNaughton's, he's veddy so-cial, and she's Evelyn Lane, radio singer, have a flash on the fire. . . . The Vance Surnos, (she's Irene Cooper, concert singer of Cleveland) have oop'd. Her dad is the biggest mausoleum builder in the U. S. . . . Fancy that! . . . Columbus Circle, they say, will be converted into a Center like Rockefeller City in about three years. . . . Incidentally, the writers of the song "Christopher Columbus" bonered with the lyrics, to wit: "Christopher Columbus, he sailed the sea without a compass when the first is that Chris was one of the first mariners to use the floating needles. . . . Besides, his name was Christopher Pigeon, anyway."

Connie Talmadge is in New York. Desk wants to know if you can check rumors of a separation. I told them all that talk comes up every season, and doubted it. But they want you to verify it. . . . Nothing else that would keep you awake. Except that several in Andra Kostelnetz's orchestra will be you ten dollars he married Lily Pons two weeks ago.

Small Delegates at Large

By ARTHUR "BUGS" BAER

A POLITICIAN is something like weather. No matter what kind of weather it is you can always criticize it.

If it's too cold you can say so. If it's too hot you can say so. And if it's just right you can change the subject.

We have been watching the delegates now for close to 30 years. And it seems to us they never change in appearance, actions or thoughts. Even

their badges are still the same old 1906 license plates.

An instructed delegate is one who knows what he is going to do at the convention. But not why he is going to do it. An uninstructed delegate is one who knows what he ain't going to do at the convention. And does it.

Quite a few of the conventions we attended have been featured by the selection of compromise candidates. The compromise candidate is like the last potato in the barrel. You got to take him or starve.

The convention might start with a dozen good men, who will be eliminated one by one like the teeth of an old cannibal. That's when the compromise candidate steps to the bat, with nobody on base and three men already out.

He is the man of the hour, the voice in the wilderness, the guiding star, the without which no other, the people's choice, the standard bearer, the strong silent man and other quaint bargains found in a political five-and-ten basement.
